Unit Level 2 Project

Proposed project title Why do people age 14-19 smoke cannabis?

Section One: Title, objective, responsibilities

Title or working title of project (in the form of a question)

A newspaper article on why do people age 14-19 smoke cannabis?

Project objectives (e.g., what is the question you want to answer? What do you want to learn how to do? What do you want to find out?):

- For my Project my key question was why do 14-19 year olds smoke cannabis? I chose to do this because I believe that it has become a growing problem and should be prevented and solved.
- The reason why I chose cannabis was because it is the most common consumed drug in the U.K and in America.
- I chose to do the category 14-19 year olds because I felt like this age range is the stage nowadays to were people are trying cannabis and the age is getting younger.
- I want to learn how to approach people when asking to fill out a questionnaire and a survey & whether they thought it was an issue.
- I also want to learn how to research such a difficult subject.
- Also to try and educate them about do they know the consequences about smoking cannabis and do they know the risks imposed of smoking cannabis whilst handing out the questionnaire then asking them are they prepared to stop smoking cannabis?
- What is cannabis and its risks and effects it has on people
- Hand out questionnaire survey and research statistics to find reliable sources.

If it is a group project, what will your responsibilities be?

Section Two: Reasons for choosing this project

Reasons for choosing the project (e.g., links to other subjects you are studying, personal interest, future plans, knowledge/skills you want to improve, why the topic is important):

I feel as if it is increasingly becoming a bigger problem and if there is something that today's society and other people can do to help stop this. I also want to do it because im not sure if I want to become either a midwife, youth

worker or probation officer and some of these people I may work with in my life may smoke cannabis therefore I want to research whether there is something that I can do to help prevent this or even stop it.

Section Three: Activities and timescales

Activities to be carried out during the project (e.g., research, analysis, writing, preparing for the presentation, etc):
