**International Advanced Level
Modern Foreign Languages
(German)**

**Scheme of work
with grammar, structures and suggested resources**

Introduction

The following scheme of work provides an overview of the content of the International Advanced Level Modern Foreign Language specifications and shows how the content could be taught as an example approach only. Schools can adapt it to fit their timetabling and staffing arrangements. This scheme of work should be read in conjunction with the Pearson Edexcel [IAL German specification](#).

The scheme of work is based on an allocation of 5 hours per week or 10 hours per fortnight across timetables using a two-week cycle, with teaching divided between two teachers. The scheme of work is based on the assumption that the IAL level will comprise of 35 teaching weeks (or 175 hours) in each year. Provision is made for revision and preparation for the Unit 1 and Unit 2 examinations at the end of Year 1, and for revision and preparation for the Unit 3 and Unit 4 examinations at the end of Year 2. It is possible for the course to be taught as a linear course, with all four units taken at the end of the two year course.

Note that the number of guided learning hours for A level is 360. The total number of guided hours in this scheme of work is 350, which allows time for assessments and examination practice.

Grammar

The IAL specification requires students to develop knowledge of the grammatical structure of the language as detailed in the specification. Many of the grammatical points required will have already been met but will need to be revisited and reinforced during the course. The grammar requirements are outlined in the grammar list in the specification.

Vocabulary

There are no lists of prescribed vocabulary for IAL German. For each of the topics candidates are expected to have knowledge of a wide range of topic-specific vocabulary. Potential sources of vocabulary lists for topic areas are given in the "Resources" section of this scheme of work, but these should not be considered to be either prescriptive or exhaustive. Students should be encouraged to make their own lists of relevant vocabulary for each topic area. A good starting point for these would be the [Sample Assessment Material](#) and [past examination papers](#) for this specification, text books and texts studied in class.

Skills

The IAL German assessments require the following skills:

- Understand and respond to spoken German in spoken and written language
- Understand and respond to written German in spoken and written language
- Write an extended piece of writing in German responding critically to themes and ideas from the topic, text or film studied (Year 2)
- Discuss, in spoken German, one of the topic areas chosen for the Unit 1 test (Year 1 Unit 1)
- Discuss, in spoken German a chosen issue and further unpredictable issues (Year 2 Unit 3)
- Show knowledge of and apply accurately the grammar and syntax prescribed in the specification.

All of these skills should be practised throughout the course, as appropriate. Teachers will find examples of question types in the Sample Assessment Material and past examination papers and further details of assessment types in the German.

How to use this scheme of work

The prescribed topic areas for IAL MFL and the amount of time allocated to each in this scheme of work are:

Year 1

- Topic Area 1 – Youth matters (40 hours)
- Topic Area 2 – Lifestyle, health and fitness (40 hours)
- Topic Area 3 – Environment and travel (40 hours)
- Topic Area 4 – Education and Employment (40 hours)
- Revision and preparation for Unit 1 and Unit 2 exams (15 hours)

Year 2

- Topic Area 5 – Technology in the German speaking world (40 hours)
- Topic Area 6 – Society in the German speaking world (40 hours)
- Topic Area 7 – Ethics in the German speaking world (40 hours)
- Study of a topic, text or film (30 hours)
- Revision and preparation for the Unit 3 and Unit 4 exams (25 hours)

The columns in this lesson plan indicate:

- an overview of the time allocated to each topic/subtopic based on 175 teaching hours per year (in addition to the time allowed for exam revision and preparation)

- the grammar and structures to be covered at each point of the course

Why transferable skills?

In recent years, higher education institutions and global employers have consistently identified the need for students to develop a range of transferable skills to enable them to respond with confidence to the demands of undergraduate study and the world of work. To support the design of our qualifications, we have mapped them to a transferable skills framework. The framework includes cognitive, intrapersonal skills and interpersonal skills and each skill has been interpreted for MFL to ensure they are appropriate. Further information on transferable skills is available on the [IAL webpage](#). These materials, including this scheme of work, will support you in identifying and developing these skills in your students.

Assessment Objectives

AO1 Understand and respond, in speech and writing, to spoken language.

AO2 Understand and respond, in speech and writing, to written language.
