

This version of the unit replaces all previously published versions with effect from January 2012. The unit should be used by all learners registering for qualifications that include it in their structure from this date.

Unit title: Marking out from setting out details for routine wheelwrighting products in the workplace

Unit reference number: A/503/2660

QCF level: 2

Credit value: 12

Guided learning hours: 40

Start date: January 2012

Unit summary

The aim of this unit is to develop the skills, knowledge and understanding required to confirm competence in marking out from setting out details for routine wheelwrighting products in the workplace within the relevant sector of industry.

Assessment requirements/evidence requirements

This unit must be assessed in a work environment, in accordance with:

- The Additional Requirements for Qualifications using the title NVQ in QCF
- The ConstructionSkills' Consolidated Assessment Strategy for Construction and the Built Environment.

Assessors for this unit must have verifiable, current industry experience and a sufficient depth of relevant occupational expertise and knowledge, and must use a combination of assessment methods as defined in the Consolidated Assessment Strategy.

Workplace evidence of skills cannot be simulated.

Assessment recording

This unit is assessed in the workplace. The table on the following pages shows the learning outcomes and the assessment criteria for this unit. The table includes space for learners to enter the types of evidence they are presenting for assessment and the submission date against each assessment criterion. Alternatively, centres can use their own documentation.

Learning outcomes and assessment criteria

Learning Outcome		Assessment Criterion		Evidence type	Portfolio reference	Date
1	Interpret the given information relating to the work and resources needed when marking out from setting out details for routine wheelwrighting products.	1.1	Interpret and extract relevant information from drawings, specifications, schedules, method statements, risk assessments, cutting lists and manufacturers' information.			
		1.2	Comply with information and/or instructions derived from risk assessments and method statement.			
		1.3	State the organisational procedures developed to report and rectify inappropriate information and unsuitable resources and how they are implemented.
