Commerce

Paper 1: Commercial operations and associated risks

Calculators may be used.

Total Marks

Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer **all** questions.
- Answer the questions in the spaces provided
– *there may be more space than you need.*
- You must **show all your working out** with **your answer clearly identified** at the **end of your solution**.

Information

- The total mark for this paper is 80.
- The marks for **each** question are shown in brackets
– *use this as a guide as to how much time to spend on each question.*

Advice

- Read each question carefully before you start to answer it.
- Try to answer every question.
- Check your answers if you have time at the end.

SECTION C

Answer ALL questions.

Read the following extract before answering the questions.
Write your answers in the spaces provided.

- 4 *Samsung* is a world leader in the manufacture of mobile phones and tablets. The company was started in Korea in 1938. In the first three months of 2010 *Samsung* shipped over 2.4 million products. Over the past few years, sales of its expensive products have steadily increased. **Figure 2** shows the growth of shipments from January to September 2017.

Sales of its products are through various retail outlets or purchased directly through the website. To increase sales on the website, *Samsung* offers its customers credit facilities.

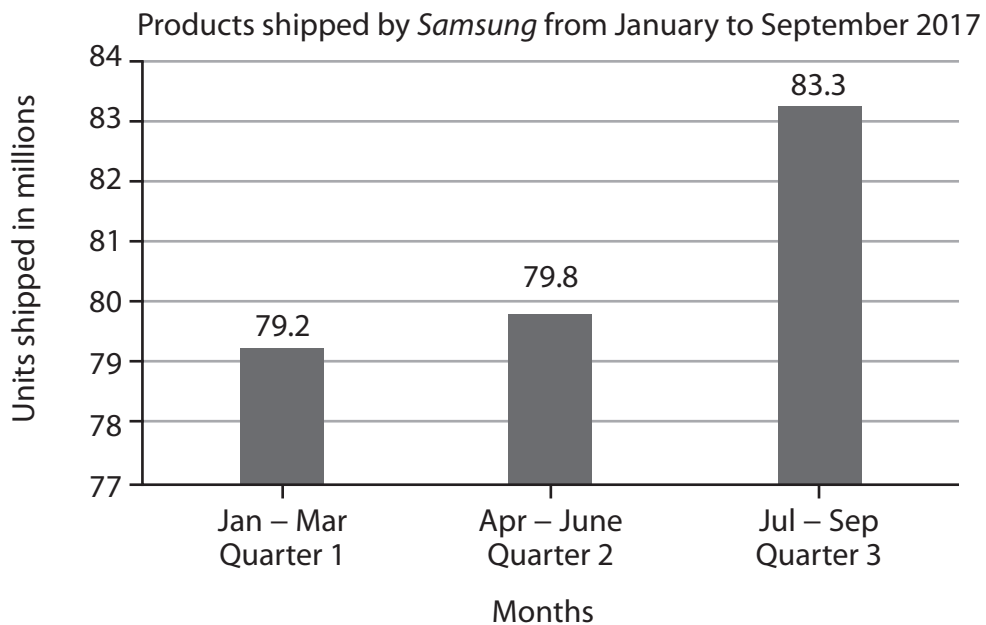

Figure 2

- (a) Calculate the percentage increase in shipments of products from Quarter 1 to Quarter 3. Give your answer to two decimal places. You are advised to show your workings.

(2)

..... %

(b) Analyse reasons why *Samsung* prefers to use its own website to sell smartphones and tablets.
