9-1 grading scale (1)

Awarding

- The grading system is changing but our commitment to awarding grades that accurately reflect learner exam performance remains the same.
- We set new grade boundaries (minimum number of marks needed to achieve each grade) for each assessment of each qualification.

Benefits

- Greater differentiation across levels of attainment e.g. 2 grades where the current C grade is
- Rewards truly outstanding achievement with the grade 9
- Provides more information about student attainment to help progression to A Level
- Same scale for Pearson Edexcel GCSE and International GCSE allows clear comparison with English standards, unlike old A* to G grading

9-1 grading scale (2)

The new grade 9 represents a new level of attainment and we've introduced this to really differentiate top performing students

There's greater differentiation in the middle of the range of grades, with old grades 4, 5 and 6 being equivalent to the old grade B and C

The new grading scales gives teachers more information about student's attainment to help progress to A Level, and universities more information when looking at accepting students into HE.

Where universities are looking at additional indicators of high performance, only those using the 9-1 grading scale will be able to demonstrate grades such as 5 and 9.

Using the same scale for Pearson Edexcel GCSE and International GCSE for allows clear comparison with English standards, unlike the A*-G scale.
