Funding Focus – Advanced learner loans – Where to find out more

3 August 2016

Funding Focus provides quick summaries of recent funding developments, or particular aspects of the funding system.

Introduction

Advanced learner loans are available for individuals aged 19 or above to undertake approved qualifications at levels 3 to level 6, at an approved provider in England. Advanced learner loans give individuals access to financial support for tuition costs similar to that available in higher education. They are paid directly to colleges or training organisations on behalf of an individual. They are not means tested or subject to credit checks and any individual who meets the criteria will be able to apply for a loan regardless of their current employment status. To become an approved provider, colleges and training organisations must be approved on the [Register of Training Organisations](#) and in receipt of an advanced learner loans facility agreement with the Skills Funding Agency.

Loans were expanded in 2016/17 so that:

- They are available **19-23** year-olds studying for a repeat level 3 or level 4 qualification (loans were previously only available to 24+ year-olds).
- They are available to those studying for a **level 5 or 6** qualification (loans were previously only available for levels 3 and 4).

Delivery to 19-23 learners, and delivery of level 5 and 6 qualifications, began at the start of the 2016/17 funding year. Applications for the expanded advanced learner loan were open from May 2016 for courses starting from 1 August 2016.

The Skills Funding Agency will cease to allow subcontracting for advanced learner loans programme from the start of the 2017 to 2018 funding year.

This brief guide gives providers links to further information about advanced learner loans including the qualifications eligible, tools and resources from the Student Loans Company to support delivery, information for learners considering taking out a loan or looking to take out a loan, operational, policy and detailed funding information for colleges, training organisations and employers, and information about Pearson qualifications approved for advanced learner loans.
