Scheme of Work

How to use the scheme of work

This scheme of work (SoW) has been made available as a word document rather than PDF, allowing you to edit the document in a way that suits your teaching style and student needs.

International GCSEs have 120 guided learning hours.

Guidance provided within the course planners, schemes of work and lesson plans are suggested approaches that centres can adapt to suit their particular context.

The following SoW is based on 9 weeks of three lessons per week. All four Assessment Objectives (listening, writing, reading, speaking) should be covered when teaching each Topic Area.

The sections (in the order presented across the Scheme of Work) include:

- Topic Area A – Home and abroad (9 weeks)
- Topic Area B- Education and employment (9 weeks)
- Topic Area C- Personal life and relationships (9 weeks)
- Topic Area D- The world around us (9 weeks)
- Topic Area E- Social activities, fitness and health (9 weeks)
- Revision- 1 term

The columns in this lesson plan indicate:

- an overview of the time allocated to lessons broken down into 120 one-hour sessions (timing should be adjusted for shorter or longer lesson times)
- which content area this lesson (or group of lessons) relates to
- the learning outcomes of those lessons
- transferable skills support (more information on this can be found below).

Why transferable skills?

In recent years, higher education institutions and global employers have consistently flagged the need for students to develop a range of transferable skills to enable them to respond with confidence to the demands of undergraduate study and the world of work. To support the design of our qualifications, we have mapped them to a transferable skills framework. The framework includes cognitive, intrapersonal skills and interpersonal skills and each skill has been interpreted for each specification to ensure they are appropriate for the subject. Further information on transferable skills is available on the website. Pearson materials, including this scheme of work, will support you in identifying and developing these skills in students.

In the final two columns of this scheme of work we have indicated which transferable skills are explicitly assessed, and also where there are opportunities for them to be developed through teaching. Our intention is that teachers can use these columns to increase opportunities for transferable skills development in students.

AO1 Understand and respond, in writing, to spoken language

AO2 Communicate in writing, using a register appropriate to the situation, showing knowledge of a range of vocabulary in common usage and of the grammar and structures prescribed in the specification, and using them accurately

AO3 Understand and respond, in writing, to written language

AO4 Communicate in speech, showing knowledge of a range of vocabulary in common usage and of the grammar and structures prescribed in the specification, and using them accurately

		Begin with the speaking assessment.	<p>Selection and preparation of picture for Section A of Unit 3.</p> <p>Produce a bank of possible pictures for the oral which can be done by the teacher as well as the class. Many websites such as shutterstock.com and gettyimages.co.uk will provide examples.</p> <p>Choose a couple of unsuitable pictures too.</p> <p>In class discuss the pros and cons of the pictures and brainstorm possible questions appropriate to the specification. This can also be done in pairs or groups with pictures chosen by the pupils. Pupils should also choose the picture they wish to use for the speaking test.</p> <p>In class and in pairs work on the Section B of the oral including specimen answers and further development.</p> <p>Pairwork should be organised so as to encourage pupils to develop answers as much as possible.</p> <p>Practise listening skills using the SAMS and old papers from the previous specification. Similar</p>	<p>Appropriate exercises prepared by the teacher based on those in the SAMS</p> <p>A bank of possible pictures for the oral</p> <p>The suggested questions for the 2nd part of the oral</p> <p>The internet will provide many possible questions and pictures</p>				Continuous learning

			<p>materials may be available commercially and teachers can also produce their own materials with help from the Internet. Questions with multiple choice answers, gap filling exercises and the completion of forms should all be practised.</p> <p>Similar work should be carried out with reading materials which will be available from the SAMS, old specification exams and other internet sources.</p> <p>In writing practise both shorter passages of 50 words as well as longer emails , letters or blogs based on the SAMS, old specification exams and other internet sources.</p> <p>Vocabulary tests are a good idea here too.</p>
