SECTION C

Answer ALL questions.

Read the following extract before answering the questions.

Write your answers in the spaces provided.

- 4 Stanley Market in Hong Kong is a traditional Chinese market selling a variety of products to local visitors. It is popular with foreign tourists staying in Hong Kong and they visit the market to buy souvenirs from the stalls.

Hanamoji is one of the stall holders at the market. He sells a wide selection of Chinese lanterns for inside and outside the home. To make a profit Hanamoji needs a large number of locals and tourists to visit the market and buy his products.

On Saturday Hanamoji sold goods to the value of 5 400 Hong Kong Dollars (HKD) and made a profit of 2 300 HKD. On Sunday his profit had increased by 27.5%

- (a) Calculate, to two decimal places, the profit Hanamoji made on Sunday. You are advised to show your working.
