Choosing Pearson Edexcel as your school’s International GCSE partner

Helping your students select their International GCSE options is a key moment in their schooling; it’s an important time in learners’ lives and we want to reassure you that with Pearson as your qualifications partner, you can be sure both you and your students are setting yourselves up for future success.

In this guide, you’ll learn more about who we are, the recognition and progression our Pearson Edexcel international qualifications enjoy, and we’ll take a closer look at International GCSE Science, including a choice of assessment routes (linear or modular).

We wish you the best of success for your International GCSE journey!
Welcome to Pearson

We’re pleased to meet you!

Pearson is the world’s leading learning company. We provide world class qualifications, assessments, digital content and learning experiences to international schools all over the world to enable more effective teaching and learning and to help learners increase their skills and global employability prospects.

We partner with more than 6,500 schools, universities, and employers worldwide:

- **at school level**, to offer International and UK qualifications to over 3.5 million students annually;
- **at university level**, to ensure Pearson Edexcel qualifications are recognised and accepted by universities all over the world;
- **and with employers**, by building 21st century skills into our qualifications at the outset, to ensure learners have transferable skills alongside the knowledge they need to progress into the careers of their choice.

Our qualifications heritage stretches back over 150 years

Pearson’s qualifications heritage stretches back over 150 years, our qualifications are offered in 80 countries worldwide and we mark over 10 million exam scripts per year on behalf of the UK Department for Education.

Pearson Edexcel is regulated by Ofqual, ensuring our curricula meet the highest standards and our exams follow carefully controlled procedures at every stage of their development, delivery, marking and reporting.

As the largest awarding organisation in the UK, Pearson Edexcel regularly achieves the highest marking accuracy of all UK boards.

What this means for you

You can trust Pearson Edexcel International GCSE qualifications; thousands of students around the world take these same qualifications every year, progressing onto our popular modular International A Levels (IAL®), International BTECs or the IB Diploma, and to the world’s most respected universities.

Modern, progressive International GCSE qualifications

For globally minded learners aged 14-16

Renowned across the world for academic excellence, Pearson Edexcel International GCSEs provide learners with the skills and knowledge they need to progress to International A Levels (IAL®) and onto the most prestigious universities across the world.

Pearson Edexcel International GCSEs are part of iProgress, our complete series of academic qualifications for 3 to 19 year-olds at international schools following a UK curriculum.

At every stage, our iProgress continuum delivers a consistent learning journey with world class support, assessments, and teaching and learning resources for students and teachers, everywhere in the world.

For globally minded learners aged 14-16

Renowned across the world for academic excellence, Pearson Edexcel International GCSEs provide learners with the skills and knowledge they need to progress to International A Levels (IAL®) and onto the most prestigious universities across the world.

Pearson Edexcel International GCSEs are part of iProgress, our complete series of academic qualifications for 3 to 19 year-olds at international schools following a UK curriculum.

At every stage, our iProgress continuum delivers a consistent learning journey with world class support, assessments, and teaching and learning resources for students and teachers, everywhere in the world.
About the 9–1 grading scale

In 2014, the UK Government introduced a nine-point grading scale (9–1) to raise standards and recognise top-performing students. This replaced the traditional A*–G grading. After consultation with international schools, Pearson Edexcel chose to follow the 9–1 grading scale to ensure comparability for our international students. Since then millions of GCSEs and International GCSEs are awarded each year using the 9–1 grading scale, making it the most used and recognised grading scale for this qualification worldwide.

What this means for you

Because our Pearson Edexcel International GCSE qualifications are equivalent to and benchmarked, grade for grade, against UK GCSEs, you can be confident that they are recognised and respected across the world. They offer increased differentiation for your top learners (a grade 9 represents a higher level of attainment than A*) and will deliver the progression for your learners that you want to see.

“I not only recommend the International GCSE system because of their 9-1 grading scale due to having an extra grade to differentiate the top tier students, but also because this system is recognized globally therefore it opens up more opportunities for students to study at university abroad.”

John Andrew Tampubolon, International GCSE (9-1) student at Al Yasmina School, Abu Dhabi.

Recognised worldwide for academic excellence

Designed for global learners

Pearson Edexcel International GCSEs are globally recognised qualifications for learners aged 14 to 16 with academic content and assessment designed specifically for international learners. We continually review the content of our specifications – adding international topics and examples using local contexts where possible – to ensure the content of our qualifications is ever more relevant and engaging for students around the world and to enable learning in a local context to a global standard.

Equipping learners with transferable skills and knowledge

Opportunities to develop transferable skills such as problem solving, critical thinking, leadership and collaboration, are integrated throughout each of our Pearson Edexcel International GCSE qualifications to ensure learners have the skills and knowledge they need to progress onto International A Level, the next level of study.

Suitable and accessible for ESL learners

Our International GCSE qualifications have been designed in collaboration with subject experts, teachers and university professors, to ensure that the content and assessment methods are appropriate and will enable successful progression for learners, including those for whom English is not their first language.

From International GCSE to flexible, modular A Levels, BTECs or the IB Diploma

Pearson Edexcel International GCSE qualifications are excellent preparation for Pearson Edexcel International A Levels (IAL®), International BTECs, our popular, career-focused qualifications developed in partnership with employers, or the IB Diploma.

As the next step up from International GCSEs, International A Levels are designed for students aged 16–18 who want to progress to the best universities around the world. They use the popular and flexible modular approach, which means exams are taken at the end of each unit of study or throughout the programme of study when students feel prepared and ready.

We work closely with higher education institutions around the world to secure recognition for our qualifications and are proud to confirm that International A Levels are recognised and accepted for entry to more than 650 leading universities worldwide.

What this means for you

Pearson Edexcel International GCSEs are excellent preparation for Pearson Edexcel International A Levels, International BTECs or the IB Diploma, and progression onto the world’s top universities. Over 650 higher education institutions worldwide recognise and accept Pearson Edexcel International A Level qualifications for entry onto undergraduate degree courses and with the twenty first century skills your learners will develop as part of their International GCSE curriculum, you can be confident they will have qualifications, skills and knowledge that admissions teams and employers are looking for.
Flexible Science courses to suit your students’ needs and interests

The most flexible International GCSE Science qualifications available

Pearson Edexcel offer Triple (Biology, Chemistry and Physics), Double and Single Science Awards. We are the only exam board to offer the Single Science Award, providing a Science option for all students regardless of whether they wish to continue scientific study. We also offer Human Biology.

Student confidence to sit exams

Often praised for their consistency and reliability, all Pearson exam papers follow a ramped structure, ensuring the difficulty drops at the start of each question to guide students in. This allows teachers to help students practise exam technique and give them the confidence to know that if they struggle at the end of a question, they can move on, and it will be easier again. The wording and style of the questions throughout mean they are accessible – all students can understand the question, even if they cannot answer them.

Developing practical skills

We integrate practical experiments into the specification, so our students do not need to sit a practical paper. This means that beyond mechanically completing a practical, our International Science GCSEs help students reach a holistic understanding, by integrating integrate theory and practice. The skills developed are assessed through questions in written examinations. This approach allows us to cover a broader range of practicals in our specification, and our guide for teachers supports teaching the thinking skills required as well as the practical skills.

Un-tiered exam papers

For Science, we deliver un-tiered exam papers, and are the only exam board to do so. This means that all students take the same paper, regardless of ability, and have the opportunity to reach their potential across the full 9-1 grade range.

All students can be taught together, which allows for easier timetabling and enables teachers the time to consider students’ development as they work through the content before determining whether to enter them for Triple or Double Award.

Smooth progression to International A Level

Our International GCSE qualifications enable successful progression to International A Level. Through our World Class Qualification development process, we have consulted with International Advanced Level and GCE A Level teachers as well as higher education professors to validate the appropriateness of the qualification, including its content, skills development and assessment structure.

There is progression of content and Assessment Objectives from International GCSE to International A Level.

In addition, the question styles we use (a mixture including multiple-choice, short-answer questions, calculations and extended open-response questions) prepare students for more advanced questions at International A Level.

Teacher confidence

The specification provides consistent guidance and detail so teachers have clarity on what they need to teach and to what depth. For example, in the Biology specification:

- 2.7 identify the chemical elements present in carbohydrates, proteins and lipids (fats and oils) means students only need to be able to identify the chemical elements but not describe or explain them.
- 2.10 understand the role of enzymes as biological catalysts in metabolic reactions means they will need to be able to describe and explain the role of enzymes as biological catalysts.
Choose a linear or modular assessment approach

International GCSE success is different for every student. Doing all the assessment at the end works well for many, which is why we continue to offer our trusted linear approach. We also know that spreading the exam pressure across modular unit assessments that can be taken in any exam series works better for others. This is why Pearson Edexcel now offers a choice of modular or linear assessment.

Modular International GCSE (9-1)
Biology, Chemistry, Physics and Science (Double Award)
1. First teaching: September 2024
2. First assessment: May/June 2025

How modular International GCSEs work

Units can be assessed in any exam series
With a modular route, there are no restrictions on students taking units together; all units can be treated separately, and they can be taken in any International GCSE exam series. All exam papers for modular International GCSEs are at the same standard as the exam papers on the linear route.

No time limits to the qualification
Students can take and re-sit individual unit assessments in any series. This means students have more opportunities to get feedback to improve their performance and get the grades they need to progress.

Students ‘cash in’ unit results when ready
Once a student has all their unit results for the qualification they are taking, they exchange those for a grade - this is called ‘cashing in’. To cash in, all units must have been entered.

The benefits of a modular route
The modular International GCSE route provides learners with a sensible and authentic form of assessment that reflects how today’s students sit other high stakes assessments in their lives.
Spreading their examination load across exam series provides more opportunities to demonstrate their skills and abilities and to receive feedback to help improve their performance and secure the overall grades they need to progress.
It can help reduce the mental load and stress at exam time by allowing learners to focus on one year of curriculum content at a time and spread out their high stakes exams over two years and multiple exam series. It also allows learners to take advantage of multiple re-sit opportunities if needed.
Providing this option at International GCSE supports progression onto the popular modular Pearson Edexcel International A Levels.

The benefits of a linear route
Whilst the modular approach works well for students who want to spread the exam load and bank their performance throughout their studies, doing the exam all in one go at the end of the period of study works well for others. Some students improve drastically in the final year of their course, so may feel more prepared to be examined on all specification content at the end of their studies.
The linear approach means assessments for all units are taken together in one exam series so students study all the content and then prepare for all the assessments at the end of their period of study, rather than a more continuous pattern of study and assessment.

What this means for you
We are the only awarding organisation to offer a linear and modular route for International GCSEs and parity between the two. You can choose the right assessment approach to benefit your students and to help create a compelling competitive advantage for your school.
If you choose a modular route, we will support you in moving to this approach. The choice is yours! If you are happy with the linear approach, there is no need to move to a modular route; our linear International GCSEs will continue to be offered and taken widely by students around the world.

Learn more at pearsoninternational-schools.com/ModularInternationalGCSEs
A choice of assessment routes for Pearson Edexcel International GCSE (9-1) Biology

The modular and linear approach contain the same content, but the modular approach breaks the journey into two units with an exam at the end of each unit. If you are already offering Pearson Edexcel International GCSE linear this will continue to be offered and remain exactly as it is.

Linear exam structure and content summary

Science (Double Award): a closer look

A choice of assessment routes for Pearson Edexcel International GCSE (9-1) Science (Double Award)

This qualification is for students and schools who wish to study all three sciences but in the curriculum time of two International GCSEs. Students study two-thirds of the content of each of Biology, Chemistry and Physics International GCSE, are assessed separately on the three sciences, and are awarded two International GCSE grades in Science.

The modular and linear approach contain the same content, but the modular approach breaks the journey into two units with an exam at the end of each unit. If you’re already offering Pearson Edexcel International GCSE linear this will continue to be offered and remain exactly as it is.

Students taking the linear approach will have studied all the content before the exam so our linear specification is structured in a way where all topics can be assessed in both exam papers.

Examinations on both routes contain a mixture of different question styles, including multiple-choice questions, short-answer questions, calculations and extended open-response questions. A calculator may be used in the examinations.

Teachers can co-teach with Biology, Chemistry and Physics as they will cover identical material examined in Paper 1.

Content Summary

See the content summary for Paper 1 on page 11.

Everything is covered apart from Topic 2e, Extraction and uses of metals.

Paper 2: Biology

1-hour 10 minute written examination.

Marks 60, 16.67% of total GCSE

Content Summary

See the content summary for Paper 2 on page 11.

Everything is included apart from Topic 5d. Cloning.

Paper 2: Chemistry

1-hour 10 minute written examination.

Marks 60, 16.67% of total GCSE

Content Summary

See the content summary for Paper 2 on page 13.

Everything is covered apart from:

Topic 2d. Electric charge
Topic 4d. Energy resources and electricity generation
Topic 5c. Change of state

Paper 2: Physics

1-hour 10 minute written examination.

Marks 60, 16.67% of total GCSE

Content Summary

See the content summary for Paper 2 on page 15.

Everything is covered apart from:

Topic 8d. Cosmology

Please note this is a proposed model and could be subject to change. The linear and modular routes are designed provide the same level of demand overall while providing candidates with a choice of assessment approaches. Linear gives the option for fewer, longer exam papers with a larger amount of content covered in each. Modular gives the option for more, shorter exam papers which allow for more focused revision of certain topics.

Find out more about our qualifications at pearsoninternational-schools.com/internationalgcse
Human Biology: a closer look

Preparation for advanced studies

This course gives students the opportunity to develop skills that will support progression to further study in biology and a range of other subjects, in biological sciences and elsewhere. It will equip students with a comprehensive understanding of human biology, enabling them to apply biological principles in diverse contexts, develop practical skills within ethical boundaries, critically evaluate information, and effectively communicate findings, preparing them for further studies in biology and related fields like health and social care.

Pearson Edexcel International GCSE (9-1) Human Biology is not currently available in modular format.

*Available for selected subjects

Supporting you every step of the way

As a Pearson Edexcel centre, you will have access to a full range of integrated support services, tools and resources to support the delivery of your International GCSEs, including:

- Easy, all year-round access to our specifications, sample assessment materials and teaching resources
- **Teacher training**: in-person and online including free ‘Welcome to Pearson’ sessions to help your educators make the most of our qualifications
- **Expert subject advisors** on hand to help with any subject-specific queries you may have and available to support your educators throughout the year
- **examWizard**: a huge bank of past papers and mark schemes to create topic tests and revision activities in minutes (Available for Biology, Chemistry and Physics)
- **ResultsPlus**: our popular online results analysis tool, which also includes an insightful group analysis service
- **Access to Scripts**: our service that allows you to view your candidates’ marked exam papers for free online or as downloaded PDFs, providing a rich source of information to inform future teaching plans and approaches
- Plus, local, experienced Pearson **Regional Development Managers** who are there to support you every step of the way.

What this means for you

We will support your educators to deliver an outstanding teaching and learning experience for every student taking Pearson Edexcel International GCSEs.

With examWizard, they will be able to prepare topic tests and revision activities based on past exam questions to help prepare students for their final assessments, and using ResultsPlus, they will be able to analyse their mock results to pinpoint where they may need further support and can then tailor their teaching to support them.

Post exams, our Access to Scripts service will allow your educators to review students’ exam papers for free, providing greater visibility and a deeper understanding of individual students’ exam performance and helping them identify skills gaps to tailor teaching plans for future cohorts.

Your free subject support

Our subject advisors provide fast, reliable, expert help and aim to answer all emailed questions within 48 hours and resolve 90% of issues phoned in on the first call.

Email TeachingScience@pearson.com or call +44 (0) 344 463 2535
A wide range of teaching and learning resources

Written specifically to support our qualifications

Developed for the Pearson Edexcel International GCSE (9–1) Science, these resources have progression, international relevance, exam practice and support at their core. They provide comprehensive coverage of the new specifications and are designed to support students with the best preparation possible for the examination.

What’s available

For learners

- **Student Book**: Printed Student Book with 3-year digital access to an ActiveBook, a digital version.
- **International GCSE Lab Books**: Instructions and writing frames for the Core Practicals, as well as practical skills analysis and evaluation questions and answers.
- **Science Progression Scale**: A wide range of teaching and learning resources, including practice assessments.

For educators

- Biology, Chemistry and Physics are supported by our brand-new Teaching Hubs platform, designed to save teachers time and help them deliver high-quality lessons.
- **Online Teacher Resource Packs** provide further planning, teaching and assessment support for the Single Science Award and Double Science Award resources.

Prepare students to start their International GCSE Science courses with confidence

**Pearson Power Starters** are fast, focused online programmes, specifically written to prepare students to begin their International GCSE Biology, Chemistry, Physics or Science Double Award.

The perfect summer school booster to get all students starting the new academic year on track, the programme enables you to quickly identify gaps in learning and then in just a matter of weeks ensure your students have all the skills and knowledge they need for a smooth transition.

Learn More

Curriculum-matched student books

Reviewed by a language specialist to ensure the book is written in a clear and accessible style, and including glossaries of specialist Science vocabulary.

The Student Book provides 3-year access to an ActiveBook, a digital version of the Student Book, which can be accessed online, anytime, anywhere supporting learning beyond the classroom.

Specifically developed for international learners, with appropriate international content.

The same resources can be used for either the linear or modular routes.
Spend less time planning and more time teaching

Designed to help your teachers spend less time planning and more time teaching, our brand new Teaching Hubs for Biology, Chemistry, Physics, Double and Single Science provide everything educators need to deliver lessons to a consistently high standard, with complete coverage of all guided teaching hours, along with exam-preparation resources and CPD support.

Easy to use, and ideal for both specialist and non-specialists, this next generation online platform is available as an annual subscription and helps your teachers to:

- **Spend less time planning:** with schemes of work that break the International GCSE Science specifications into hour-long sessions, 360 detailed lesson plans for each hour of teaching and time allocations to suit different lesson lengths, as well as in-depth teacher guidance.

- **Deliver great International GCSE lessons:** with thousands of front-of-class resources linked from the lesson plans – including interactive exercises, animations and videos – plus an overview page containing all the top-level information about the lesson as well as links to the textbook.

- **Get every class exam-ready:** with lesson plans giving partially scripted instructions for communicating the new learning points and correcting misconceptions, plus interactive exam-preparation resources ideal to further illustrate complex concepts and consolidate learning.

Available now for Biology, Chemistry & Physics

Available Dec 2024 for Science Double and Single Awards

Thousands of lesson resources at the click-of-a-button

A huge range of resources for student engagement. All relevant lesson resources are clearly indicated within each lesson plan and all hyperlinked to save you time searching.

1500+ slideshows with activities, worked examples and illustrations

200+ videos and animations to explain key concepts and clarify practical work

1000+ downloadable worksheets and homework sheets
