Introduction

Pearson LCCI JETSET/ESOL qualifications

Pearson LCCI JETSET/ESOL international qualifications are intended for students who are not native speakers of English and who wish to achieve a high quality, internationally recognised qualification in English that is available and recognised world-wide. The qualifications are designed to reference the descriptions of language proficiency in the Common European Framework Reference for Languages (CEFR). The levels in the CEFR have been mapped to the levels in the National Qualifications Framework for England Wales and Northern Ireland.

The Pearson LCCI JETSET/ESOL international qualifications are skills-based English language qualifications that have been designed to develop and assess a student's ability to communicate in English. The tests are taken under examination conditions at increasing levels of difficulty and cover the four skill areas of Listening, Speaking, Reading and Writing.

The qualifications are suitable for assessing pupils from the level of beginners at around age 6, to approximately the level defined in the Council of Europe Framework for Language Learning as 'C2 – Proficient User'. The qualifications are used overseas and are now increasingly being taken up in the UK by centres teaching students from homes where English is not the main medium of communication,

The qualifications are available at eight levels as shown in the table on the following page.

Each level, except Foundation level, consists of three mandatory components (Listening comprehension test, Reading test and Writing tests) and one optional component (Speaking test).

JETSET Levels 2, 3, 4, 5, 6 and 7 qualifications have been aligned to the Common European Framework of Reference for Languages (CEFR) at levels A1, A2, B1, B2, C1 and C2 respectively. These levels have also gained accreditation from Ofqual as ESOL International Qualifications.

The most recent alignment of these levels to the CEFR was conducted through the mapping of the JETSET syllabus and sample assessment material to the Pearson General English syllabus. The mapping was initially done by professional Pearson staff and then further validated by an independent external expert. The Pearson General English syllabus, which is robustly aligned to CEFR, acts as a reference for course and test designers to ensure learning and test materials are placed more precisely on the Global Scale of English; a common scale in use across Pearson's English language products which is also robustly aligned to CEFR levels.

Overall the outcomes of the JETSET mapping show a satisfactory alignment to the CEFR.

Purpose of the specification

This specification sets out:

- the objectives of the qualification
- any other qualification(s) that a student must have completed before taking the qualification
- any prior knowledge and skills that the student is required to have before taking the qualification
- any other requirements that a student must have satisfied before they will be assessed or before the qualification will be awarded
- the knowledge, understanding and skills that will be assessed as part of the qualification
- the method of assessment and any associated requirements relating to it
- the criteria against which a student's level of attainment will be measured (such as assessment criteria).

Qualification aim

Study based on any of the Units in this specification should foster a positive attitude to the learning of English while at the same time:

- developing knowledge and understanding of the spoken and written forms of English in meaningful contexts
- developing the ability to listen and read for gist and detail and apply this knowledge and understanding to speaking and writing
- developing the ability to communicate effectively in English through the written and spoken word
- developing knowledge and understanding of the grammar of English, and the ability to apply it accurately in the appropriate context
- laying a suitable foundation for the further study of the language.

Preparation for any of the qualifications in this suite would furnish early ESOL (English for Speakers of Other Languages) students with the necessary foundation in the grammar of English to enable them to achieve greater accuracy in reading and writing.

A course of study based on units in the lower Entry Levels would provide early students with an awareness of the important basic grammatical structures of English and enable those operating at around UK National Curriculum Steps 1 and 2, to progress towards achieving the main levels of the National Curriculum for English, to GCSE and perhaps beyond.

Overview of assessment

The Reading and Listening tests are based solely on objective, multiple choice and true/false type questions. This means that candidates will be required to record their answers on a separate multiple choice answer sheet (an OMR form). The benefits of this are that candidates are not required to write answers to tasks that are designed to test purely reading and listening skills and that the marking method will be electronic (via an optical mark reader – OMR) and hence be 100% accurate and objective.

The Writing test will consist of a combination of subjective questions that require either long or short written responses. This test will be marked by a Pearson examiner

The assessment methodology for the Speaking test will be internally assessed with external moderation taking place.

JETSET Foundation Reading Test

- One written externally set and marked paper.
- The examination will be one hour.
- The examination will consist of 40 marks.
- Candidates will be graded Pass/Merit/Distinction. A result of Fail will be recorded where candidates do not achieve the required marks for a Pass.
- The paper consists of six short, multiple choice tasks which test recognition of individual lexis and grammatical forms. Picture cues feature heavily in testing at this level.

JETSET Foundation Listening Test

Overview of assessment

The Reading and Listening tests are based solely on objective, multiple choice and true/false type questions. This means that candidates will be required to record their answers on a separate multiple choice answer sheet (an OMR form). The benefits of this are that candidates are not required to write answers to tasks that are designed to test purely reading and listening skills and that the marking method will be electronic (via an optical mark reader – OMR) and hence be 100% accurate and objective.

The Writing test will consist of a combination of subjective questions that require either long or short written responses. This test will be marked by a Pearson examiner

The assessment methodology for the Speaking test will be internally assessed with external moderation taking place.

The texts are selected to cover a variety of registers of language – colloquial, semi-formal, formal, as would be encountered in conversations, dialogues, discussions, announcements or expository discourse. Candidates are allowed five minutes to read through the questions before the recording begins. The text is read slowly, twice, with pauses to allow candidates time to write their responses. There is a longer pause between each part. There is a final reading to enable them to check their work.
 - In the first part candidates are required to listen for understanding of specific detail and select True, False or Not Given in answer to ten questions.
 - In the second part candidates are required to listen for understanding of specific detail and select an answer from four written prompts.
 - In the third part candidates are required to listen for understanding of gist and select an answer from four written prompts

 - In Part One, which should last for approximately three to four minutes, the candidate responds to Personal Profile questions based on the topics, functions and vocabulary prescribed in the content of this specification. The assessor will pick up on some of the points and explore these in greater depth with the candidate. The material for Part One is provided as a list of questions for the assessor to draw from.
 - In Part Two, the candidates, working in pairs, take part in a five minute structured interchange involving selecting, reasoning, comparing, discussing, collaborating, negotiating, decision-making. The material for Part Two can take the form of either: choosing items from a list, establishing own choices in order of priority and comparing and contrasting choices in discussion with the partner; or: from a list of possible items or activities, discuss preferences and make a choice for an item or an outing with the partner.
 - In Part Three takes the form of a five minute extended discussion from the topic in Part Two and related to candidates' own experiences and

knowledge.

Assessment criteria

Listening and Reading (all Levels)

All of the Listening and Reading Tests are multiple-choice.

Writing (Levels 1-7)

For many of the Writing tasks it is possible to prescribe the response (at word and sentence level only) required for successful completion of the task. In all such instances, these responses will be given in the detailed marking scheme provided for the particular paper. Where productive writing of a more extended nature (at text level) is the task, the following criteria will be used:

Marking Scale and interpretations (Foundation level - level 4)

Mark	Criteria
1-4	Displays limited control of the grammar, tense forms, syntax and vocabulary indicated by that level in the specification, and restricted awareness of appropriate form and content. Adjust according to length and quality of presentation.
5-7	Displays adequate control of the grammar, tense forms, syntax and vocabulary indicated by that level of the specification, and sufficient awareness of appropriate form and content. Adjust according to length and quality of presentation.
8-10	Displays confident control of the grammar, tense forms, syntax and vocabulary indicated by that level of the specification, and an extensive awareness of appropriate form and content. Adjust according to length and quality of presentation.

(Total out of 10)

Give **0** when the task is not attempted or if the piece is too short to judge.

Unassembled 'lifting' restricts marks in each band.

Marking scale and interpretations (Levels 5, 6 and 7)

Mark	Criteria
1-4	Displays limited control of the grammar, tense forms, syntax, vocabulary and idioms indicated by that level in the specification, and restricted awareness of appropriate style, register and content. Adjust according to length and quality of presentation.
5-7	Displays adequate control of the grammar, tense forms, syntax, vocabulary and idioms indicated by that level in the specification, and sufficient awareness of appropriate style, register and content. Adjust according to length and quality of presentation.
8-10	Displays confident control of the grammar, tense forms, syntax, vocabulary and idioms indicated by that level in the specification, and extensive awareness of appropriate style, register and content. Adjust according to length and quality of presentation.

(Total out of 10)

Speaking component

Marking and moderation

Centre assessors must assess the speaking component. Assessments are available from Pearson. Completed assessments must be recorded and a sample retained by the centre for moderation. Pearson will contact centres to request moderation samples as required. Please see the LCCI International Qualification *Centre Guidance - Instructions for Internally Assessed Units* available from our website.

Authentication

All centre assessors and candidates must complete the Speaking Component Authentication Form (*Appendix 6*).

Combinations of entry

There are no forbidden combinations of entry for this qualification.

Age

At the first five levels (foundation, 1, 2, 3 and 4), the assessments for the JETSET qualifications have been contextualised according to learner age. This means that they are available as either Junior English Tests (JET versions), which have been specifically contextualised for young students from the ages of 6 -16, or as Senior English Tests (SET versions), which have been contextualised for adult students (aged 16 years and above).

The assessments for the top three JETSET levels (5, 6 and 7) are not contextualised according to student age due to the advanced levels of language required and under the assumption that very young students would not be put forward for these higher level assessments. The assessments for these three levels are therefore generic and are suitable for candidates of all ages.

Resitting the qualification

Candidates can re-sit the examinations.

Candidates may be re-entered for a Level in any subsequent examining session, but must sit all the mandatory components for that level.

Awarding and reporting

These qualifications are certificated on a three-grade scale: Pass/Merit/Distinction.

Pass and distinction are awarded, merit is arithmetically calculated.

Grade	Achievement	Recommended action/Progression
<i>Distinction</i>	<i>75% +</i>	<i>Proceed to next level</i>
<i>Merit</i>	<i>60 – 74%</i>	<i>Proceed to next level</i>
<i>Pass</i>	<i>50 - 59%</i>	<i>Proceed to next level</i>
<i>Below Threshold</i>	<i>< 50%</i>	<i>Further study required / Retake level</i>

* At the teachers discretion

NB: Notional grade boundaries for Pass, Merit and Distinction are shown above. Grade boundaries are reviewed for each examination paper and may therefore differ from the notional grade boundaries stated within this specification.

Grades will be determined on the basis of the average score attained across the three mandatory components (Listening, Reading and Writing) and will be printed on the certificate. The individual component results will be detailed on the certificate as the percentage of marks achieved. All candidates will be issued with a results slip but only those candidates achieving a Pass grade or above will now be issued with a certificate.

Centres may choose to enter candidates for the optional speaking component. Results will not contribute to overall grading but will be separately listed on the certificate.

This system of grading will allow candidates (and teachers) to identify when achievement has been sufficient to be awarded the qualification and progress to the next level, or if further study is required as per the table above.

Access arrangements, reasonable adjustments and special consideration

Access arrangements

Access arrangements are agreed before an assessment. They allow students with special educational needs, disabilities or temporary injuries to:

- access the assessment
- show what they know and can do without changing the demands of the assessment.

The intention behind an access arrangement is to meet the particular needs of an individual student with a disability without affecting the integrity of the assessment. Access arrangements are the principal way in which awarding bodies comply with the duty under the Equality Act 2010 to make 'reasonable adjustments'.

Access arrangements should always be processed at the start of the course. Students will then know what is available and have the access arrangement(s) in place for assessment.

Reasonable adjustments

The Equality Act 2010 requires an awarding organisation to make reasonable adjustments where a person with a disability would be at a substantial disadvantage in undertaking an assessment. The awarding organisation is required to take reasonable steps to overcome that disadvantage.

A reasonable adjustment for a particular person may be unique to that individual and therefore might not be in the list of available access arrangements.

Whether an adjustment will be considered reasonable will depend on a number of factors, which will include:

- the needs of the student with the disability
- the effectiveness of the adjustment
- the cost of the adjustment; and
- the likely impact of the adjustment on the student with the disability and other students.

An adjustment will not be approved if it involves unreasonable costs to the awarding organisation, timeframes or affects the security or integrity of the assessment. This is because the adjustment is not 'reasonable'.

Special consideration

Special consideration is a post-examination adjustment to a student's mark or grade to reflect temporary injury, illness or other indisposition at the time of the examination/assessment, which has had, or is reasonably likely to have had, a material effect on a candidate's ability to take an assessment or demonstrate his or her level of attainment in an assessment.

Further information

Please see our website or email internationalenquiries@pearson.com for further information about how to apply for access arrangements and special consideration.

For further information about access arrangements, reasonable adjustments and special consideration please refer to the JCQ website: www.jcq.org.uk.

Equality Act 2010 and Pearson equality policy

Equality and fairness are central to our work. Our equality policy requires all students to have equal opportunity to access our qualifications and assessments, and our qualifications to be awarded in a way that is fair to every student.

We are committed to making sure that:

- students with a protected characteristic (as defined by the Equality Act 2010) are not, when they are undertaking one of our qualifications, disadvantaged in comparison to students who do not share that characteristic
- all students achieve the recognition they deserve for undertaking a qualification and that this achievement can be compared fairly to the achievement of their peers.

You can find details on how to make adjustments for students with protected characteristics in the policy document *Access Arrangements, Reasonable Adjustments and Special Considerations*, which is on our website, qualifications.pearson.com.

Malpractice

For up-to-date information on malpractice please refer to the latest Joint Council for Qualifications (JCQ) *Suspected Malpractice in Examinations and Assessments* document, available on the JCQ website: www.jcq.org.uk

Language of assessment

Assessment of this specification will be in English only.
Assessment materials will be published in English only and all work submitted for examination must be in English only.

Other information

Student recruitment

Pearson follows the JCQ policy concerning recruitment to our qualifications in that:

- they must be available to anyone who is capable of reaching the required standard
- they must be free from barriers that restrict access and progression
- equal opportunities exist for all students.

Prior learning and other requirements

There are no formal entry requirements for this qualification. Students may be studying in a local language but the assessment will be in English.

Progression

Preparation for any of the qualifications in this suite would furnish early ESOL (English for Speakers of Other Languages) students with the necessary foundation in the grammar of English to enable them to achieve greater accuracy in reading and writing.

A course of study based on Units in the lower Entry Levels would provide early students with an awareness of the important basic grammatical structures of English and enable those operating at around UK National Curriculum Steps 1 and 2, to progress towards achieving the main levels of the National Curriculum for English, to GCSE and perhaps beyond.

Support, training and resources

Training

Pearson offers support and training to teachers on standard of delivery and preparing students to meet the assessment requirements.

Specifications, Sample Assessment Materials and Teacher Support Materials

The Pearson LCCI JETSET/ESOL Sample Assessment Materials document can be downloaded from our website.

To find a list of all the support documents available please visit our website.

The following lists provide details of support materials that are suitable for the Senior English Test (SET) versions of the Pearson LCCI JETSET/ESOL international qualifications. The lists are provided because at the time of the publication of this syllabus, no specific teaching and learning resources (other than practice assessment materials) have been produced by Pearson. Pearson does, however, intend to produce some teaching and learning resources in the near future that will be designed specifically to support JETSET.

Please take time to research titles thoroughly before deciding which are most suitable for your students. Reference to the Junior English Test practice assessments materials is also strongly recommended. They can be downloaded via from the Pearson LCCI website (qualifications.pearson.com)
