Teacher Assessor

Proposed project title is school beneficial and should it exist

This form should be used to record the process of your project and be submitted as evidence with the final piece of work.

You may want to discuss:

- what you have done (eg, from one week to the next)
- if you are working in a group, what discussions you have had
- any changes that you have or will need to make to your plans
- what resources you have found or hope to find
- what problems you are encountering and how you are solving them
- what you are going to do next

Date	Comments
07/09/20 19/09/21	During this time, I tried my best to find a project which has been discussed by many and something which has multiple answers. I chose the topic 'Is school beneficial and should it exist' as most people have been in school including me and I wanted to share how other people felt about it. School is something which has been in everyone's life or childhood and something which is very important for your future career.
25/09/21 29/09/20	After I was certain about what topic I wanted to write about, I wrote my Project proposal form. After I had done that I researched about the topic I wanted to do and checked if all sources I used were reliable and not very biased. I found searching for the websites quite hard as sometimes the websites were written anonymously. Due to this I couldn't check whether they had any expertise or whether they are reliable or not. <i>ACI problems resolved.</i> There was a problem which I faced, one or two of my sources were blocked by the school system, because of this I had to do this later at my house. I first wrote down 5 sources for and 5 sources against in order to help me with my project.

3/10/20 09/10/20 17/10/20	After I collected all the information needed I wrote down all my information on my extended project also known as my Research Write Up. In the Research Write up I wrote down all the sources I wrote down including whether they are reliable or not. I also talked about C.R.A.V.E.N, to show just how reliable it is.
13/11/20	I went onto my bibliography and where I wrote the authors of the evidence I used and when I looked into it. I also wrote down the link I went on. After I finished the bibliography I was finishing off my research write up
11/12/20 8/01/21	Once I finished my research write up I started to do my discussion plan which is used to help me write up my discussion. I split the discussion to 3 so that it is easier and better to understand. The three topics I want to talk about are: health, social interaction, and education. <i>AOL detailed & clear.</i>
13/01/21 22/01/21 27/01/21	After finishing my discussion plan I went back to all my work to make improvements. I was checking whether I made any spelling mistake by accident or whether some of the sentences made sense or not.
10/02/21 26/02/21	I started my discussion. At first I did the introduction where I talked about what I will write about. After doing the introduction I started to do my first topic about Education. In this topic I talk about how school will help us in the future because of the subjects we have learnt.
03/03/21 10/03/21	After finishing my first topic I went on to do my second topic which is Social interaction. In this topic I talk about how school is a way to make friends and how it helps them enjoy going to school. My third and last topic is about health where I talk about bullying and how it can impact a child's life.
31/03/21	Today I started to write down my introduction where I write about what I will do in my extended project. In the Introduction I wrote about how school is a way to help us in the future and that some people may have suffered bad experiences while they were at or still in school.
23/04/21	Once I had done my introduction I then did my conclusion where I expressed how I felt about the whole topic and now know about how people felt about school.
07/05/21	Once I finished my conclusion I then started my evaluation where I talked about all the skills I have learnt such as being able to type faster. I also write about what I would change in the future such as having more reliable sources.
