## Complete the addition.

$$\begin{array}{r} 17 \cdot 96 \\ + 24 \cdot 77 \\ \hline \end{array}$$

## 2 Complete the addition.

**3** Find the total of 0.87, 11.6 and 19.48.

A 10x10 grid of empty cells. The bottom-right cell is filled with a thick black border, while all other cells are empty and white.

## 4 Complete the subtraction.

|   |   |   |
|---|---|---|
| 7 | 3 | 6 |
| - | 4 | 7 |
|   | 2 |   |

**5** Lay out and solve this subtraction:  $17\cdot39 - 6\cdot8 =$

A 10x10 grid of squares. In the bottom-right corner, there is a 3x2 rectangle outlined in black. The rest of the grid is empty.

## Lay out and solve these multiplications.

$$6 \quad 8 \times 23.52 =$$

A 10x10 grid of 100 empty squares. In the bottom-right corner, there is a 3x2 rectangle outlined in black, consisting of 6 squares. The rest of the grid is empty.

7

$$23 \times 17.52 =$$

Show  
your  
method

A 10x10 grid of light gray lines on a white background. In the bottom-right corner, there is a solid black rectangle that is two squares wide and two squares high, occupying the 9th and 10th columns and the 8th and 9th rows.

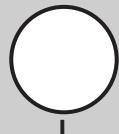

2

## **Lay out and solve these divisions.**

8

$$5059 \div 8 =$$

A 10x10 grid of 100 empty squares. In the bottom-right corner, there is a 2x3 rectangle of squares, all of which are filled with a solid black color. The rest of the grid is entirely white.

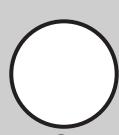

q

$2108 \div 17 =$

Show  
your  
method

A 10x10 grid of empty cells. In the bottom-right corner, there is a 2x2 block of cells that are filled with a light gray color and have a thick black border around the entire block.

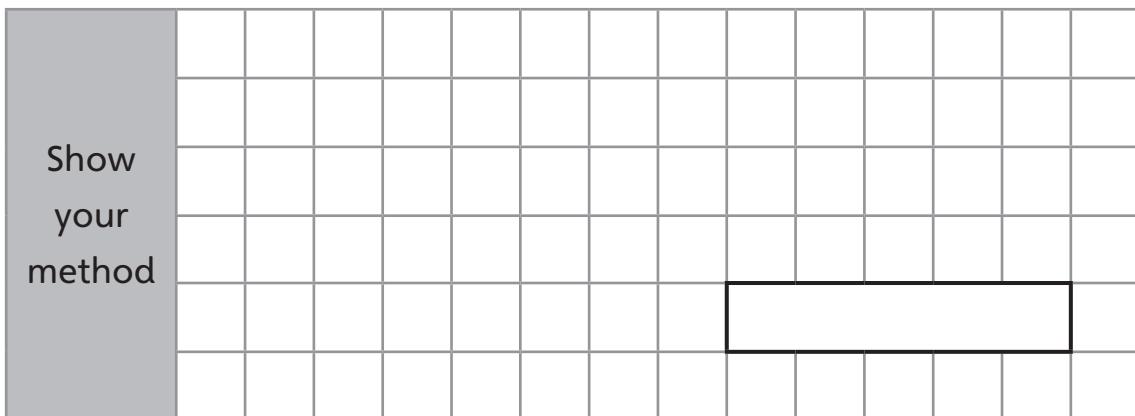

2

10

$$8199 \div 26 =$$
