Grade Boundaries

Edexcel International GCSE

January 2016

PEARSON

Understanding our Edexcel International GCSE grade boundaries

This document shows the grade boundaries for our suite of Edexcel International GCSE qualifications. For each set of grade boundaries, the maximum number of available marks is also shown.

International GCSEs are linear qualifications and only the maximum mark and grade boundaries for the overall qualification are available. These are given in raw marks.

For some of our Edexcel International GCSE subjects, more than one version of each exam paper was available this summer. Countries that are between 5 and 9 hours ahead of the UK will have used exam papers specific to that time-zone. These are indicated in the grade boundaries with an 'R' after the paper number.

Definition of terms

A grade boundary is the minimum mark at which a letter grade can be achieved. For example, if the grade boundary for a B is 60 marks, then 60 is the minimum mark at which a B can be achieved. A mark of 59 would therefore be a C grade.

For modular qualifications, assessments can be taken in various exam sessions throughout the duration of the course.

For linear qualifications, all assessments must be taken in the same exam session.

A raw mark is the actual mark awarded by the teacher or examiner for an assessment. Raw mark scores can be downloaded by Exams Officers from Edexcel Online.
