Grade Boundaries

Edexcel GCSE (9-1)

November 2019

Understanding our Edexcel GCSE (9-1) grade boundaries

This document shows the grade boundaries for reformed Edexcel GCSE (9-1) qualifications. For each set of grade boundaries, the maximum number of available marks is also shown.

GCSE (9-1) qualifications are linear, and only the maximum mark and grade boundaries for the overall qualification are available in this document. These are given in raw marks.

Definition of terms

A grade boundary is the minimum mark at which a numbered grade (between 9 and 1) can be achieved. For example, if the grade boundary for a Grade 6 is 70 marks, then 70 is the minimum mark at which a Grade 6 can be achieved. A mark of 69 would therefore be a Grade 5.

For linear qualifications, all assessments must be taken in the same exam session.

You can find out more about GCSE (9-1) here:
