# Understanding our Edexcel Level 2 Extended Mathematics Grade Boundaries

This document shows the grade boundaries for our Edexcel Level 2 Extended Mathematics qualifications. For each set of grade boundaries, the maximum number of available marks is also shown.

Our Edexcel Level 2 Extended Mathematics qualifications are graded Pass, Merit, Distinction and Distinction\*. If you don't get enough raw marks to achieve a Pass, you will be graded U which means 'Unclassified'.

## Definition of terms

A grade boundary is the minimum mark at which a particular grade can be achieved. For example, if the grade boundary for a Pass is 20 marks, then 20 is the minimum mark at which a Pass can be achieved. A mark of 19 would therefore be Unclassified.

A raw mark is the actual mark awarded by the examiner for an assessment. Raw mark scores can be downloaded by Exams Officers from Edexcel Online.

**You can find out more about marks at [qualifications.pearson.com/raw-ums-marks](https://www.pearson.com/qualifications/level-2-extended-mathematics/raw-ums-marks)**
