Instructions to Candidates

Introduction

This examination consists of two parts:

- **Preparatory studies**

You will be given **six school weeks** before the Timed Examination for preparatory work in response to the theme presented in this paper.

You should use the preparatory period to investigate the theme, experiment with your ideas, and gather visual information about the people, places and objects you need to help you to develop your final work. Any reproduction used, or a photocopy of it, must be included with your preparatory work.

Use only one side of the paper. Boards and canvas stretchers should not be used. If you use pastel or chalk, these must be fixed. If you use paint and prints, these must be dry. After the examination, you will have an opportunity to mount your preparatory studies on up to three sheets of paper (**maximum size A2**).

The preparatory studies you produce are a compulsory part of the examination as a whole, and marks will be lost if they are not submitted.

You must take your preparatory studies into the examination room to help you with your final work.

- **Timed Examination**

This consists of up to **ten hours** working under examination conditions to produce unaided work in response to the theme. **Your teacher can only help you with technical problems, such as working space, materials and equipment.**

You should take any preparatory studies which you have produced in the six-week period into the examination for your own reference.

Work in a way which is comfortable to you. If your final piece is fragile, bulky or larger than **A2 (420mm x 594mm)** in size, arrangements will be made so your artwork can be photographed and the photographs can be sent to London Examinations for marking.

A completed copy of the following label should be clearly shown in the top right-hand corner on the **FRONT** of your work.

Exploring and developing the theme

The theme this year is

Sensation

This theme can be explored in many ways and covers all specifications (Fine Art, Textiles, Photography and Graphic Design). Discuss the theme with your teacher and make sure that you produce evidence to cover the four Assessment Objectives. In your preparatory studies and in your final examination piece combined, you must show evidence that you can achieve all four of these Assessment Objectives.

The four Assessment Objectives are:

- AO1** Record observations, experiences and ideas that are appropriate to intentions.
- AO2** Analyse and evaluate images, objects and artefacts, making informed connections with the work of others.
- AO3** Develop and explore ideas, using a variety of media and processes that are appropriate to intentions.
- AO4** Review and refine ideas, modifying work as it progresses, before presenting a coherent personal response.

The suggestions on the following pages will help you to think about your ideas. You may work from any one of the starting points suggested, or you may develop a relevant starting point of your own which explores the theme, '**Sensation**'.

The total mark for the paper is **100**.

Surfaces appreciated by sight and touch

Track and ripple marks in the desert or on sand dunes. A gravel or rocky beach. Rocks covered with creeping plants or lichen in a tropical rainforest. Tree roots growing in a bedrock embankment. Wild fungi. Cliffs, valleys and rock pinnacles in a landscape created by erosion of ancient sandstone and limestone plateau. A Japanese Zen garden with stones set in light and dark raked gravel.

Façades of buildings, veined marble pillars, stone carved building decorations, figures, animals and chiselled letters. Weathered paint and wood, oxidising paint on a ship's hull, barn, factory door or louvered shutter. Mosaics, decorative wall and floor tiles, stencilled or painted.

A taste sensation

Mouth-watering citrus fruits: Minneola orange, grapefruit, tangerine, navel orange, lemon, lime, blood orange and kumquats. The cool taste of water melon, sorbet, ice cream, or ice-lollies.

Fancy cakes and gateaux bulging with cream and covered in icing and chocolate.

A Roman banqueting table laden with food: boar, venison, wild goat, mutton, lamb, suckling pig, chicken, geese, ostriches, cranes, duck, partridge, pheasants, pigeons and doves.

A medieval feast with oysters, stewed cabbage, tarts, custard, spicy mulled wine and mead.

A family picnic laid out on a cloth at the beach or the countryside with sandwiches, salad, biscuits, cake and canned drinks.

Real and imagined fear

Fear of the dark or enclosed spaces. Fear of sharks, spiders, snakes, bats, rats and cockroaches. A fear of flying or heights, the fear of falling, lifts, and the unknown. Waking up in a hot sweat after a nightmare.

Fear created by extreme weather conditions: flooding, hurricanes, erupting volcanoes. Being rescued from land and sea, the fear of drowning.

Taking part in events which have an element of fear: pot-holing, rock-climbing, abseiling down a rock face, bungee jumping, ski-jumping, hang-gliding and sky-surfing.

Speed and movement

Racing: rally cars, motor bikes, stock car or speedboat racing, speed cycling, horse racing. Ice hockey, speed skating, tobogganing, water skiing and white water rafting.

Pilots in a fighter jet or astronauts in a rocket feeling the effects of g-force on the body. The sensation of taking-off in an airliner or as a passenger on a high-speed train.

The thrill of travelling at speed on a fairground or theme park ride, a water flume or rollercoaster.

Contrasting sensations of hot and cold

Walking through thick snow or battling through a snow storm. Freezing cold hands after throwing snowballs or creating a snowman. Dipping your toe into a cold sea or jumping into a swimming pool or ice cold lake.

Cascading icicles on a rock face or hanging from the edge of a roof gutter. Tracks in the snow made by animals, skis or tyres. Patterns created by frost on glass. Ice breaking up in a frozen river or lake.

The hot dry atmosphere of the desert, the humid atmosphere of a rain forest. Feeling the heat standing round a bonfire or barbecue, sitting around the cosy heat of a coal or wood fire at home.

Creating a sensation

Performers often create sensational images: on an ice rink, trapeze artists at a circus, ballet or ballroom dancers, cultural, traditional or contemporary routines.

The spectacular opening of a pop concert or musical with flashing lights, moving sets and pyrotechnics. Fashion designers create a sensation with new collections shown on the catwalk.

Breathtaking and daring routines created by sky divers, skateboarders, windsurfers or surfers, gymnasts and divers.

A public announcement can often create a sensational reaction in the waiting audience or crowd at an award ceremony, the arrival of a famous person, or a public safety warning.
