

Results Day Support Guide

International GCSE, International AS and A level, iPrimary and iLowerSecondary Qualifications

In order to support you with understanding your results this Summer, we have provided some additional information to show you how we have calculated your students' results, and the data we have used in the calculation.

We have provided data at both centre and candidate level. We standardised grades using a statistical model similar to that used for our UK regulated qualifications. More detail about the data and how you may use it is described below.

Centre Level Data

The centre level data shows you the distribution of grades for your centre for each source of evidence (listed below) used to calculate your students' grades.

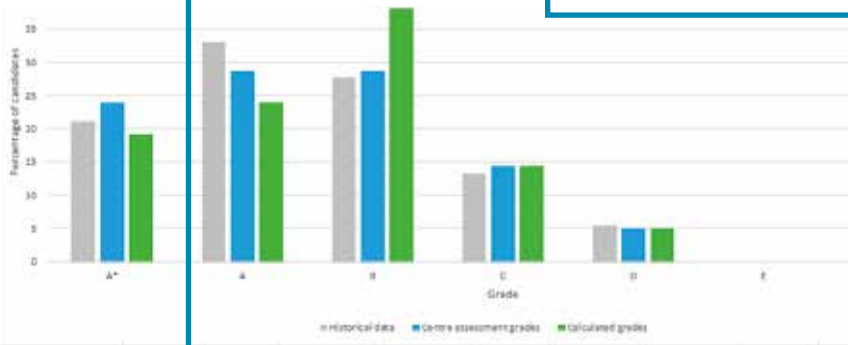

Centre Assessment Grades (2020)

This shows you the distribution of the centre assessment grades that you submitted to us

Calculated Grades (2020)

This is the distribution of the centre level outcomes after the standardisation of the centre assessment grades that were submitted. These are the final calculated grades for your centre and these are the results that will appear on candidates' certificates.

Historical data			Prior attainment adjustment		Centre assessment grades (2020)			Calculated grades (2020)		
Grade	Candidates	Percentage	Grade	Adjustment	Grade	Candidates	Percentage	Grade	Candidates	Percentage
A*	16	21.1	A*	0.0	A*	5	23.8	A*	4	19.0
A	25	32.9	A	0.0	A	6	28.6	A	5	23.8
B	21	27.6	B	0.0	B	6	28.6	B	8	38.1
C	10	13.2	C	0.0	C	3	14.3	C	3	14.3
D	4	5.3	D	0.0	D	1	4.8	D	1	4.8
E	0	0	E	0.0	E	0	0.0	E	0	0.0
U	0	0	U	0.0	U	0	0.0	U	0	0.0
Total	76	100.1			Total	21	100.1	Total	21	100.0

Prior Attainment Adjustment

This table will be blank for international centres.

However, a calculation was undertaken for each student according to the international standardisation model.

The model has established a measure of latent ability to determine the ability of students within the cohort. There are three pieces of information that helped to generate the measure, GCSE or A level results in a related subject, historical cohort performance on the International Qualification and the Centre Assessment Grade submitted.

The Centre Assessment Grade does not dictate what grade a student will actually receive but helps to identify the likely ability of the students.

The historic data uses the principle that both the cohort-level and centre-level value added relationship will remain consistent year to year. This is how outcomes are determined to be comparable to the previous years centre results.

The addition of the rank order data will ensure the grade calculated at an individual student level is allocated fairly and uses the judgment of the teacher and centre.

Historical Centre Data 2017-2020 (where relevant)

We have used your centre's results from the previous year for this qualification, where available, to standardise your centre assessment grades. This is based on data that we hold on your previous grade distributions in this qualification.

- For International GCSEs, the data used to calculate the grade before standardisation is from the reformed 9-1 International GCSEs from the June 2018 and June 2019 series where available.
- For most International AS & A Levels, the data used to calculate the grade before standardisation is your centre's grades from the June 2018 and 2019 series where available. For the linear IAL Law qualification, three years of historical data are used. If your centre is entering this subject for the first time then this table will be blank.
- For iPrimary and iLowerSecondary, the data used to calculate the grade before standardisation we have used your centres grades from 2019.

Results Day Support Guide

International GCSE, International AS and A level, iPrimary and iLowerSecondary Qualifications

Candidate Level Data

For each candidate you will see the rank order and centre assessment grade that you submitted. Alongside this you will see the final calculated grade.

Calculated grade

These are the final calculated grades from the standardisation process. These results will appear on your students' certificate.

Centre number: 99999
 Qualification: International A Level
 Specification name: BIOLOGY
 Specification code: WBI11

Summary

Centre Number	Qualification	Qualification Title	Learner ID	Centre Assessment Grades	Learner Rank	Grade
99999	WBI11	Biology	0001	A*	1	A*
99999	WBI11	Biology	0002	A*	2	A*
