## Assessment Objectives

---

Assessment objectives have been developed for this qualification to ensure that examinations are appropriately targeted. They describe the abilities that students should be able to demonstrate. Each question targets one or more assessment objectives. They are applied to the examination in the proportions below.

<b>Students must:</b>		<b>% of qualification</b>
<b>AO1</b>	<b>Memorise</b> Recall statistical procedures used in a business context; recall statistical terms and definitions; recall statistical processes and formulae	1-5
<b>AO2</b>	<b>Perform procedures</b> Select and use appropriate statistical techniques in a business context, carry out computations using standard statistical methods, present solutions in an appropriate format	59-63
<b>AO3</b>	<b>Communicate understanding</b> Interpret and explain statistical concepts and conclusions; present and summarise business data using suitable tables, charts /graphs and diagrams	28-32
<b>AO4</b>	<b>Analyse</b> Analyse data collected from primary and secondary sources; recognise patterns; make inferences; forecast outcomes; identify correlations/associations; distinguish different forms of statistical distributions (including their use) and interpret results to establish acceptance or otherwise of a given hypothesis.	4-8
<b>Total</b>		100
