(10)

Dear Jim,

I would like to meet you ~~at~~ ^{class} in the school library this Friday
afterschool to finish the planning of our project on famous people.

There is one famous person that I'm considering now which is Emma
Watson. ~~The reason that I chose her is because she is talented in different~~
~~ways and very charming.~~ She is an actor, and she started acting since
she was little, so she has experience.

The reason why I chose her is because she is talented in ^{many} ~~many~~
different ways. She is good at acting and she is also capable of acting in
musicals. She is also very charming which may make our project ^{seem} ~~more~~
appealing. Above all, this is my suggestion, let's continue our discussion
on Friday.

Best wishes,

Dear Customer Care department,

I am writing to you to express my dissatisfaction on the
that
new coat[✓] I ordered from your department. The new coat that I ordered
arrived this morning and ~~it did~~ the product didn't turn out as ~~how I~~
I
expected it to be.
~~was expecting it.~~

Firstly, I'm unhappy with the quality of the coat. In the
description online, it was said that the coat is soft and smooth.
However it turned out to be very hard and rough.

Secondly, I'm also unhappy with the appearance of the coat.
According to the picture of the product online the coat was in sky blue, but
the coat that I got is navy.

Considering all those flaws, I would like to request to return
it and get a refund for it. Also I would like to know where I can
return ~~this~~ ^{the coat and will I} ~~when I will~~ get back my money. Thank you and I will
be expecting a reply from you.

Yours sincerely,

Dear Sir / Madam,

Recently, I brought a coat on an online company. The coat has arrived today and it doesn't meet the expectation.

Firstly, two of the buttons were missing on the front. Secondly, the size I ordered is large and the one I received is a small one. How can the company make these minor mistakes when you are setting up an online shop?

I would like the company to take this coat back and I would like my refund. This is unacceptable. If ^{your} the company does not do so, I would like a buy one get one free account on the next item I bought in your shop.

Yours sincerely,

Part 6**Sample 1**

In your summary you **must**:

- give **three** advantages for drivers of driverless cars
- state **two** concerns about driverless cars
- give **your predictions** about how cars and the way they are driven will change in the future.

You will be awarded up to **5 marks** for using relevant information from the text.

You **must** write between **100 and 150 words only**. You **must** use your own words where possible.

(25)

Driverless cars are very beneficial for drivers. As ~~technical~~ technology becomes more advanced, cars can be driven automatically. Firstly, they can oversee the conditions of the drivers and interact with them by warning them to avoid collisions. Secondly, they can control braking and steering if they sense any risk of accident. Lastly, they can also oversee driver's health mostly to ~~sense~~ monitor the awareness of drivers. However, there are also some a few drawbacks. ~~The~~ Driverless cars make the drivers to be reliant on them and gradually lose their driving ~~skills~~ ^{techniques} when needed. Another factor is that it makes it meaningless for the drivers as they get more tired from not doing anything.

In my opinion, In the future as technology would be so much more advanced, cars won't even need any drivers and operate on their own, this is most likely to happen because humans rely on technology all ~~the~~ ^{the} time. As a result of this, ~~the rate of~~ the number of people learning to drive will be reduced majorly in the future.

This days some people died of car accident because of their ~~engine~~ ^{engine} problem. ~~issue~~ ^{mobility}. However, there is a new technology which is called driverless cars that could give benefit to drivers. ~~The advantage~~

There are advantages of driverless cars. Firstly, this may help the driver to travel much more faster to their journey. Secondly, this make the driver to do less in driving when they are tired. Lastly, people will enjoy this because of its new features.

Moreover, there is also concerns about driverless cars because this is too expensive that some people can't afford to buy it and it has potential that driverless cars

may lose control because of the system.

Furthermore, in my prediction about cars, accident might happened anytime but it depends to the driver if he or she have good skills on driving. ^{Driverless cars} ~~cars~~ ~~are~~ will make the people to work less and might change the future by using in technology and reduce ~~the~~ ^{our} natural resources. People should be more concern about their health and their conditions ~~to less car accidents~~. before driving.

The performance of cars could be altered to fit the driver. To add, the learner or teenagers who passed their tests, may have their speed limit automatically. However, driver get in the same car would be able to travel much faster. Additionally, elder individuals who are not able to drive a car often rely on public transportation.

Engineer would just make driving on a ~~vehicles~~ vehicles be safer. Even though, increase the capacity by allowing cars to operate closer to each other without crashing.

The amount of software and technology that is required to build a driverless vehicles will ~~be~~ ~~is~~ likely be quite expensive, which will need to be covered by high sale prices.
