Extended Project P303 Assessment Guidance.

The assessment guidance outlined below underpins the assessment criteria presented in the marking grid in the Edexcel Project Specification. The guidance emphasises some of the key points that must be considered carefully when awarding marks to candidate work. It is designed to help supervising teachers assess candidate work with close reference to the marking grid. The marking grid published in the Project Specification is the official document that must be used when assessing candidate work. Please be aware that the guidance produced here is not an alternative set of assessment criteria nor does it replace the published marking grid.
