About this event

Course Title: Getting Ready to Teach Pearson's new International Advanced Level Chemistry specification for first teaching in September 2018

Course Code: 17IBAS11

Aims and Objectives of the event

During the session you will:

- Get an overview of the main changes in the new specification
- Explore possible teaching and learning strategies that may be employed for the new specification
- Look at Sample Assessments and Mark Schemes
- Look at planning and organisation for the new specification
- Explore the support and resources available from Pearson to guide you through teaching the new specification
- Have the opportunity to network, discuss best practice and share ideas with other teachers.

This event can count as 5 hours of CPD.

Pearson

15:30 – 16:00	Support Any questions?
16:00	Finish

Activity: Extended writing question

Purpose:

- To practice writing an extended writing question and mark scheme
-

Task 1

Work in groups and write an extended writing 6 mark question.

You can choose any topic from Units 2, 4 and 5.

You should select just one command word from the list in the specification.

Pearson

You can include a **limited** amount of clarification, such as 'You should include equations in your answer', but you should not give a list of bullet points.

Write the 6 indicative points for this question.
