

Funding Focus – Learner and qualification eligibility for 19+ funding 2016/17

8 April 2016

Funding Focus provides quick summaries of recent funding developments, or particular aspects of the funding system.

The rules around who and what will be eligible for 19+ funding change for 2016/17. This Funding Focus updates the previous version of this document (published on the 4 April) summarising in three tables who and what will be eligible for funding in 2016/17, and how qualifications will be made eligible.

Table 1: Learner eligibility for 19+ funding 2016/17: Key changes:

- Unemployed 19+ year-olds can be fully funded, and employed 19+ year olds can be co-funded, for level 2 provision, even where they already have a full level 2.
- 'Local flexibility funding' will be used to fund this provision, and provision and Entry and level 1, and can fund qualifications, components and/or bespoke provision.
- Advanced learning loan approved qualifications can be offered to 19+ year-olds from 2016/17 (only available for 24+ year-olds in 2015/16).

Table 2: Qualification and unit eligibility for 19+ funding 2016/17: Qualifications will now be made eligible for funding in four funding streams. Some will be automatically approved, others require submissions. Key changes:

- *English and maths entitlement qualifications* will include stepping stone qualifications and are automatically approved.
- *19+ Local flexibility qualifications, components and units* are automatically approved according to a set of principles.
- *19-23 Entitlement qualifications* at levels 2 and 3 will be aligned to 2018 16-18 performance tables and are automatically approved. These are referred to as 'core'. 'Non-core' qualifications (i.e. those not on tables) are also available in 2016/17. It will be difficult to have 'non-core' 19-23 Entitlement qualifications approved in the future and awarding organisations are likely to need to make submissions for qualifications not automatically approved. Entitlement qualifications will be automatically approved for local flexibility at level 2, and for loans at level 3.
- **2016/17 is a transition period as we move towards full skills devolution and the implementation of Technical and Professional Education (TPE) reforms. The SFA will work with the DfE and the EFA to introduce a single entitlement offer for 16-23 year-olds, a list of English and maths stepping stone qualifications, and a process to identify and confirm qualifications for public funding. As we move towards a single 16 to 23 entitlement only 'core' entitlement qualifications will remain 'full'.**
- *19+ Advanced learning loan qualifications* from 2016/17 can be at level 3 to level 6 (only available at levels 3 and 4 in 2015/16). Awarding organisations will need to make submissions for qualifications not automatically approved for loan funding.
