Teacher - Assessor marks and supporting comments

Comments related to the assessment criteria which support the mark awarded for each Assessment Objective should be entered on the grid below.

Assessment Objective	Teacher-Assessor comments	Teacher-Assessor Mark	Moderator Mark
AO1 Manage (7 marks) Comment:	The student demonstrates a mature and frequently well managed approach towards successful completion. There are detailed and clear reasons for this research area, with a reflective tone that shows a sense of wanting to develop knowledge and skills. The activities and timescale section is a particular strength, with key activities not only in an appropriate order but also with mini milestones to support stated activities. The student demonstrates a clear understanding of the type of information needed to answer the research focus. Activity Logs track the development of the project and offer reflections on challenges faced and how these were overcome. The student shows a desire to engage with academics to support his project challenges, which shows confidence to engage with a range of physical and human resources. This student is thorough and confident, which makes these two features of the project process detailed and clear throughout. ✓ Agreed.	6+1 7	
AO2 Use Resources (9 marks) Comment:	The literature review is well structured and written in a mature style, often to a high standard. The research carried out is consistently relevant to the project outcomes and demonstrates a very good awareness of source reliability and understanding. There is evidence that authors have been researched and considered thoughtfully and how these sources will support the research outcomes. A clear bibliography has been included. Appropriate range of sources. Strong on credibility.	8+1 9 ✓ Agreed	
AO3 Develop and Realise (17 marks) Comment:	The student offers a very good understanding of the research area, offering an introduction that shows a depth of wider reading emerging. The discussion is organised thematically and offers successful signposting throughout. There is a very good understanding of the research area, with mini conclusions supporting the key points raised under each section; the project is clear and engaging for readers to understand. All information is relevant and there is a confident style adopted throughout. Thematic approach and use of interim conclusions is particularly effective.	16+1 17 ✓ Agreed.	
AO4 Review (7 marks) Comment:	The review offered is well structured and clear, offering some convincing reasons and reflections. The conclusion reached is logical and well presented. This section, although focused and relevant, would benefit from more research-based reflections on how this area could be developed in future work. The student misses some opportunities to reflect on how he might engage in project work differently in the future and how feedback might be applied for greater impact. ✓ Agreed	4+1 5
