Context

In 1963 Ivan Morrison set up as a sole trader, making his own ice cream and ice lollies, and selling them from a van.

In the 1970s the business expanded. More vans were bought and drivers were employed during the warmer months of the year. In 1990 Ivan changed the business into a private limited company, *Nice Lolly Ltd*. Its factory and offices are located in the south of England, where land is very expensive. Ivan's son and daughter, Rayn and Gloria, are now employed as managers.

There is now large-scale production of ice cream, ice lollies and other frozen foods at *Nice Lolly Ltd*, and many different shops are supplied. The company also makes special ice cream products for special occasions such as birthday parties and company events. As a result of *Nice Lolly Ltd*'s success, Ivan is planning to open another factory.

Answer ALL questions.

**For each of the questions (i) – (v), indicate your answer by marking the box (☒).
If you change your mind, put a line through the box (☒) and then indicate your new
answer with a cross (☒).**

1. (a) (i) The use of 'Ltd' in the name of *Nice Lolly Ltd* means that it has

(6)

Ivan is bringing out a new ‘healthy eating’ luxury ice cream, to be made at the new factory. Ivan plans to use both internal and external recruitment to find employees to make the new ice cream.

(b) (i) Give **two** examples of how Ivan can recruit **internally** at the present factory for employees who will be prepared to move to the new factory.

.....

.....

.....

(2)

(ii) Give **two** examples of how Ivan can recruit **externally** for new employees.

.....

.....

.....

(2)

The competitors of *Nice Lolly Ltd* do not make any products that are similar to the new ‘healthy eating’ luxury ice cream. Ivan has decided to use a **skimming** pricing strategy.

(c) Why is this an appropriate pricing strategy for the new ice cream?

.....

.....

.....

.....

.....

.....

(4)

Ivan plans to use the following ‘below the line’ techniques to promote the new ‘healthy eating’ luxury ice cream.

- A **free sample** of the new ice cream: this will be given to customers when they buy another *Nice Lolly Ltd* product in a shop.
- A **competition**: this will be posted, on a leaflet, to people chosen at random.

(d) Assess the suitability of **each** of these techniques for promoting the new ‘healthy eating’ luxury ice cream.

Q2

--	--

3. Ivan has started to construct the next set of final accounts for *Nice Lolly Ltd.* There are some figures missing from these accounts, shown below.

Trading and Profit & Loss account

	£	£	
Sales		240 000	
Cost of sales (cost of goods sold)		<u>80 000</u>	
Gross profit		<input type="text"/>	(A)
Power costs	10 000		
Selling expenses	12 000		
Other expenses	<u>18 000</u>		
Total expenses		<u>40 000</u>	
Net profit		<input type="text"/>	(B)

- (a) Calculate, and enter in the boxes, the missing figures for **(A)** Gross profit and **(B)** Net profit.

(2)

Ivan has calculated some financial ratios for *Nice Lolly Ltd.*

- (b) What is the information that the **net profit ratio** gives Ivan?

.....

.....

.....

(2)

The final accounts of *Nice Lolly Ltd* for the last financial year contained the following.

	£
Gross profit	125 000
Net profit	40 000
Sales (Turnover)	200 000

(c) Using the formulae below, calculate the following ratios for *Nice Lolly Ltd*.

$$\text{Gross profit ratio} = \frac{\text{Gross profit}}{\text{Sales}} \times \frac{100}{1} \quad \text{Net profit ratio} = \frac{\text{Net profit}}{\text{Sales}} \times \frac{100}{1}$$

(i) Gross profit ratio

.....

(2)

(ii) Net profit ratio

.....

(2)

Ivan has the following information about two competitors.

Competitor	Gross profit ratio for 2007	Net profit ratio for 2007
<i>Ices R Us</i>	40%	10%
<i>Ice Aye</i>	35%	15%

(d) Assess, using all the information about both businesses, whether *Ices R Us* or *Ice Aye* performed better in 2007.

.....

(4)

Nice Lolly Ltd uses batch production to make its ice lollies, and flow (mass) production to make its ice cream.

(e) Describe the differences between batch production and flow production.

.....
.....
.....
.....
.....
.....

(4)

Nice Lolly Ltd accepts orders for special occasions such as birthday parties. *Nice Lolly Ltd* uses job production for these orders, which are expensive to make compared to using batch or flow production.

(f) Analyse why these orders are expensive for *Nice Lolly Ltd* to make.

.....
.....
.....
.....
.....
.....
