

National Craft Assessment and Certification Program S P E C I F I C A T I O N S

INDUSTRIAL COATING AND LINING APPLICATION SPECIALIST LEVEL 2 (COATTWO69)

Released September 2011

Overview

This written assessment is a two-hour closed-book examination. You will be permitted to use a nonprogrammable, non-printing calculator during the examination. The assessment center will provide any necessary pencils. No extra papers, books, notes or study materials are allowed in the testing area.

Study Material

All NCCER written assessments are referenced to NCCER curriculum. You may order modules from Pearson by calling (800.922.0579) or from NCCER's Online Catalog at www.nccer.org.

Assessment Development

All questions on each assessment have been developed and approved by subject matter experts from the respective craft. Assessment development and administration operates under the direction of ProvTM, NCCER's testing partner.

Credentials

NCCER will send appropriate credentials (certificate, wallet card and official transcript) to the assessment center upon successful completion of the written assessment.

Training Prescription Reports

Each candidate will have access to individual results of the written assessment from Prov's website at www.provexam.com. This training prescription will include the overall score and results by topic area.

National Registry

Assessment results will be maintained in NCCER's National Registry and become a part of each candidate's training records. These records are stored and become a portable record of the candidate's training and assessment achievements.

Focus Statement

The Industrial Coating and Lining Application Specialist Level Two independently engages in surface preparation and application of protective coatings and linings to steel, concrete, and other surfaces of complex industrial structures. This Specialist is qualified to perform requisite testing of completed surface preparation and coating work. The Level Two Application Specialist performs the full range of surface preparation and coating applications in a safe manner according to industry regulations and supervises Level One Specialists in these duties.

Written Assessment Contents:

Module Number	Topic Area	# of Questions
69201-10	Industrial Coating Safety	8
