19 August 2013

Dear Gabriel,

As a professional body within the sector we would like to offer our support to Pearson for the following qualification as meeting our needs and expectations for learners in the 16-19 age range:

Qualification Accreditation Number (QAN)	Qualification Title
600/7813/3	Pearson Edexcel Level 3 Diploma in Building Services Engineering for Technicians (QCF)

The content within these qualifications prepares the learners for a career in the Building Services Engineering sector by providing a substantial number of units which represent the core competencies of the role alongside a range of options.

The qualifications develop the skills needed in the workplace and I support them for inclusion in the school and college performance tables for 16-19 year olds.

We are happy for the Chartered Institution of Building Services Engineering to be named and our website to be made available on the DfE and Pearson website to confirm our support for the qualification.

Yours sincerely

Carilyn Clements
