Grade Boundaries

**Edexcel Mathematics in Context
(Core Maths)**

June 2024

Understanding our notional Mathematics in Context (Core Maths) grade boundaries

The assessment for linear qualifications takes place at the end of the course, with learners taking all components in the same exam session, and grade boundaries are set at qualification level.

For Mathematics in Context (Core Maths) a component scaling factor is applied to the raw marks for each paper before adding them together in order to match what it says in the specification about the weight that we give to each paper. Please see the specification for details of the component scaling factors used.

The maximum total mark for this specification is 150 after weighting has been applied.

Mathematics in Context (Level 3 Core Maths)

Overall grade boundaries		Max Mark	A	B	C	D	E	U
7MC0	Mathematics in Context 01 02	Subject 150	118	102	86	71	56	0
