Understanding Digital Applications grade boundaries

This document shows the grade boundaries for our suite of Digital Applications qualifications: AiDA, CiDA, CiDA+ and DiDA. For each set of grade boundaries, the maximum number of available marks is also shown.

Maximum marks and boundaries for individual units are shown for both the raw and uniform (UMS) mark scales. Maximum marks and grade boundaries for the overall qualification (the 'cash-in') are only shown in UMS marks.

Definition of terms

A grade boundary is the minimum mark at which a grade can be achieved. For example, if the grade boundary for a Distinction is 36 marks, then 36 is the minimum mark at which a Distinction can be achieved. A mark of 35 would therefore be a Merit grade.

A raw mark is the actual mark awarded by the teacher or examiner for your e-portfolio. Raw mark scores can be downloaded by Exams Officers from Edexcel Online.

Raw marks are converted to UMS marks for all DiDA qualifications. This is because raw mark grade boundaries may change from exam session to exam session to take into account variations in the difficulty of Summative Assessment Briefs (SPBs). A Certifying Statement of Provisional Results (results slip) will always show the UMS mark for DiDA qualifications.

You can find out more about raw and UMS marks at www.edexcel.com/results

AiDA, CiDA, CiDA+ and DiDA								
Unit grade boundaries (SPB11)			Max Mark	Distinction	Merit	Credit	Pass	U
D101	Using ICT - WildCare (Level 1)	Raw	42	35	29	23	18	0
		UMS	42	36	30	24	18	0
