## Centre Notification 02/11/17

### 600/3259/5 Level 2 NVQ Diploma in Controlling Lifting Operations (Slinger Signaller)

Please be advised centres using the current specification must refer to unit **A503/1170 'Conforming to General Health, Safety and Welfare in the Workplace'** instead of using the unit currently included in the specification F/600/7138 'Conforming to General Health and Safety in the Workplace'

A copy of this common mandatory unit is included on the qualification page, together with this notification and the original specification. This was updated in 2012 and included on the website however it has come to our attention that the previous update notification and copy of the unit may have been removed from this page.

We apologise for any inconvenience this has caused.
