- 2 Jalina left her home at 10 00 to cycle to a park.  
On her way to the park, she stopped at a friend's house and then continued her journey to the park.  
Here is the distance-time graph for her journey to the park.

- (a) On her journey to the park, did Jalina cycle at a faster speed before or after she stopped at her friend's house?  
Give a reason for your answer.
