Is school beneficial and should it exist?

AOL Question .

Project objectives (eg, what is the question you want to answer? What do you want to learn how to do? What do you want to find out?):

The question I want to answer is how people thought about school and how they feel about it since I want to see what people experienced during their time in school.

If it is a group project, what will your responsibilities be? n/a

Section Two: Reasons for choosing this project

Reasons for choosing the project (eg, links to other subjects you are studying, personal interest, future plans, knowledge/skills you want to improve, why the topic is important):

This topic is important as it will help people understand how others feel about school and what difficulties they might have faced during their times in school. I would also be able to understand how other schools are like as I have only been to one secondary school. This would also help me in the future as I could possibly know what is wrong about school in the future
