

Website Exemplars Commentaries for P302 Investigation. Spring 2024

P302 Commentaries

Centre	Candidate	Total Mark 50
Assessment Objectives	Mark	Comments
AO1	8	Question/hypothesis is defined. There is a clear attempt to refine the question independently. Objectives have been offered and rationale provided and clear evidence of it evolving. Detailed evident of planning in the activity log and Project Proposal Form.
AO2	12	Wide range of sources used. The sources selected are relevant to the question. The investigation has been appropriately referenced and a bibliography provided. Data collection techniques successfully used by the candidate and hypothesis has been addressed clearly and comparisons drawn. The information has been analysed and synthesised.
AO3	22	The Investigation is well structured, presented and all sections have been coherently linked together. The candidate shows a thorough understanding of the subject and much independent research has been conducted. There are clear lines of arguments and data manipulation is clearly evident in their findings. Appropriate and accurate mathematical calculations have been carried out. The whole project reads well, clearly explaining the current state of the field and how the investigation sits in context to the wider field. The investigation produces unique results and comparison which is of benefit to the field of research in question. Clear conclusions and judgements reached.
AO4	8	The candidate reflects on improvements to their research and outcome. The presentation was well executed and structured. This is supported by the centre's completion of an Oral Presentation Record Form

		Presentation offered which offers clear conclusions and suggestions of how the Investigation could have been improved.
