Proposed project  
title

What are the potential effects of bullying on individuals?

**Section One: Title, objective, responsibilities**

Title or working title of project (in the form of a question)

**What are the potential effects of bullying on individuals?**

Project objectives (e.g., what is the question you want to answer? What do you want to learn how to do? What do you want to find out?):

- To understand the different reasons why people get bullied
- Identify what bullying is
- Explain the different types of bullying
- Describe the potential effects of bullying
- Evaluate the methods to support adolescents who have been bullied

On completion of the project, I hope to develop the following skills:

- **Communication** - I will need to communicate with the librarians in the different libraries that I will visit to get my information.
- **Confidence** - I will improve on this when I interview the School Nurse and ask various questions on bullying.
- **Writing** - to write my report I will need to make sure that I'm using the correct sentence structure and the correct vocabulary. This will therefore help me a lot in improving my writing and will benefit me in other subjects as well.

If it is a group project, what will your responsibilities be?

## Section Two: Reasons for choosing this project

Reasons for choosing the project (e.g., links to other subjects you are studying, personal interest, future plans, knowledge/skills you want to improve, why the topic is important):

The project will be a benefit to me as it has a link to other subjects like PSHE and P.G. and will help to increase my knowledge. In P.G. and PSHE we have lessons based on the topic of bullying and we also have the nurse visiting at times giving us a further insight of various things like bullying and shows us ways we might find help if we are in any sort of trouble. Having seen an incident on bullying recently in the newspaper I felt compelled to do further research and look at this topic in more depth. When I was introduced to the project, I did not have to spend too long thinking about my topic because I already knew what I was planning to do. Also, my future career plan is related to my topic bullying as I hope to become a social worker. In my opinion, I think this project based on the topic bullying is very important to protect the society as it raises a lot of awareness making sure that the people who have a job of stopping bullying from taking place are doing their job properly. Furthermore, one of my project objectives is to show ways in which you could provide support to individuals who have been bullied or are currently being bullied. researching this topic and informing other people of the issues is essential as it could protect young people from killing themselves at a young age.

By writing a report including my project objectives, I hope to achieve and develop many new skills. I feel this would help me to improve my writing and research skills as well as increasing my level of confidence and understanding of this issue. At the end of my report I hope to have achieved all of my project objectives which will answer all of my research questions enabling me to increase my knowledge and share my findings with other people.
