Section 1: SVQ 4 in Management at SCQF Level 9

Introduction

This document contains information specific to the Edexcel SVQ 4 in Management at SCQF Level 9.

National Occupational Standards and SVQs

The standards, Assessment Strategy and qualification structures for Team Leading and Management are overseen by CfA. The SVQs have been developed from the National Occupational Standards.

The Edexcel SVQ 4 in Management at SCQF Level 9 gives recognition of candidates' skills, knowledge and understanding. It allows candidates to gain a qualification in the workplace that relates to their job and promotes good working practice.

You can contact the Sector Skills Council (SSC) at:

CfA business skills @ work
6 Graphite Square, Vauxhall Walk, London SE11 5EE
Telephone: 0207 091 9620 Fax: 0207 091 7340
email: info@cfa.uk.com

SVQs are designed to be assessed in the workplace, or in conditions resembling the workplace. However, simulation of real working practice is rarely permitted. Where this is allowed it will be shown in the individual units, within the standards that are in this logbook.

Simulation must be carried out in conditions resembling the workplace. These conditions are described as being a 'realistic working environment' (RWE).

Unit 6: Develop your personal networks

Unit code: A3

Unit credit: 10

Unit level: 9

Introduction

What this unit is about

This unit is about developing your personal networks to support both your current and future work.

Your personal networks may include people in your own organisation, people you meet from other organisations and people you are in contact with over the phone or the Internet.

Developing personal networks is based on the principles of reciprocity (exchanging things with others for mutual benefit) and confidentiality. People only want to network if there are mutual benefits from exchanging information and other resources. There must also be clearly agreed boundaries of confidentiality - certain information and resources may not be exchanged because they are confidential.

Who is the unit for?

The unit is recommended for middle managers and senior managers.

Links to other units

This unit is linked to units **A2: Manage your own resources and professional development** and **D2: Develop productive working relationships with colleagues and stakeholders** in the overall suite of National Occupational Standards for Management and Leadership.

If your organisation is a small firm, you should look at unit *A3: Check your own skills*, which has been developed by the Small Firms Enterprise and Development Initiative (SFEDI) specifically for small firms and which **may** be more suitable to your needs. You can obtain information on the unit from SFEDI on tel. 0114 241 2155 or at the SFEDI website (www.sfedi.co.uk).

Unit 13

Recruit, select and keep colleagues

Unit code:	D3
Unit credit:	12
Unit level:	9

Introduction

What this unit is about?

This unit is mainly about recruiting and selecting people to undertake identified activities or work roles within your area of responsibility. It involves taking a fair and objective approach to recruitment and selection to ensure that individuals with the required skills, knowledge and understanding, and who are likely to perform effectively, are appointed.

As recruitment and selection can be expensive and time-consuming activities, the unit also involves taking action to understand why colleagues are leaving and taking action to keep colleagues.

Whilst you would be expected to draw on the expertise of personnel specialists, you are not expected to be a personnel specialist yourself.

For the purposes of this unit, 'colleagues' means those people for whom you have line management responsibility.

Who is the unit for?

The unit is recommended for first line managers and middle managers.

Links to other units

This unit is closely linked to unit **D4: Plan the workforce**, **D7: Provide learning opportunities for colleagues** and **D9: Build and manage teams** in the overall suite of National Occupational Standards for Management and Leadership.

If your organisation is a small firm, you should look at unit *J4: Recruit staff*, which has been developed by the Small Firms Enterprise and Development Initiative (SFEDI) specifically for small firms and which **may** be more suitable to your needs. You can obtain information on the unit from SFEDI on tel. 0114 241 2155 or the SFEDI website (www.sfedi.co.uk).

Unit 15: Provide learning opportunities for colleagues

Unit code: D7

Unit credit: 11

Unit level: 8

Introduction

What this unit is about

This unit is about supporting colleagues in identifying their learning needs and helping to provide opportunities to address these needs.

Encouraging colleagues to take responsibility for their own learning is an aspect of this unit as is your role in providing an ‘environment’, for example, in your team or area of responsibility, in which learning is valued.

For the purposes of this unit, ‘colleagues’ means those people for whom you have line management responsibility.

Who is the unit for?

The unit is recommended for team leaders, first line managers, middle managers and senior managers.

Links to other units

This unit is linked to units **D3: Recruit, select and keep colleagues**, **D5: Allocate and check work in your team**, **D6: Allocate and monitor the progress and quality of work in your area of responsibility** and **D13: Support individuals to develop and maintain their performance** in the overall suite of National Occupational Standards for Management and Leadership.

If your organisation is a small firm, you should look at unit *K1: Make sure your staff can do their work*, which has been developed by the Small Firms Enterprise and Development Initiative (SFEDI) specifically for small firms and which may be more suitable to your needs. You can obtain information on the unit from SFEDI on tel. 0114 241 2155 or at the SFEDI website (www.sfedi.co.uk).

Unit 19: Support individuals to develop and maintain their performance

Unit code:	D13
Unit credit:	5
Unit level:	7

Introduction

What this unit is about

This unit is about supporting individuals to develop and maintain their performance at work. These may be people in your own team or individuals from another work group to whom you are providing support.

This unit is based on a commonly-used coaching model where you and the individual clearly agree the improvements in performance required and plan a step-by-step process to achieve a desired standard. You will usually help the individual to develop new skills and experiment with alternative behaviours in a safe environment before applying these for real in the workplace. You will work with the individual to monitor their progress over time, providing specific feedback to help them progress, until they have achieved the desired standard or no longer need your support in developing and/or maintaining their progress.

Who is the unit for?

The unit is recommended particularly for first line managers and middle managers.

Unit 20: Initiate and follow disciplinary procedure

Unit code: D14

Unit credit: 6

Unit level: 6

Introduction

What this unit is about

This unit is about initiating and following your organisation's disciplinary procedure in response to misconduct or unsatisfactory performance of a member of your team.

All employing organisations are required to have disciplinary and grievance procedures. As a minimum, these must meet the requirements laid down in relevant employment legislation. However, many organisations have developed more detailed and extensive disciplinary procedures and associated rules to reflect their specific contexts and requirements.

This unit describes the minimum standard of performance expected of managers when they are implementing disciplinary procedures in line with legal and organisational requirements. To meet this standard, managers need both sound technical knowledge of the procedures and well-developed cognitive and interpersonal skills.

Who is the unit for?

The unit is for line managers who have to deal with misconduct or unsatisfactory performance of members of their team. It is **not** designed for human resources specialists who are required to develop disciplinary procedures and provide specialist support to line managers who are implementing them.

Links to other units

This unit is linked to unit **D15: Initiate and follow grievance procedure** in the overall suite of National Occupational Standards for Management and Leadership.

Unit 22: Manage redundancies in your area of responsibility

Unit code: D16

Unit credit: 5

Unit level: 7

Introduction

What this unit is about

This unit is about managing situations when you are required to dismiss individuals who report to you for reasons of redundancy.

Due to closure or reorganisation of a business or changes in technology, working methods or trading patterns, it is sometimes necessary to make individuals redundant. The strategic decision-making and change- management processes leading to the redundancies are dealt with in other units.

This unit focuses on the sensitive and stressful function that line managers have to perform of dismissing some or all of their team members because of redundancies. This needs to be done fairly and strictly in line with your organisation's policy and relevant legislation. It also requires strong interpersonal skills to treat those made redundant with consideration and compassion whilst ensuring that those remaining in employment are reassured.

Who is the unit for?

The unit is for line managers who have to dismiss individuals in their team for reasons of redundancy. It is **not** designed for senior managers who make the strategic decisions about the number of redundancies and the selection criteria, nor is it designed for human resources specialists who develop redundancy policies and plans and provide specialist support to line managers who are implementing them.

Links to other units

This unit is linked to unit **B8: Ensure compliance with legal, regulatory, ethical and social requirements** in the overall suite of National Occupational Standards for Management and Leadership. Human resource specialists should refer to the Personnel Standards *P11: Develop a strategy and plan for managing changes in people resourcing* and *P33: Operate redundancy procedures*, which describe their responsibilities.

Unit 24: Obtain additional finance for the organisation

Unit code:	E3
Unit credit:	18
Unit level:	10

Introduction

What this unit is about

This unit is about identifying the need for and obtaining additional finance to fund the organisation's proposed activities. The organisation may already be generating some surplus income through the ongoing supply of its products and/or services. This may be insufficient, however, to fund activities such as investment in new equipment or proposed changes to products and/or services and it is in instances such as these where additional finance might be required.

A key aspect of this unit is identifying types of finance and funding providers which are appropriate to the particular needs of the organisation.

Whilst you would be expected to draw on the expertise of financial specialists, you are not expected to be a financial specialist yourself.

For the purposes of this unit, an 'organisation' can mean a self-contained entity such as a private sector company, a charity or a local authority, or a significant operating unit, with a relative degree of autonomy, within a larger organisation.

Who is the unit for?

The unit is recommended for senior managers.

Links to other units

This unit is linked to units **B3: Develop a strategic business plan for your organisation** and **B4: Put the strategic business plan into action** in the overall suite of National Occupational Standards for Management and Leadership.

If your organisation is a small firm, you should look at unit *G3: Get finance for the business*, which has been developed by the Small Firms Enterprise and Development Initiative (SFEDI) specifically for small firms and which **may** be more suitable to your needs. You can obtain information on the unit from SFEDI on tel. 0114 241 2155 or at the SFEDI website (www.sfedi.co.uk).

Unit 29: Manage knowledge in your area of responsibility

Unit code: E12

Unit credit: 4

Unit level: 9

Introduction

What this unit is about

This unit is about managing knowledge - salient information and expertise - in your area of responsibility in line with agreed standards and processes. It involves being clear about how knowledge is created, developed and shared and encouraging people to use knowledge management standards, systems, tools and processes so that knowledge is effectively captured and shared with those who may benefit from it. It also involves protecting intellectual property from unauthorised use.

Who is the unit for?

The unit is recommended for middle managers who have responsibility for managing knowledge in their area of responsibility.

Links to other units

This unit is loosely based on four units from the Knowledge Management standards developed by Lifelong Learning UK for specialists in the field of knowledge management: *D2: Diagnose knowledge needs, assets, use and flows*, *D4: Support collaboration, knowledge sharing and re-use*, *D5: Facilitate knowledge capture* and *D6: Enable the transfer of knowledge into information*.

It is linked to units **E10: Take effective decisions**, **E11: Communicate information and knowledge**, and **E13: Promote knowledge management in your organisation** in the overall suite of National Occupational Standards for Management and Leadership.

Unit 30:	Support team and virtual working
Unit code:	E14
Unit credit:	N/A
Unit level:	N/A

Introduction

What this unit is about

Team working within organisations and across organisational boundaries is now a common working practice. People may work on a number of teams and may be located in different places geographically or in different parts of the organisation.

Virtual working, with people moving between locations, is also becoming commonplace. Effective team and virtual working requires that individuals and teams have access to tools that enable them to communicate effectively. This standard is about providing, managing or supporting these tools and processes.

Who is the unit for?

This standard is applicable to people in management and practitioner roles who are responsible for supporting teams and staff working remotely. It is also applicable to people in operational roles responsible for identifying, developing and managing tools and processes to support teams and remote workers.

Links to other units and competency frameworks:

This unit is linked to units **D2: Develop productive working relationships with colleagues and stakeholders** and **F12: Improve organisational performance** in the overall suite of National Occupational Standards for Management and Leadership.

This unit also has links with unit *HI12 Promote and facilitate the use of information and knowledge* from the NOS for Health Informatics, developed by Skills for Health. See www.skillsforhealth.org or www.ukstandards.org.

Unit 31: Procure supplies

Unit code: E15

Unit credit: 5

Unit level: 8

Introduction

What this unit is about

This unit is about procuring supplies - either products or services - from external suppliers.

In larger organisations there are often specialist departments which handle the supply-chain management and procurement functions across the organisation, working to specialist supply-chain management standards.

However, in many smaller organisations, non-specialist managers are required to procure the products and services necessary for the activities for which they are responsible - the function described in this unit. To do so effectively, managers need a good understanding of their organisation's procurement policy and procedures (where these exist) and the relevant statutory and sector-specific requirements.

They also need the cognitive skills to be able to assess which supplies and suppliers are likely to provide the best value for money and the interpersonal skills to negotiate with suppliers and maintain effective working relationships with them over time.

Who is the unit for?

The unit is for non-specialist managers who are required to procure supplies from external suppliers. It is **not** intended for purchasing and supply-chain management specialists, for whom specialist supply-chain management standards are available.

Links to other units

This unit is linked to unit **E16: Select suppliers through a tendering process** and **E17: Outsource business processes** in the overall suite of National Occupational Standards for Management and Leadership.

Unit 32: **Select suppliers through a tendering process**

Unit code: E16

Unit credit: 6

Unit level: 9

Introduction

What this unit is about

This unit is about selecting suppliers to supply products and/or services through a formal tendering process against a specification.

In larger organisations there are often specialist departments which handle the supply-chain management and procurement functions across the organisation, working to specialist supply-chain management standards.

However, in many smaller organisations, non-specialist managers are required to draw up specifications for products and services, invite tenders and evaluate these against clear and fair criteria - the function described in this unit. To do so effectively, managers need a good understanding of their organisation's procurement policy and procedures (where these exist) and the relevant statutory and sector-specific requirements. They also need the cognitive skills to be able to make fair assessments against established criteria and the interpersonal skills to maintain effective working relationships with suppliers.

Who is the unit for?

The unit is for non-specialist managers who are required to select suppliers through a formal tendering process.

It is **not** intended for purchasing and supply-chain management specialists, for whom specialist supply-chain management standards are available.

Unit 33: Outsource business processes

Unit code: E17

Unit credit: 9

Unit level: 9

Introduction

What this unit is about

This unit is about outsourcing business processes which are not part of your organisation's core competencies.

It covers the outsourcing of discrete functions - such as payroll management, cleaning or security - as well as more complex processes, such as helpline provision, manufacturing or product assembly. It covers outsourced processes delivered on your premises (e.g. catering) and processes carried out at the vendor's premises (which may be in your country or in another country to take advantage of time zone differences, specialist expertise, tax concessions or low labour costs).

Who is the unit for?

The unit is for those managers who have strategic responsibility for outsourcing non-core business processes for their organisation, or their part of the organisation.

Links to other units

This unit is linked to units **E15: Procure supplies**, **E16: Select suppliers through a tendering process**, **F3: Manage business processes**, **F12: Improve organisational performance** and **F13: Manage quality systems** in the overall suite of National Occupational Standards for Management and Leadership.

Unit 39: Manage quality systems

Unit code: F13

Unit credit: 5

Unit level: 9

Introduction

What this unit is about

This unit is about managing quality systems to ensure that business processes consistently deliver products/ services that meet customers' and other stakeholders' quality expectations and legal and regulatory requirements.

ISO9001:2000, EFQM Excellence Model, Total Quality Management, Six Sigma, Lean Manufacturing, PQASSO and Investors in People are some of the common generic quality assurance systems and standards in use in the UK, although almost every sector has specific quality standards and requirements. Managers responsible for assuring quality in their organisation, or their part of the organisation, need to make sure systems are in place and people are competent to manage processes and deliver products and/or services whose quality meets the expected standards.

Whereas unit F3 is about managing individual business processes, this unit, F13, is broader, ensuring that the outputs of all processes meet required standards and are continuously improved.

Who is the unit for?

The unit is for managers who have specific responsibility for managing quality systems to assure quality of products and/or services in their organisation, or their part of the organisation.

Links to other units

This unit is linked to units **E17: Outsource business processes**, **F14: Prepare for and participate in quality audits** and **F15: Carry out quality audits** in the overall suite of National Occupational Standards for Management and Leadership.

Unit level:	8

Introduction

What this unit is about

This unit is about preparing for, and participating in, quality audits of your area of responsibility as part of a formal quality management system, such as ISO9001:2000 or sector-specific systems.

The key to a successful audit outcome is to ensure that work consistently meets quality standards and complies with relevant procedures. Preparation for the audit involves checking all relevant documentation is up to date and readily available for the audit, whilst active participation in the audit can ensure that any non conformances are addressed and potential improvements to business processes, quality standards and/or procedures are identified.

Who is the unit for?

The unit is for managers working in environments with formal quality management systems who are required to participate in quality audits.

Unit 41: Carry out quality audits

Unit code: F15

Unit credit: 6

Unit level: 10

Introduction

What this unit is about

This unit is about carrying out quality audits as part of a formal quality management system, such as ISO9001:2000 or sector-specific systems.

Quality auditors require technical knowledge of the quality system and standards with which they are working and a good understanding of the processes and procedures they are auditing. They need to carry out quality audits professionally and rigorously in order to reveal any nonconformances. They also need interpersonal skills to carry out audits in such a way that auditees (i.e. those being audited) do not feel threatened, but rather feel empowered to continuously improve the quality of their work.

Who is the unit for?

The unit is for quality auditors - those carrying out formal audits of compliance with quality systems.

Unit 42: Manage the development and marketing of products/services in your area of responsibility

Unit code: F16

Unit credit: 9

Unit level: 10

Introduction

What this unit is about

This unit is about managing the development and marketing of products and/or services for which you are responsible.

This unit describes how a manager without specialist marketing expertise can identify customer requirements and develop new or enhanced products or services better to meet these requirements. Issues such as competition, fitting with the organisation's strategic objectives and return on investment need to be taken into account when considering the business case for developing or enhancing products or services. Within a cycle of continuous improvement, it is important to monitor demand and take note of customer feedback in order to adapt products or services and how they are marketed.

Who is the unit for?

The unit is for middle managers with responsibility to provide products or services for identified groups of customers.

It is not aimed at specialist marketing managers who should refer to the Marketing National Occupational Standards.

Links to other units

This unit is linked to units **F4: Develop and implement marketing plans for your area of responsibility** and **F9: Build your organisation's understanding of its market and customers** in the overall suite of National Occupational Standards for Management and Leadership. To meet the national standard you must:						
1 Contact customers identified as sales leads, accessing those who can make buying decisions.						
2 Identify customer requirements through careful questioning, checking for understanding and summarising their buying needs and interests.						
3 Identify the key features and associated benefits of your relevant products/services, relating these to the needs identified.						
4 Discuss and assess with the customer those of your products/services which are suitable for their needs.						
5 Evaluate potential trade-offs, whereby particular aspects of the product/service's package might be enhanced whilst others of lesser importance might be reduced, which will be beneficial both to the customer and to your organisation.
