

This version of this unit replaces all previously published versions with effect from January 2012. This unit should be used by all learners registering for qualifications that include it in their structure from this date.

Unit title: Producing setting out details for routine wheelwrighting products in the workplace

Unit reference number: Y/503/2648

QCF level: 2

Credit value: 14

Guided learning hours: 47

Start date: January 2012

Unit summary

The aim of this unit is to develop the skills, knowledge and understanding required to confirm competence in producing setting out details for routine wheelwrighting products in the workplace within the relevant sector of industry.

Assessment requirements/evidence requirements

This unit must be assessed in a work environment, in accordance with:

- the Additional Requirements for Qualifications using the title NVQ in QCF
- the ConstructionSkills' Consolidated Assessment Strategy for Construction and the Built Environment.

Assessors for this unit must have verifiable, current industry experience and a sufficient depth of relevant occupational expertise and knowledge, and must use a combination of assessment methods as defined in the Consolidated Assessment Strategy.

Workplace evidence of skills cannot be simulated.

Assessment recording

This unit is assessed in the workplace. The table on the following pages shows the learning outcomes and the assessment criteria for this unit. The table includes space for learners to enter the types of evidence they are presenting for assessment and the submission date against each assessment criterion. Alternatively, centres can use their own documentation.

Learning outcomes and assessment criteria

Learning Outcome		Assessment Criterion	Evidence type	Portfolio reference	Date
1	Interpret the given information relating to the work and resources needed when producing setting out details for routine wheelwrighting products.	1.1	Interpret and extract information from drawings, specifications, cutting lists, schedules, method statements, risk assessments and manufacturers' information.		
		1.2	Comply with information and/or instructions derived from risk assessments and method statements.		
		1.3	State the organisational procedures developed to report and rectify inappropriate information and unsuitable resources and how they are implemented.		
		1.4	Describe different types of information, their source and how they are interpreted in relation to: <ul style="list-style-type: none"> - drawings, specifications, schedules, cutting lists, method statements, risk assessments, manufacturers' information, component standards and current regulations 		
2	Know how to comply with relevant legislation and official guidance when producing setting out details for routine wheelwrighting products.	2.1	Describe their responsibilities under current legislation and official guidance whilst working: <ul style="list-style-type: none"> - in the workplace, with tools and equipment, with materials and substances, with movement/storage of materials and by manual handling and mechanical lifting. 		

Learning Outcome	Assessment Criterion	Evidence type	Portfolio reference	Date
	2.2 Describe the organisational security procedures for tools, equipment and personal belongings in relation to site, workplace, company and operative.			
	2.3 Explain what the accident reporting procedures are and who is responsible for making reports.			
3 Maintain safe working practices when producing setting out details for routine wheelwrighting products.	3.1 Use health and safety control equipment safely to carry out the activity in accordance with legislation and organisational requirements when producing setting out details for routine wheelwrighting products.			
	3.2 Explain why and when health and safety control equipment, identified by the principles of protection, should be used, relating to producing setting out details for routine wheelwrighting products, and the types, purpose and limitations of each type, the work situation and general work environment, in relation to: <ul style="list-style-type: none"> - collective protective measures - personal protective equipment (PPE) - respiratory protective equipment (RPE) - local exhaust ventilation (LEV). 			
	3.3 Describe how the relevant health and safety control equipment should be used in accordance with the given instructions.			

Learning Outcome	Assessment Criterion	Evidence type	Portfolio reference	Date
	3.4 State how emergencies should be responded to in accordance with organisational authorisation and personal skills when involved with fires, spillages, injuries and other task-related hazards.			
4 Select the required quantity and quality of resources for the methods of work to produce setting out details for routine wheelwrighting products.	4.1 Select resources associated with own work in relation to materials, components, fixings, tools and equipment.			
	4.2 Describe the characteristics, quality, uses, sustainability, limitations and defects associated with the resources in relation to: <ul style="list-style-type: none"> - timber, manufactured sheet material, paper for rods, glass, plastic, fabric, non-ferrous metal, ironmongery, adhesives, fixings and associated ancillary items - marking and testing tools and equipment. 			
	4.3 Describe how the resources should be used correctly and how problems associated with the resources are reported.			
	4.4 Explain why the organisational procedures have been developed and how they are used for the selection of required resources.			
	4.5 Describe any potential hazards associated with the resources and method of work.			

Learning Outcome	Assessment Criterion	Evidence type	Portfolio reference	Date	
<p>5 Minimise the risk of damage to the work and surrounding area when producing setting out details for routine wheelwrighting products.</p>	4.6	Describe how to calculate quantity, length, area and wastage associated with the method/procedure to produce setting out details for routine wheelwrighting products.			
	5.1	Protect the work and its surrounding area from damage in accordance with safe working practices and organisational procedures.			
	5.2	Minimise damage and maintain a clean work space.			
	5.3	Dispose of waste in accordance with legislation.			
	5.4	Describe how to protect work from damage and the purpose of protection in relation to general workplace activities, other occupations and adverse weather conditions.			
	5.5	Explain why the disposal of waste should be carried out safely in accordance with environmental responsibilities, organisational procedures, manufacturers' information, statutory regulations and official guidance.			

Learning Outcome	Assessment Criterion	Evidence type	Portfolio reference	Date
6 Complete the work within the allocated time when producing setting out details for routine wheelwrighting products.	6.1 Demonstrate completion of the work within the allocated time. 6.2 State the purpose of the work programme and explain why deadlines should be kept in relation to: <ul style="list-style-type: none"> - types of progress charts, timetables and estimated times - organisational procedures for reporting circumstances which will affect the work programme. 			
7 Comply with the given contract information to produce setting out details for routine wheelwrighting products to the required specification.	7.1 Demonstrate the following work skills when producing setting out details for routine wheelwrighting products: <ul style="list-style-type: none"> - measuring, marking out and drawing. 7.2 Produce setting out details and cutting lists for wheels to given working instructions. 7.3 Produce setting out details and cutting lists for routine wheelwrighting products (carriage construction) to given working instructions; for one of the following: <ul style="list-style-type: none"> - doors - frames - wooden framed vehicles - shafts. 			

Learning Outcome	Assessment Criterion	Evidence type	Portfolio reference	Date	
	7.4	Safely use and handle materials.			
	7.5	Safely use marking and testing tools and ancillary equipment.			
	7.6	Safely store the materials, tools and equipment used when producing setting out details for routine wheelwrighting products.			
	7.7	<p>Describe how to apply safe work practices, follow procedures, report problems and establish the authority needed to rectify them, to:</p> <ul style="list-style-type: none"> - set out and produce cutting lists for routine products - produce straight in plan and elevation: doors, frames (glazed and non-glazed), windows with opening lights, linings, units, fitments and panelling/cladding, staircases - produce wooden framed vehicles, shafts and wheels - take site and workplace dimensions - proportion joints associated with the product and construction method - use marking and testing tools - requisition material. 			

Learning Outcome	Assessment Criterion	Evidence type	Portfolio reference	Date
	7.8 Describe the needs of other occupations and how to communicate within a team when producing setting out details for routine wheelwrighting products.			
	7.9 Describe how to maintain the tools and equipment used when producing setting out details for routine wheelwrighting products.
