

INTERNATIONAL GCSE SCIENCE (SINGLE AWARD)

ACTIVITY 1

Your pack contains a copy of the Single Award specification.

Consider the nature of the topics within the new Single Award specification.

How do they compare with the Double Award or separate science courses that you are currently teaching?

Your Task

- Identify any topics in the specification that are of high demand for your Single Award students.
- Suggest ways in which you will teach this new content.
- What resources would be useful?
