

Notional Component Grade Boundaries

Edexcel Mathematics in Context (Level 3 Core Maths)

June 2025

Understanding our notional Mathematics in Context (Core Maths) grade boundaries

The introduction of Mathematics in Context (Core Maths) has meant a change in the way results are calculated and displayed.

The assessment for linear qualifications takes place at the end of the course, with learners taking all components in the same exam session, and grade boundaries are set at qualification level. You can find more information here:

<http://qualifications.pearson.com/en/support/support-topics/results-certification/understanding-your-results-information-for-students/edexcel-a-level-results-explained.html>

We have committed to provide you with component-level grade boundaries for this qualification this summer.

Component-level grade boundaries in this linear qualification are notional only, and do not equate to a certificated grade.

Mathematics in Context (Level 3 Core Maths)

Notional Component Grade Boundaries			Max Mark	A	B	C	D	E	U
7MC0	Mathematics in context Paper 01	Raw	60	49	42	35	28	22	0
7MC0	Mathematics in context Paper 02	Raw	80	65	58	51	44	37	0
