An amendment has been made to the following unit within the specification for the qualifications listed above (publication code: BD022101):

Unit 12: Dealing with Problems in Daily Life (H/502/0454)

Assessment, page 82

The second paragraph should read:

‘To meet the requirements of 1.1, learners must identify at least **one** problem from home, work or college. Evidence could be written, visual, for example in the form of a diagram or verbal.’

The third paragraph should read:

‘Learners will need to produce a plan for 2.1, 2.2 and 2.3. They should use the evidence generated from 1.2 to identify at least **one** way to tackle the problem, carry out their chosen activities and ask for advice if needed.

This is a change from the previous assessment guidance which required learners to identify two problems for 1.1 and two ways to tackle them for 1.2.
