1/2/09	Project proposal forms and introduction as to what I chose and why Produce a questionnaire on why 14-19 year olds smoke cannabis and made the consent forms for people under 16 years old and got my mum to check them both.
2/2/09	Research on classifications about cannabis and what is the penalties on possession on both young people and people over 18 years old. Also started bibliography and added things on as go along. I used www.directgov.co.uk found this site really helpful as well as www.talktofrank.co.uk
4/2/09	Write up questionnaire results and read through them didn't feel that they were as a effective as I would have hoped so produced a survey as well as the consent forms for the under 16's and get mum to check that it looks ok and there is no mistakes.
6/2/09	Write up results of survey and started to think about what I am going to write in my newspaper article as well as starting to think more about what the answer to my key question is going to be.
8/2/09	Statistics and how many people consume cannabis not as specific as I would have hoped but near enough. www.healthinparliament.co.uk was a good site for statistics. Also started my essay on reliable sources and finished it on 9/2/09
