Fine Art

Competent & Consistent/ Confident & Assured

Risk Taking
Perceptive

Research sheet one

Research sheet two

I use three artists in this board. The most famous one is Vincent Willem van Gogh. The picture on the right is one of his works. His style is mainly use short line to create images. The composition of his pictures are peaceful and quiet.

The second artist is Paul Signac. He use dots to create pictures and make the images have a feeling of fast and exquisite. I mainly use warmer colour to draw his style. The third artist is not so famous. He was a compare and I was influenced by him and draw cards.

Research sheet three

The picture on the left is very purposeful. It is an amazing piece because it can be seen from both sides.

If you see it from the left side, it shows a world like a fairy tale.

If you see it from the right side, it is the inverted images in the real world in a rainy day.

It is a beautiful poem.

In this board, I mix the styles of the other artists together. This is a nature painting and includes a lot of animals.

Style is in the hands of the artist.

— PLEASED

Each piece doesn't need to have the same goal, but they need to have the same purpose.

I love painting the things that are so beautiful in the world.

These things can reflect light and show a feeling of joy. It just like you see through a window and enjoy these things.

Final outcome total mark 50
