Understanding the external assessment grade boundaries for our LCCI financial and quantitative qualifications

This document shows the grade boundaries for our LCCI externally assessed tests. For each set of grade boundaries we have also provided the maximum number of available marks on the test.

Definition of terms

All of the grade boundaries for our LCCI externally assessed units are given in 'raw' marks. A raw mark is the actual mark awarded by our examiners for an assessment.

A grade boundary is the minimum mark at which a grade can be achieved. For example, if the grade boundary for a D is 75 marks, then 75 is the minimum mark at which a Distinction can be achieved. A mark of 74 would therefore be a Merit (M).
