Pearson Edexcel International Award in Primary Mathematics (JMA11)

For first teaching September 2018

First examination June 2019

Issue 1

Edexcel, BTEC and LCCI qualifications

Edexcel, BTEC and LCCI qualifications are awarded by Pearson, the UK's largest awarding body offering academic and vocational qualifications that are globally recognised and benchmarked. For further information, please visit our qualification website at qualifications.pearson.com. Alternatively, you can get in touch with us using the details on our contact us page at qualifications.pearson.com/contactus

About Pearson

Pearson is the world's leading learning company, with 35,000 employees in more than 70 countries working to help people of all ages to make measurable progress in their lives through learning. We put the learner at the centre of everything we do, because wherever learning flourishes, so do people. Find out more about how we can help you and your learners at qualifications.pearson.com

Achievement test	5
Mark scheme	37

Introduction

The Pearson Edexcel International Award in Primary Mathematics is designed for use in international schools. It is part of a suite of *iPrimary* qualifications offered by Pearson.

These sample assessment materials have been developed to support this qualification and will be used as the benchmark to develop the assessment students will take.

General marking guidance

- All candidates must receive the same treatment. Examiners must mark the last candidate in exactly the same way as they mark the first.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than be penalised for omissions.
- Examiners should mark according to the mark scheme – not according to their perception of where the grade boundaries may lie.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification/indicative content will not be exhaustive. However different examples of responses will be provided at standardisation.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, a senior examiner must be consulted before a mark is given.
- Crossed-out work should be marked **unless** the candidate has replaced it with an alternative response.

Specific guidance for mathematics

1. These mark schemes use the following types of marks:

- **M** marks: Method marks are awarded for 'knowing a method and attempting to apply it', unless otherwise indicated.
- **A** marks: Accuracy marks can only be awarded if the relevant method (M) marks have been earned.
- **B** marks are unconditional accuracy marks (independent of M marks)

2. Abbreviations

These are some of the traditional marking abbreviations that may appear in the mark schemes.

- | | | | |
|------------------|-------------------------------------------------------------------------------------------------|---------------|---------------------------------|
| • ft | follow through | • o.e. | or equivalent (and appropriate) |
| • $\sqrt{\quad}$ | this symbol is used for correct ft | • d... | dependent or dep |
| • cao | correct answer only | • dp | decimal places |
| • cs0 | correct solution only. There must be no errors in this part of the question to obtain this mark | • sf | significant figures |
| • isw | ignore subsequent working | • awrt | answers which round to |

3. If a candidate makes more than one attempt at any question:

- If all but one attempt is crossed out, mark the attempt which is NOT crossed out.
- If either all attempts are crossed out or none are crossed out, mark all the attempts and score the highest single attempt.

Please check the examination details below before entering your candidate information

Candidate surname

Other names

--	--	--	--	--

**Sample Assessment Material for first teaching
September 2018**

Time: 1 hour

Paper Reference JMA11/01

**Mathematics
Achievement test**

You must have:

Ruler, pen, pencil, eraser, angle measurer.

Total Marks

Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer **all** questions.
- Answer the questions in the spaces provided – *there may be more space than you need.*
- **Calculators are NOT allowed.**
- You must **show all your working out** with **your answer clearly identified** at the **end of your solution.**

Information

- The total mark for this paper is 60.
- The marks for **each** question are shown in brackets – *use this as a guide as to how much time to spend on each question.*

Advice

- Read each question carefully before you start to answer it.
- Try to answer every question.
- Check your answers if you have time at the end.

Pearson

SECTION A

Answer ALL questions.

In Section A put a cross in each correct box to indicate your answer. If you change your mind, put a line through the box and then put a cross in another box .

1 What is 5 m equal to?

50 mm

A

500 mm

B

50 cm

C

500 cm

D

(Total for Question 1 is 1 mark)

2 Work out

$$84 \div 12$$

7

A

9

B

42

C

72

D

(Total for Question 2 is 1 mark)

3 What is $\frac{1}{6}$ of 48?

6

A

8

B

12

C

16

D

(Total for Question 3 is 1 mark)

4 What is the name of this shape?

Kite

A

Parallelogram

B

Rectangle

C

Rhombus

D

(Total for Question 4 is 1 mark)

5 A timetable for Bus A and Bus B is shown.

	Bus A	Bus B
shops	2:34	2:45
park	2:41	2:51
school	2:47	2:55
hospital	2:53	3:03

Ahmed gets on Bus B at the shops.

What time will Ahmed get to the school?

2:47

A

2:53

B

2:55

C

3:03

D

(Total for Question 5 is 1 mark)

6 What does the digit 5 represent in the number 253641?

hundreds

A

hundreds of
thousands

B

tens of
thousands

C

thousands

D

(Total for Question 6 is 1 mark)

7 Work out

$$14 + 4 \times 6 - 2$$

30

A

36

B

72

C

106

D

(Total for Question 7 is 1 mark)

8 The marks for some students in their English test are shown.

12 7 15 12 9

What is the mean mark?

8

A

11

B

12

C

15

D

(Total for Question 8 is 1 mark)

9 Here is a sorting table.

	Multiple of 3	Not a multiple of 3
Multiple of 4	A	B
Not a multiple of 4	C	D

Which cell would 20 be in?

A

B

C

D

(Total for Question 9 is 1 mark)

10 What is the perimeter of this regular hexagon?

35 cm

A

36 cm

B

42 cm

C

49 cm

D

(Total for Question 10 is 1 mark)

11 Simplify the expression

$$4x + 5y + 3x - y$$

$7x + 5$

$13x$

$7x - 4y$

$7x + 4y$

A

B

C

D

(Total for Question 11 is 1 mark)

12 Which one of these is a square number?

15

39

81

132

A

B

C

D

(Total for Question 12 is 1 mark)

13 Alice has \$20

She buys a book for \$4.50 and a pen for \$3.99

How much money does Alice have left?

\$8.49

A

\$11.51

B

\$12.51

C

\$16.01
