Introducing Pearson Edexcel NVQ/Competence-based qualifications

What are NVQ/Competence-based qualifications?

National Vocational Qualifications (NVQs)/Competence-based qualifications are work-based qualifications that give learners the opportunity to develop and demonstrate their competence in the area of work or job role to which the qualification relates.

NVQs/Competence-based qualifications are based on recognised occupational standards for the appropriate sector. Occupational standards define what employees, or potential employees, must be able to do and know, and how well they should undertake work tasks and work roles. These standards are written in broad terms to enable employers and providers to apply them to a wide range of related occupational areas.

NVQs/Competence-based qualifications are outcomes-based with no fixed learning programme, therefore allowing flexible delivery to meet the individual learner's needs. At Level 2 and above, these qualifications are recognised as approved training and development courses for employees that have been in the workplace for some time or as a way of inducting, training and developing new entrants into the workplace. Qualifications at Level 1 can be used in Traineeships, which enables progression to entry level employment or to Apprenticeship programmes.

Learners will work towards their qualification in the workplace or in settings that replicate the working environment as specified in the assessment requirements. Colleges, training centres and/or employers can offer these qualifications as long as they have access to appropriate physical and human resources and have the necessary quality assurance systems in place.

Sizes of NVQ/Competence-based qualifications

For all regulated qualifications, Pearson specify a total number of hours that is estimated learners will require to complete and show achievement for the qualification – this is the Total Qualification Time (TQT). The TQT value indicates the size of a qualification.

Within the TQT, Pearson identifies the number of Guided Learning Hours (GLH) that we estimate a centre delivering the qualification might provide. Guided learning means activities, such as lessons, tutorials, online instruction, supervised study and giving feedback on performance, that directly involve tutors and assessors in teaching, supervising and invigilating learners. Guided learning includes the time required for learners to complete external assessment under examination or supervised conditions.

In addition to guided learning, other required learning directed by tutors or assessors will include private study, preparation for assessment and undertaking assessment when not under supervision, such as preparatory reading, revision and independent research.

As well as TQT and GLH, qualifications can also have a credit value – equal to one tenth of TQT, rounded to the nearest whole number.

TQT and credit values are assigned after consultation with users of the qualifications.

NVQ/Competence-based qualifications are available in the following sizes:

- Award – a qualification with a TQT value of 120 or less (equivalent to a range of 1–12 credits)
- Certificate – a qualification with a TQT value in the range of 121–369 (equivalent to a range of 13–36 credits)
- Diploma – a qualification with a TQT value of 370 or more (equivalent to 37 credits and above).

Qualification title covered by this specification

This specification gives you the information you need to offer the Pearson Edexcel Level 2 Certificate in Providing Security Services:

Qualification title	Qualification Number (QN)	Accreditation start date
Pearson Edexcel Level 2 Certificate in Providing Security Services	600/0010/7	01/01/2011

Qualifications eligible and funded for post-16-year-olds can be found on the funding Hub. The Skills Funding Agency also publishes a funding catalogue that lists the qualifications available for 19+ funding.

You should use the Qualification Number (QN), when you wish to seek public funding for your learners. Each unit within a qualification will also have a unique reference number, which is listed in this specification.

The qualification title and unit reference numbers will appear on the learners' final certification document. Learners need to be made aware of this when they are recruited by the centre and registered with Pearson.

This title replaces the following qualification from 1 January 2011:

Qualification title	Qualification Accreditation Number (QAN)	Accreditation start date	Accreditation end date
Edexcel Level 2 NVQ in Providing Security Services	500/5616/5	01/01/2009	31/12/2010

Key features of the Pearson Edexcel Level 2 Certificate in Providing Security Services

This qualification:

- is nationally recognised
- is based on the National Occupational Standards (NOS) for Security Loss Prevention.

The Pearson Edexcel Level 2 Certificate in Providing Security Services has been approved as a component of the apprenticeship framework for Providing Security Services.

What is the purpose of this qualification?

The Pearson Edexcel Level 2 Certificate in Providing Security Services allows people working in frontline security services to gain a qualification that attests to their occupational competence in day-to-day work.

The qualification recognises their skills, knowledge and understanding as well as promoting good working practices. It also helps them to gain transferable skills, for example in customer care and communication skills.

Who is this qualification for?

This qualification is for all learners aged 16 and above who are capable of reaching the required standards.

Pearson's policy is that its qualification should:

- be free from any barriers that restrict access and progression
- ensure equality of opportunity for all wishing to access qualifications.

What are the potential job roles for those working towards this qualification?

This qualification is suitable for people working in a number of security sub-sectors, including:

- static and patrol guarding
- door supervision
- CCTV operation
- retail security
- reception security
- events security
- keyholding and alarm response.

What progression opportunities are available to learners who achieve this qualification?

Learners who have completed this qualification can progress to generic qualifications at Level 3, for example the Pearson Edexcel Level 3 NVQ in Management.

What is the qualification structure for the Pearson Edexcel Level 2 Certificate in Providing Security Services ?

The Total Qualification Time (TQT) for this qualification is 220 hours.

The Guided Learning Hours (GLH) for this qualification is 177.

All learners must complete the four mandatory units in Group A, for a total of 9 credits. They must also complete any further mandatory units (where applicable) and optional units from within one pathway from Group B to make combined minimum total for the qualification of 22 credits.

Where learners achieve their optional units from one of the following three pathways, their certificate will be endorsed to show the relevant occupational area in which the competence was achieved.

These endorsed pathways are:

- Static and Patrol Guarding
- Door Supervision
- CCTV Operation.

Learners who do not wish to take an endorsed pathway may achieve the qualification by taking the non-endorsed Providing Security Services pathway.

Summary of units/credit required by pathway

Static and Patrol Guarding

Group A mandatory units: 4 units (9 credits)

Group B mandatory units: 3 units (7 credits)

Group B optional units: 6 credits

Door Supervision

Group A mandatory units: 4 units (9 credits)

Group B mandatory units: 4 units (9 credits)

Group B optional units: 4 credits

CCTV Operation

Group A mandatory units: 4 units (9 credits)

Group B mandatory units: 3 units (8 credits)

Group B optional units: 5 credits

Providing Security Services non-endorsed pathway

Group A mandatory units: 4 units (9 credits)

Group B optional units: 13 credits

How is the qualification graded and assessed?

The overall grade for the qualification is a 'pass'. The learner must achieve all the required units within the specified qualification structure.

To pass a unit the learner must:

- achieve **all** the specified learning outcomes
- satisfy **all** the assessment criteria by providing sufficient and valid evidence for each criterion
- show that the evidence is their own.

The qualification is designed to be assessed:

- in the workplace, or
- in conditions resembling the workplace (where this is permitted).

Assessment strategy

The assessment strategy for this qualification has been included in *Annexe C*. The assessment strategy includes details on:

- approaches to assessment
- simulation
- criteria for appointment of assessors and internal verifiers
- criteria for appointment of external verifiers
- employer-direct model.

Evidence of competence may come from:

- **current practice** where evidence is generated from a current job role
- a **programme of development** where evidence comes from assessment opportunities built into a training programme in the workplace
- the **Recognition of Prior Learning (RPL)** where a learner can demonstrate that they can meet the assessment criteria within a unit through knowledge, understanding or skills they already possess without undertaking a course of learning. They must submit sufficient, reliable and valid evidence for internal and standards verification purposes. RPL is acceptable for accrediting a unit, several units or a whole qualification
- a **combination** of these.

It is important that the evidence is:

Valid	Relevant to the standards for which competence is claimed
Authentic	produced by the learner
Current	sufficiently recent to create confidence that the same skill, understanding or knowledge persist at the time of the claim
Reliable	indicates that the learner can consistently perform at this level
Sufficient	fully meets the requirements of the standards.

Types of evidence (to be read in conjunction with the assessment strategy in Annexe C)

To successfully achieve a unit the learner must gather evidence which shows that they have met the required standard in the assessment criteria. Evidence can take a variety of different forms including the examples below. Centres should refer to the assessment strategy for information about which of the following are permissible.

- direct observation of the learner's performance by their assessor (O)
- outcomes from oral or written questioning (Q&A)
- products of the learner's work (P)
- personal statements and/or reflective accounts (RA)
- outcomes from simulation, where permitted by the assessment strategy (S)
- professional discussion (PD)
- assignment, project/case studies (A)
- authentic statements/witness testimony (WT)
- expert witness testimony (EPW)
- evidence of recognition of prior learning (RPL).

The abbreviations may be used for cross-referencing purposes.

Learners can use one piece of evidence to prove their knowledge, skills and understanding across different assessment criteria and/or across different units. It is, therefore, not necessary for learners to have each assessment criterion assessed separately. Learners should be encouraged to reference the assessment criteria to which the evidence relates.

Evidence must be made available to the assessor, internal verifier and Pearson standards verifier. A range of recording documents is available on the Pearson website qualifications.pearson.com. Alternatively, centres may develop their own.

Centre recognition and approval

Centre recognition

Centres that have not previously offered Pearson qualifications need to apply for and be granted centre recognition as part of the process for approval to offer individual qualifications. New centres must complete both a centre recognition approval application and a qualification approval application.

Existing centres will be given 'automatic approval' for a new qualification if they are already approved for a qualification that is being replaced by the new qualification and the conditions for automatic approval are met. Centres already holding Pearson approval are able to gain qualification approval for a different level or different sector via Edexcel online.

Approvals agreement

All centres are required to enter into an approvals agreement which is a formal commitment by the head or principal of a centre to meet all the requirements of the specification and any linked codes or regulations. Pearson will act to protect the integrity of the awarding of qualifications, if centres do not comply with the agreement. This could result in the suspension of certification or withdrawal of approval.

Quality assurance

Detailed information on Pearson's quality assurance processes is given in *Annexe A*.

What resources are required?

Physical resources need to support the delivery of the qualification and the assessment of the learning outcomes and must be of industry standard. Staff assessing the learner must meet the requirements within the assessment strategy for the sector (see *Annexe C*).

Unit format

Each unit in this specification contains the following sections.

Unit title:					This is the formal title of the unit that will appear on the learners certificate
Unit reference number:					This is the unit owner's reference number for the specified unit.
Level:					All units and qualifications have a level assigned to them. The level assigned is informed by the level descriptors by Ofqual, the qualifications regulator.
Credit value:					All units have a credit value. The minimum credit value is one, and credits can only be awarded in whole numbers. Learners will be awarded credits when they achieve the unit.
Guided learning hours:					Guided Learning Hours (GLH) is the number of hours that a centre delivering the qualification needs to provide. Guided learning means activities that directly or immediately involve tutors and assessors in teaching, supervising, and invigilating learners, for example lectures, tutorials, online instruction and supervised study.
Unit summary:					This provides a summary of the purpose of the unit.
Evidence requirements:					The evidence requirements are determined by the SSC. Learners must provide evidence for each of the requirements stated in this section.
Recording of evidence:					This provides a summary of how evidence can be recorded.
Learning outcomes:	Assessment criteria:	Evidence type:	Portfolio reference:	Date:	
			The learner should use this box to indicate where the evidence can be obtained eg portfolio page number.	The learner should give the date when the evidence has been provided.	
Learning outcomes state exactly what a learner should know, understand or be able to do as a result of completing a unit.		The assessment criteria of a unit specify the standard a learner is expected to meet to demonstrate that a learning outcome, or a set of learning outcomes, has been achieved.		Learners must reference the type of evidence they have and where it is available for quality assurance purposes. The learner can enter the relevant key and a reference. Alternatively, the learner and/or centre can devise their own referencing system.	

Units

Unit 1: Reducing the risks to health and safety at work

Unit reference number: D/601/9037

Level: 2

Credit value: 2

Guided learning hours: 20

Unit summary

The learner will develop the knowledge, understanding and skills necessary to reduce the risks to health and safety at work.

Evidence requirements

Assessment must be carried out in a way that is consistent with the requirements outlined in *Annexe C: Assessment strategy*.

To pass the unit, learners must meet all of the assessment criteria.

Assessment criteria: performance

The assessment criteria relating to performance are emboldened. Evidence for these must come from learners' performance in the workplace, apart from assessment criterion 3.9, where 'what if'-type questioning may be used if naturally occurring performance evidence is not available.

Simulation

Simulation is not permitted for this unit.

Assessment criteria: knowledge and understanding

The remaining non-emboldened assessment criteria relate to knowledge and understanding. They can be assessed inside or outside the workplace, but the evidence the learners produce must relate to their own work environment.

Recording of evidence

The type of evidence, portfolio reference and date should be entered against each assessment criterion in the table. Alternatively, centre documentation could be used to record this information.

Unit 2: Communicate effectively with others

Unit reference number: D/601/9040

Level: 2

Credit value: 2

Guided learning hours: 15

Unit summary

The learner will develop the knowledge, understanding and skills necessary to communicate effectively with others.

Evidence requirements

Assessment must be carried out in a way that is consistent with the requirements outlined in *Annexe C: Assessment strategy*.

To pass the unit, learners must meet all of the assessment criteria

Assessment criteria: performance

The assessment criteria relating to performance are emboldened. With the exception of assessment criterion 2.5 (see *Simulation* below), evidence for these must come from learners' performance in the workplace.

'Communication' in 1.3 must include oral communication, although this need not be done face-to-face.

Simulation

Simulation is permitted for assessment criterion 2.5. Information about how simulation must be carried out is contained in *Annexe D: Assessment strategy*.

Assessment criteria: knowledge and understanding

The remaining non-emboldened assessment criteria relate to knowledge and understanding. They can be assessed inside or outside the workplace, but the evidence the learners produce must relate to their own work environment.

Recording of evidence

The type of evidence, portfolio reference and date should be entered against each assessment criterion in the table. Alternatively, centre documentation could be used to record this information.

Unit 3: Portray a positive personal image

Unit reference number: K/601/9042

Level: 2

Credit value: 2

Guided learning hours: 15

Unit summary

The learner will develop the knowledge, understanding and skills necessary to portray a positive personal image.

Evidence requirements

Assessment must be carried out in a way that is consistent with the requirements outlined in *Annexe C: Assessment strategy*.

To pass the unit, learners must meet all of the assessment criteria.

Assessment criteria: performance

All assessment criteria in this unit relate to performance. Evidence for all of these must come from learners' performance in the workplace.

Simulation

Simulation is not permitted in this unit.

Recording of evidence

The type of evidence, portfolio reference and date should be entered against each assessment criterion in the table. Alternatively, centre documentation could be used to record this information.

Learning outcomes and assessment criteria

Unit 4: Control security incidents

Unit reference number: F/601/9189

Level: 2

Credit value: 3

Guided learning hours: 22

Unit summary

This unit provides for the development of the knowledge, understanding and skills for dealing with actual or potential security incidents and breaches of the law. These security-related incidents cover emergencies (such as fire, scenes of crime, and accidents) as well as threats such as from bombs, sabotage, and kidnap or product contamination. The breaches of law or security requirements that the learner should be able to deal with include criminal damage, offences against people, public order, trespass, and misuse of drugs.

Evidence requirements

Assessment must be carried out in a way that is consistent with the requirements outlined in *Annexe C: Assessment strategy*.

To pass the unit, learners must meet all of the assessment criteria.

Assessment criteria: performance

The assessment criteria relating to performance are emboldened. With the exception of 1.3, 1.4, 1.5 and 1.6 (see *Simulation* below), evidence for these must come from learners' performance in the workplace.

In these assessment criteria 1.3, 1.4, 1.5 and 1.6, at least two different 'emergency' situations must be dealt with. Suitable examples might include (but are not limited to):

- fire
- sabotage
- medical emergencies
- utility incidents, eg gas leak
- hostage situations
- road traffic accidents.

For assessment criteria 2.3-2.6 the security threats must be ones that are real for the organisation in which the learner works, but the risk of it happening does not need to be high. Suitable threats might include (but are not limited to):

- terrorism
- sabotage
- product contamination
- blackmail
- computer viruses.

For assessment criteria 3.1-3.5, at least two actual or potential breaches must be dealt with. These do not necessarily need to be breaches of criminal law, but can include other matters relevant to security, such as trespass or suspicious behaviour.

Simulation

Simulation is permitted for assessment criteria 1.3, 1.4, 1.5 and 1.6. See above for further information about the evidence required. Information about how simulation must be carried out is contained in *Annexe C: Assessment strategy*.

Assessment criteria: knowledge and understanding

The remaining non-emboldened assessment criteria relate to knowledge and understanding. They can be assessed inside or outside the workplace, but the evidence the learners produce must relate to their own work environment.

Recording of evidence

The type of evidence, portfolio reference and date should be entered against each assessment criterion in the table. Alternatively, centre documentation could be used to record this information.

Unit 5: **Maintain the security of property and premises through observation**

Unit reference number: T/601/9190

Level: 2

Credit value: 3

Guided learning hours: 23

Unit summary

This unit provides for the development of the knowledge, understanding and skills for maintaining the security of property and responding to breaches in security or safety. You would use security systems and equipment to help you maintain security, as well as patrol designated areas. You would be expected to respond to take appropriate action to deal with any actual or potential breaches in security.

Evidence requirements

Assessment must be carried out in a way that is consistent with the requirements outlined in *Annexe C: Assessment strategy*.

To pass the unit, learners must meet all of the assessment criteria.

Assessment criteria: performance

The assessment criteria relating to performance are emboldened. Evidence for these must come from learners' performance in the workplace, apart from:

- assessment criterion 3.4 (see *Simulation* below)
- assessment criteria 1.4 and 2.6, where 'what if'-type questioning may be used if naturally occurring performance evidence is not available. Use of such questions should, however, only be considered as a last resort.

For assessment criterion 2.7, the patrols must include at least three of the following:

- patrol in daylight
- patrol in darkness
- initial patrol
- fire patrol
- multi-site patrol.

For assessment criteria 3.1-3.6, at least two actual or potential security/safety breaches must be dealt with. Suitable breaches include (but are not limited to):

- theft
- criminal damage
- fire
- flood
- suspicious behaviour.

Simulation

Simulation is allowed for assessment criterion 3.4 if there is no naturally occurring crime scene and associated potential evidence. In such a situation, the potential evidence/crime scene should be related to a security/safety breach or breaches dealt with in the remainder of this learning outcome. Information about how simulation must be carried out is contained in *Annexe C: Assessment strategy*.

Assessment criteria: knowledge and understanding

The remaining non-emboldened assessment criteria relate to knowledge and understanding. They can be assessed inside or outside the workplace, but the evidence the learners produce must relate to their own work environment.

Recording of evidence

The type of evidence, portfolio reference and date should be entered against each assessment criterion in the table. Alternatively, centre documentation could be used to record this information.

Unit 6: Control entry to and egress from premises

Unit reference number: F/601/9192

Level: 2

Credit value: 2

Guided learning hours: 13

Unit summary

This unit provides for the development of the knowledge, understanding and skills for controlling entry and egress to premises by employees or by visitors, making sure they have the appropriate authority when required. This means that a learner could have to check passes or other forms of identification and resolve situations when required documents are not produced. The learner should know how to present a professional image and maintain goodwill, particularly when dealing with incidents such as invalid entry authorisation, lost passes, or aggressive and abusive behaviour.

Evidence requirements

Assessment must be carried out in a way that is consistent with the requirements outlined in *Annexe C: Assessment strategy*.

To pass the unit, learners must meet all of the assessment criteria.

Assessment criteria: performance

The assessment criteria relating to performance are emboldened. With the exception of 1.8, 1.9, 1.10, 2.7, 3.4, 3.5, 3.6, 3.7 and 3.9 (see *Simulation* below), evidence for these must come from learners' performance in the workplace. This means that 'what if' type questioning is not an appropriate source of evidence for these assessment criteria.

For 1.9 and 2.7, at least one incident must be dealt with for each assessment criterion. Suitable examples of incidents include:

- complaints
- aggressive, rude or abusive staff/visitors
- not complying with entry requirements.

For assessment criterion 3.4, suitable indications of unauthorised entry could include one or more of the following:

- alarm activation
- CCTV monitor
- signs of forced entry
- ladders or other climbing aids
- unusual lights
- unusual sounds.

Simulation

Simulation is permitted for assessment criteria 1.8, 1.9, 1.10, 2.7, 3.4, 3.5, 3.6, 3.7 and 3.9. See above for further information about the evidence required for 1.9, 2.7 and 3.4. Information about how simulation must be carried out is contained in *Annexe C: Assessment strategy*.

Assessment criteria: knowledge and understanding

The remaining non-emboldened assessment criteria relate to knowledge and understanding. They can be assessed inside or outside the workplace, but the evidence the learners produce must relate to their own work environment.

Recording of evidence

The type of evidence, portfolio reference and date should be entered against each assessment criterion in the table. Alternatively, centre documentation could be used to record this information.

Unit 7: Carry out searches of people and their property

Unit reference number: T/601/9206

Level: 2

Credit value: 2

Guided learning hours: 14

Unit summary

This unit provides for the development of the knowledge, understanding and skills to carry out searches in a polite, professional and courteous manner, giving reasons for searches, and following guidelines for having witnesses to searches where appropriate.

Evidence requirements

Assessment must be carried out in a way that is consistent with the requirements outlined in *Annexe C: Assessment strategy*.

To pass the unit, learners must meet all of the assessment criteria.

Assessment criteria: performance

The assessment criteria relating to performance are emboldened. Evidence for these should come, where possible, from learners' performance in the workplace.

For learning outcome 1, learners must carry out the following types of search:

- people
- personal storage areas
- personal effects.

Simulation

Simulation is permitted for all assessment criteria related to performance, but only if the learner's organisation does not permit the searching of people and their property. In such circumstances, written confirmation must be obtained from a person in a suitable position of authority within the learner's organisation and kept for inspection by the external verifier.

In addition to this, assessment criterion 1.5 and the performance-related assessment criteria in learning outcome 2 may be simulated if the opportunity to demonstrate them will not occur in a reasonable time.

Information about how simulation must be carried out is contained in *Annexe C: Assessment strategy*.

Assessment criteria: knowledge and understanding

The remaining non-emboldened assessment criteria relate to knowledge and understanding. They can be assessed inside or outside the workplace, but the evidence the learners produce must relate, if possible, to their own work environment.

Recording of evidence

The type of evidence, portfolio reference and date should be entered against each assessment criterion in the table. Alternatively, centre documentation could be used to record this information.

Unit 8: Provide security at licensed venues

Unit reference number: F/601/9208

Level: 2

Credit value: 2

Guided learning hours: 14

Unit summary

This unit provides for the development of the knowledge, understanding and skills of door supervisors who have responsibility for security at licensed venues such as discotheques, nightclubs, public houses, casinos or restaurants. The unit recognises the responsibility a door supervisor has in monitoring the security and safety at licensed venues, as well as preventing crime where possible.

Evidence requirements

Assessment must be carried out in a way that is consistent with the requirements outlined in *Annexe C: Assessment strategy*.

To pass the unit, learners must meet all of the assessment criteria.

Assessment criteria: performance

The assessment criteria relating to performance are emboldened. Evidence for all of these must come from learners' performance in the workplace.

For assessment criterion 2.9, at least two incidents must be documented.

For learning outcome 3, 'adverse behaviour' could include any behaviour that is:

- anti-social
- criminal
- non-compliant with conditions of entry.

Simulation

Simulation is not permitted in this unit.

Assessment criteria: knowledge and understanding

The remaining non-emboldened assessment criteria relate to knowledge and understanding. They can be assessed inside or outside the workplace, but the evidence the learners produce must relate to their own work environment.

Recording of evidence

The type of evidence, portfolio reference and date should be entered against each assessment criterion in the table. Alternatively, centre documentation could be used to record this information.

Unit 9: Carry out searches of vehicles for unauthorised items

Unit reference number: F/601/9211

Level: 2

Credit value: 2

Guided learning hours: 15

Unit summary

This unit provides for the development of the knowledge, understanding and skills for controlling the entry and exit of vehicles and searching vehicles. These searches may be on suspicion or as a formality. The unauthorised items could include illegal substances, stolen property, and banned or dangerous items.

Evidence requirements

Assessment must be carried out in a way that is consistent with the requirements outlined in *Annexe C: Assessment strategy*.

To pass the unit, learners must meet all of the assessment criteria.

Assessment criteria: performance

The assessment criteria relating to performance are emboldened. Evidence for these should come, where possible, from learners' performance in the workplace.

Unit 10: Arrest by security operative

Unit reference number: J/601/9212

Level: 2

Credit value: 3

Guided learning hours: 20

Unit summary

This unit provides for the development of the knowledge, understanding and skills for making a citizen's arrest of people suspected of committing an offence, and preserving the integrity of potential evidence.

Evidence requirements

Assessment must be carried out in a way that is consistent with the requirements outlined in *Annexe C: Assessment strategy*.

To pass the unit, learners must meet all of the assessment criteria.

Assessment criteria: performance

The assessment criteria relating to performance are emboldened. Evidence for these should come, where possible, from learners' performance in the workplace. In other instances, simulation should be used.

Simulation

Simulation is permitted in all learning outcomes in this unit. This may be required if the employer's normal policy or the learner's work environment makes arrest impractical or uncommon. It may also be required where certain assessment criteria can not be evidenced through naturally occurring evidence. Information about how simulation must be carried out is contained in *Annexe C: Assessment strategy*.

Assessment criteria: knowledge and understanding

The remaining non-emboldened assessment criteria relate to knowledge and understanding. They can be assessed inside or outside the workplace, but the evidence the learners produce must relate, if possible, to their own work environment.

Recording of evidence

The type of evidence, portfolio reference and date should be entered against each assessment criterion in the table. Alternatively, centre documentation could be used to record this information.

Unit 11: Deal with disorderly and aggressive behaviour

Unit reference number: L/601/9213

Level: 2

Credit value: 2

Guided learning hours: 11

Unit summary

This unit provides for the development of the knowledge, understanding and skills for dealing with adverse behaviour, which could be criminal or anti-social. This is more than just reacting to unacceptable behaviour; it is also about deterring adverse behaviour.

Evidence requirements

Assessment must be carried out in a way that is consistent with the requirements outlined in *Annexe C: Assessment strategy*.

To pass the unit, learners must meet all of the assessment criteria.

Assessment criteria: performance

The assessment criteria relating to performance are emboldened. Evidence for all of these must come from learners' performance in the workplace.

In this unit, 'adverse behaviour' could include any behaviour that is:

- anti-social
- criminal.

Simulation

Simulation is not permitted in this unit.

Assessment criteria: knowledge and understanding

The remaining non-emboldened assessment criteria relate to knowledge and understanding. They can be assessed inside or outside the workplace, but the evidence the learners produce must relate to their own work environment.

Recording of evidence

The type of evidence, portfolio reference and date should be entered against each assessment criterion in the table. Alternatively, centre documentation could be used to record this information.

Learning outcomes and assessment criteria

Learning outcomes	Assessment criteria	Evidence type	Portfolio reference	Date
1 Be able to deter adverse behaviour through visible security presence	1.1 State the organisation's instructions for discouraging and dealing with adverse behaviour 1.2 Provide a visible presence in designated areas that deters adverse behaviour 1.3 Comply with the required company and customer standards for appearance and behaviour 1.4 Recognise adverse behaviour promptly 1.5 Discourage adverse behaviour before it escalates, using professional judgement and skills to defuse conflict situations 1.6 Take appropriate action to reduce risks to security or safety whilst maintaining own health safety and welfare, and that of others 1.7 Describe how to recognise criminal activity, including drug handling 1.8 Describe the layout and geography of the locations where security services are provided in line with assignment instructions

Unit 12: Monitor areas using CCTV systems

Unit reference number: R/601/9214

Level: 2

Credit value: 4

Guided learning hours: 24

Unit summary

This unit provides for the development of the knowledge, understanding and skills for using CCTV systems and equipment to monitor security of people, property and premises.

Evidence requirements

Assessment must be carried out in a way that is consistent with the requirements outlined in *Annexe C: Assessment strategy*.

To pass the unit, learners must meet all of the assessment criteria.

Assessment criteria: performance

The assessment criteria relating to performance are emboldened. Evidence for all of these must come from learners' performance in the workplace.

Simulation

Simulation is not permitted in this unit.

Assessment criteria: knowledge and understanding

The remaining non-emboldened assessment criteria relate to knowledge and understanding. They can be assessed inside or outside the workplace, but the evidence the learners produce must relate to their own work environment.

Unit 13: Maintain CCTV recording media libraries and preserve potential evidence

Unit reference number: J/602/5351

Level: 2

Credit value: 2

Guided learning hours: 16

Unit summary

This unit provides for the development of the knowledge, understanding and skills for maintaining CCTV recording media libraries, and preserving potential evidence within CCTV operations.

Evidence requirements

Assessment must be carried out in a way that is consistent with the requirements outlined in *Annexe C: Assessment strategy*.

To pass the unit, learners must meet all of the assessment criteria.

Assessment criteria: performance

The assessment criteria relating to performance are emboldened. Evidence for all of these must come from learners' performance in the workplace.

Unit 15: Provide covert security in retail environments

Unit reference number: D/601/9216

Level: 2

Credit value: 2

Guided learning hours: 12

Unit summary

This unit provides for the development of the knowledge, understanding and skills for supporting retail security, and covers maintaining covert presence and security alarm responses.

Evidence requirements

Assessment must be carried out in a way that is consistent with the requirements outlined in *Annexe C: Assessment strategy*.

To pass the unit, learners must meet all of the assessment criteria.

Assessment criteria: performance

The assessment criteria relating to performance are emboldened. Evidence for these must come from learners' performance in the workplace, apart from assessment criterion 2.3, where 'what if'-type questioning may be used if naturally occurring performance evidence is not available. Use of such questions should, however, only be considered as a last resort.

For assessment criteria 2.2, there must be evidence relating to at least one security alarm system. Suitable examples include (but are not limited to):

- access control
- surveillance
- stock protection (EAS systems, loop alarms)
- perimeter protection
- panic buttons
- fire alarms
- smoke alarms.

Simulation

Simulation is not permitted in this unit.

Assessment criteria: knowledge and understanding

The remaining non-emboldened assessment criteria relate to knowledge and understanding. They can be assessed inside or outside the workplace, but the evidence the learners produce must relate to their own work environment.

Recording of evidence

The type of evidence, portfolio reference and date should be entered against each assessment criterion in the table. Alternatively, centre documentation could be used to record this information.

Learning outcomes and assessment criteria

Learning outcomes	Assessment criteria	Evidence type	Portfolio reference	Date
1 Be able to maintain covert security presence	1.1 Give examples of suspicious behaviour in a retail environment 1.2 Carry out covert security observations in line with: <ul style="list-style-type: none"> - organisation's policies and procedures - relevant legal requirements - codes of practice 1.3 Act in a way that maintains the covert security role 1.4 Describe how to dress, behave and communicate with others to preserve the covert role 1.5 Dress appropriately for the retail environments in which the covert security is being provided 1.6 Communicate with colleagues and the relevant authorities in ways that maintains the covert security role 1.7 Explain why it is important to record and maintain all observations and reports			

Learning outcomes	Assessment criteria	Evidence type	Portfolio reference	Date
	1.8 Record activities as potential evidence in line with: <ul style="list-style-type: none"> - the organisation's policies and procedures - relevant legal requirements 			
2 Be able to respond to security alarms	2.1 Identify the type and locations of security alarm systems to which a response is required 2.2 Respond appropriately to security alarms that does not compromise the covert security role, in line with the organisation's policies and procedures 2.3 Report defective or ineffective security alarm systems to the appropriate person

Unit 16: Detect loss and theft in retail environments

Unit reference number: H/601/9217

Level: 2

Credit value: 3

Guided learning hours: 13

Unit summary

This unit provides for the development of the knowledge, understanding and skills for supporting retail security, and covers identifying when loss or theft is taking place and identifying suspects, which would be done covertly.

Evidence requirements

Assessment must be carried out in a way that is consistent with the requirements outlined in *Annexe C: Assessment strategy*.

To pass the unit, learners must meet all of the assessment criteria.

Assessment criteria: performance

The assessment criteria relating to performance are emboldened. Evidence for all of these must come from learners' performance in the workplace. This means that 'what if' type questioning is not an appropriate source of evidence for these assessment criteria.

In assessment criterion 1.7, suitable examples of security equipment include (but are not limited to):

- CCTV equipment
- electronic article surveillance
- local alarms
- cash boxes
- safes
- keys
- protective packaging
- dispensers
- radio.

Simulation

Simulation is not permitted in this unit.

Assessment criteria: knowledge and understanding

The remaining non-emboldened assessment criteria relate to knowledge and understanding. They can be assessed inside or outside the workplace, but the evidence the learners produce must relate to their own work environment.

Recording of evidence

The type of evidence, portfolio reference and date should be entered against each assessment criterion in the table. Alternatively, centre documentation could be used to record this information.

Learning outcomes and assessment criteria

Unit 17: Control a guard dog under operational conditions

Unit reference number: H/601/9198

Level: 2

Credit value: 5

Guided learning hours: 30

Unit summary

This unit provides for the development of the knowledge, understanding and skills for carrying out security operations with the aid of a guard dog, taking account of the advantages and disadvantages of working with dogs.

Evidence requirements

Assessment must be carried out in a way that is consistent with the requirements outlined in *Annexe C: Assessment strategy*.

To pass the unit, learners must meet all of the assessment criteria.

Assessment criteria: performance

The assessment criteria relating to performance are emboldened. With the exception of 3.4, 3.5, 3.8, 4.1, 4.3, 4.4, 4.5 and 4.6 (see *Simulation* below), evidence for these must come from learners' performance in the workplace.

For assessment criterion 1.6, changes could include changes caused by any of the following:

- weather conditions
- light levels
- air quality
- crowds
- presence of other animals.

Assessment criterion 4.3 could relate to any of the following incidents:

- loose guard dogs
- injuries to the learner caused by a dog
- injuries to other people caused by a dog.

Simulation

Simulation is permitted for assessment criteria 3.4, 3.5, 3.8, 4.1, 4.3, 4.4, 4.5 and 4.6. See above for further information about the evidence required for 4.3. Information about how simulation must be carried out is contained in *Annexe C: Assessment strategy*.

Assessment criteria: knowledge and understanding

The remaining non-emboldened assessment criteria relate to knowledge and understanding. They can be assessed inside or outside the workplace, but the evidence the learners produce must relate to their own work environment.

Recording of evidence

The type of evidence, portfolio reference and date should be entered against each assessment criterion in the table. Alternatively, centre documentation could be used to record this information.

Learning outcomes and assessment criteria

Learning outcomes	Assessment criteria	Evidence type	Portfolio reference	Date
1 Be able to patrol designated areas with a guard dog	<p>1.1 Control guard dogs using recognised words and gestures of command</p> <p>1.2 Demonstrate how to keep the guard dog under control at all times</p> <p>1.3 Carry out patrols in line with legislation and instructions in a way that makes best use of the dog's natural senses</p> <p>1.4 Recognise and report to the appropriate person any potential hazards to the dog</p> <p>1.5 Take prompt and appropriate action when the dog's reactions indicate a possible threat to security</p> <p>1.6 Recognise and respond to changes that could affect the effectiveness of patrolling with a guard dog</p> <p>1.7 Describe how changes in weather conditions, light levels and other environmental conditions can affect guard dogs' senses</p>

Unit 19: Maintain understanding of current legislation and regulation relevant to the security officer role

Unit reference number: Y/601/9196

Level: 4

Credit value: 3

Guided learning hours: 12

Unit summary

This unit provides for the development of the knowledge, understanding of legislation and regulation within the learner's role. The learner must be able to identify and access appropriate sources of relevant information and use research methods that are efficient and effective. They must be able to determine the level of knowledge required and identify and explain fully the impact of current legislation and obtain specialist help and advice when it is needed. The learner must confirm they have authority to apply and implement legislation and inform other relevant people. They must provide details of implementation of legislation in a language and format that aids understanding and know how to explain new techniques to other people who need to know them. The learner needs to know how to record accurate and full details of the results of applying new legislation and must maintain confidentiality and security.

Evidence requirements

Assessment must be carried out in a way that is consistent with the requirements outlined in *Annexe C: Assessment strategy*.

To pass the unit, learners must meet all of the assessment criteria.

Assessment criteria: performance

The assessment criteria relating to performance are emboldened. Evidence for all of these must come from learners' performance in the workplace.

Unit 21: Preventing unauthorised items passing through ports

Unit reference number: L/601/9194

Level: 2

Credit value: 6

Guided learning hours: 48

Unit summary

This unit provides for the development of the knowledge, understanding and skills for maintaining security at ports (air, sea, channel tunnel) where passengers are passing through. This involves screening and searching for items that are unauthorised or dangerous.

Evidence requirements

Assessment must be carried out in a way that is consistent with the requirements outlined in *Annexe C: Assessment strategy*.

To pass the unit, learners must meet all of the assessment criteria.

Assessment criteria: performance

The assessment criteria relating to performance are emboldened. Evidence for these must come from learners' performance in the workplace, apart from assessment criteria 2.6, 3.3, 4.2 and 4.8, for which 'what if'-type questioning may be used if naturally occurring performance evidence is not available. Use of such questions should, however, only be considered as a last resort.

Simulation

Simulation is not permitted in this unit.

Assessment criteria: knowledge and understanding

The remaining non-emboldened assessment criteria relate to knowledge and understanding. They can be assessed inside or outside the workplace, but the evidence the learners produce must relate to their own work environment.

Recording of evidence

The type of evidence, portfolio reference and date should be entered against each assessment criterion in the table. Alternatively, centre documentation could be used to record this information.

Professional development and training

Pearson supports UK and international customers with training related to NVQ and BTEC qualifications. This support is available through a choice of training options offered in our published training directory or through customised training at your centre.

The support we offer focuses on a range of issues including:

- planning for the delivery of a new programme
- planning for assessment and grading
- developing effective assignments
- building your team and teamwork skills
- developing student-centred learning and teaching approaches
- building functional skills into your programme
- building effective and efficient quality assurance systems.

The national programme of training we offer can be viewed on our website (qualifications.pearson.com). You can request customised training through the website or by contacting one of our advisers in the Training from the Pearson team via Customer Services to discuss your training needs.

The training we provide:

- is active
- is designed to be supportive and thought provoking
- builds on best practice
- may be suitable for those seeking evidence for their continuing professional development.

Annexe A: Quality assurance

Key principles of quality assurance

- A centre delivering Pearson qualifications must be an Pearson-recognised centre and must have approval its for qualifications.
- The centre agrees, as part of gaining recognition, to abide by specific terms and conditions relating to the effective delivery and quality assurance of assessment. The centre must abide by these conditions throughout the period of delivery.
- Pearson makes available to approved centres a range of materials and opportunities to exemplify the processes required for effective assessment and provide examples of effective standards. Approved centres must use the guidance on assessment to ensure that staff who are delivering Pearson qualifications are applying consistent standards.
- An approved centre must follow agreed protocols for: standardisation of assessors; planning, monitoring and recording of assessment processes; internal verification and recording of internal verification processes and dealing with special circumstances, appeals and malpractice.

Quality assurance processes

The approach to quality-assured assessment is made through a partnership between a recognised centre and Pearson. Pearson is committed to ensuring that it follows best practice and employs appropriate technology to support quality assurance processes where practicable. The specific arrangements for working with centres will vary. Pearson seeks to ensure that the quality-assurance processes it uses do not inflict undue bureaucratic processes on centres, and works to support them in providing robust quality-assurance processes.

The learning outcomes and assessment criteria in each unit within this specification set out the standard to be achieved by each learner in order to gain each qualification. Pearson operates a quality-assurance process, designed to ensure that these standards are maintained by all assessors and verifiers.

For the purposes of quality assurance, all individual qualifications and units are considered as a whole. Centres offering these qualifications must be committed to ensuring the quality of the units and qualifications they offer, through effective standardisation of assessors and internal verification of assessor decisions. Centre quality assurance and assessment processes are monitored by Pearson.

The Pearson quality-assurance processes will involve:

- gaining centre recognition and qualification approval if a centre is not currently approved to offer Pearson qualifications
- annual visits to centres by Pearson for quality review and development of overarching processes and quality standards. Quality review and development visits will be conducted by an Pearson quality development reviewer
- annual visits by occupationally competent and qualified Pearson standards verifiers for sampling of internal verification and assessor decisions for the occupational sector
- the provision of support, advice and guidance towards the achievement of national occupational standards.

Centres are required to declare their commitment to ensuring quality and appropriate opportunities for learners that lead to valid and accurate assessment outcomes. In addition, centres will commit to undertaking defined training and online standardisation activities.

Annexe B: Centre certification and registration

Pearson standards verifiers will provide support, advice and guidance to centres to achieve Direct Claims Status (DCS). Pearson will maintain the integrity of Pearson NVQs through ensuring that the awarding of these qualifications is secure. Where there are quality issues identified in the delivery of programmes, Pearson will exercise the right to:

- direct centres to take action
- limit or suspend certification
- suspend registration.

The approach of Pearson in such circumstances is to work with the centre to overcome the problems identified. If additional training is required, Pearson will aim to secure the appropriate expertise to provide this.

What are the access arrangements and special considerations for the qualification in this specification?

Centres are required to recruit learners to Pearson qualifications with integrity.

Appropriate steps should be taken to assess each applicant's potential and a professional judgement should be made about their ability to successfully complete the programme of study and achieve the qualification. This assessment will need to take account of the support available to the learner within the centre during their programme of study and any specific support that might be necessary to allow the learner to access the assessment for the qualification. Centres should consult Pearson's policy on learners with particular requirements.

Pearson's policy on access arrangements and special considerations for Pearson qualifications aims to enhance access to the qualifications for learners with disabilities and other difficulties (as defined by the 2010 Equality Act) without compromising the assessment of skills, knowledge, understanding or competence. Please refer to *Access Arrangements and Special Considerations for BTEC and Pearson NVQ Qualifications* for further details. qualifications.pearson.com.

Annexe C: Assessment strategy

The purpose of this assessment strategy is to ensure that the Pearson Edexcel Level 2 Certificate in Providing Security Services is subject to consistently rigorous and fair assessment. It is also designed to ensure that individuals who make judgments about competence are both qualified and competent to do so.

The assessment strategy addresses issues of:

- 1 Approaches to assessment
- 2 Simulation
- 3 Criteria for appointment of assessors and internal verifiers
- 4 Criteria for appointment of external verifiers
- 5 Expert witnesses
- 6 Employs direct model of assessment/verification and how this differs from the standard model

1 Approaches to assessment

- 1.1 Although individual units define specific learning outcomes and assessment criteria, it is not a requirement that units be taught and assessed individually. Where two or more units within a qualification contain similar or complementary assessment criteria, it is acceptable and potentially desirable that such units be assessed together where practicable.
- 1.2 Within the learning outcomes for the units, there is generally a mix of assessment criteria that relate to **performance** and those that relate to **knowledge/understanding**. These will be identified in each unit.
- 1.3 Evidence for assessment criteria that relate to **performance** must derive from real work activities carried out either in the workplace or by simulation in a realistic working environment (see section 2)
- 1.4 Assessment criteria that relate to **knowledge and understanding** can be assessed inside or outside the workplace, but the learner must relate their knowledge and understanding to the work environment.
- 1.5 For assessment criteria that relate to **performance**, the preferred types of evidence are:
 - observation by the assessor of learner performance in the workplace
 - expert witness testimony relating to learner performance in the workplace. This is particularly useful for evidence that occurs when the assessor is not present. To be considered an expert witness, they must meet the definition outlined in section 5.
 - products of work done in the workplace, eg written records. Where these are confidential, the records themselves must not be included the learner's portfolio.

- 1.6 Other acceptable sources of evidence for the learner's performance and knowledge/understanding include:
- Learner reflective accounts
 - Witness testimony
 - Professional discussion between the assessor and the candidate, with a summary recorded by the assessor
 - Oral or written questioning, with questions and answers recorded by the assessor or candidate
 - Assignments and projects related to the learner's work environment
 - Recognition of prior learning.

2 Simulation

- 2.1 Where simulation is permitted, this is identified within the relevant unit.
- 2.2 Simulation is only allowed in situations where:
- a work activity occurs infrequently and therefore opportunities to complete it do not easily arise
 - a learner is required to respond to a situation that rarely occurs, such as responding to an emergency situation
 - mistakes would be too hazardous or expensive to contemplate.
- 2.3 All simulations should match the conditions of a realistic working environment. In other words, the conditions should match those found in the workplace, including facilities, equipment and material, as well as relationships, constraints and pressures.
- 2.4 All simulations must be planned, delivered and documented by the centre in a way that ensures the simulation accurately reflects what the unit seeks to assess.
- 2.5 Assessors should confirm with their internal verifier about the validity of any simulation scenario, prior to its use.
- 2.6 Where possible, the centre should confirm with its external verifier about the validity of any simulation scenario, prior to its use.

3 Criteria for appointment of assessors and internal verifiers

Centres must comply with all of the requirements set out below.

3.1 Assessors and internal verifiers (IVs) must be occupationally competent. This means that each assessor/IV must be competent in the functions covered by the units they are assessing/verifying. This competence must be current and verifiable, and must be sufficient to be effective and reliable when judging the learner's competence.

Experience and knowledge can be confirmed in various ways, for example through:

- CV and references
- Possession of relevant qualification(s)
- Membership of a relevant professional institution.

3.2 Assessors and IVs must provide evidence of maintaining their occupational competence, for example by maintaining a CPD log.

3.3 Assessors and IVs must:

- understand the structure of the qualification
- recognise acceptable sources of evidence for the qualification
- implement the required assessment recording procedures
- understand and comply with the quality assurance and administrative requirements for the qualification
- be familiar with the national occupational standards that underpin this qualification

3.4 Assessors must **either**:

- hold one of the following assessor awards: D32; D33; A1; Level 3 Award in Assessing Competence in the Work Environment

or

- have a clear plan for achieving the A1 or the Level 3 Award in Assessing Competence in the Work Environment award within 12 months of starting in the role of assessor

3.5 IVs must **either**:

- hold one of the following internal verifier awards: D34; V1; Level 4 Award in the Internal Quality Assurance of Assessment Processes and Practice

or

- have a clear plan for achieving the V1 or the Level 4 Award in the Internal Quality Assurance of Assessment Processes and Practice award within 12 months of starting in the role of internal verifier

4 Criteria for the appointment of external verifiers

Edexcel will ensure that external verifiers comply with the following criteria.

4.1 External verifiers must:

- have a good understanding of the sector and of current working practices
- demonstrate a commitment to maintaining their occupational knowledge
- understand the structure, content and evidence requirements for the qualification
- be independent of the centres that they are verifying
- hold an appropriate external verifier award.

5 Expert witnesses

- 5.1 Anyone considered as an expert witness must be occupationally competent. This means that they must be competent in the functions covered by the units they are witnessing. This competence must be current and verifiable, and must be sufficient to be effective and reliable when judging the learner's competence.
- 5.2 Expert witnesses must have current experience within their occupational roles. Current experience is defined here as having held a relevant post for a minimum of one year within the past two years in a role directly related to the units they are witnessing as an experienced practitioner, manager or trainer.
- 5.3 Expert witnesses must be familiar with the qualification and must be able to interpret current working practices and technologies within the area of work.

6 The employer direct model of assessment/internal verification, and how this differs from the standard model

- 6.1 The **standard** model of assessment/verification requires assessors and internal verifiers to hold appropriate qualifications for assessors/internal verifiers, as specified in sections 3.4 and 3.5.
- 6.2 Under the standard model, assessors and internal verifiers may be:
- directly employed in the same organisation as the learner (for example with assessment carried out by the learner's supervisor and internal verification carried out by someone within the organisation's training function); or
 - employed by an external organisation such as a training provider. In such cases, the assessor may make use of expert witness testimony from the learner's supervisor, but the final decision regarding the validity and reliability of this evidence rests with the assessor.

- 6.3 The **employer-direct** model of assessment/verification recognises that managers and supervisors in employer organisations may have developed equivalent skills and understanding to enable them to take on assessor and internal verifier roles **without** holding the qualifications for assessors and/or internal verifiers specified in sections 3.4 and 3.5.
- 6.4 Under the employer-direct model, all assessment and internal verification will be carried out by the employer itself.
- 6.5 Assessors and internal verifiers under the employer-direct model (as with the standard model) must also meet the requirements outlined in sections 3.1, 3.2 and 3.3.
- 6.6 The employer-direct model may only be used by employer organisations and with specific approval from Edexcel in advance. Before approval is granted, the employer will be required to demonstrate that its internal systems, training and procedures map fully to the national occupational standards for Assessment and Quality Assurance.
- 6.7 Employers that are interested in using the employer-direct model should contact wbl@pearson.com for further information.
