Understanding our notional Mathematics in Context (Core Maths) Grade Boundaries

The introduction of Mathematics in Context (Core Maths) has meant a change in the way results are calculated and displayed.

The assessment for linear qualifications takes place at the end of the course, with learners taking all components in the same exam session, and grade boundaries are set at qualification level.

We have committed to provide you with component-level grade boundaries for this qualification.

Component-level grade boundaries in this linear qualification are notional only, and do not equate to a certificated grade.

You can find out more about marks at

<https://qualifications.pearson.com/en/support/support-topics/results-certification/understanding-marks-and-grades.html>

Mathematics in Context (Level 3 Core Maths)									
Notional Component Grade Boundaries			Max Mark	A	B	C	D	E	U
7MC0	Mathematics in context Paper 01	Raw	60	51	44	37	30	24	0
7MC0	Mathematics in context Paper 02	Raw	80	65	58	51	44	37	0
