Qualifications covered by this guide

This Centre user guide provides essential information for the purposes of understanding the Digital Assessment Plan (DAP). The following programmes are in scope for the DAP:

- BTEC Level 1/2 Firsts
- BTEC Level 2 Technicals
- BTEC Level 3 Nationals (this includes QCF, RQF and the AAQs)

For a full subject by subject list of qualifications in scope please see [Appendix A](#)

The DAP will **NOT** be available for the following programmes; these will continue to use the existing Excel template:

- BTEC Level 1 / Entry Level Introductory Suite
- BTEC qualifications accredited by SQA — for these, please refer to the BTEC Security Centre Management Handbook
- BTEC Entry Level (legacy programmes)
- BTEC Level 1 (legacy ungraded programmes)
- BTEC Specialist programmes from Entry to Level 3
- BTEC PSD, Workskills and Skilled for Life
- BTEC Higher Nationals (Level 4–7)
- (BTEC L3 Nationals 2018 & 2019 Creative qualifications (100% internally assessed))
- BTEC L3 Uniformed Protective Services (UPS)
- BTEC Early Years Qualifications (Including Firsts, Technicals and Nationals)
- L2P – Licence to Practice quals (including; Sport, Personal Training and Dental)
- BTEC L2 Skills
 - Art and Design Skills
 - Creative Media Skills
 - Esports, Music Industry Skills
 - Performing and Production Arts Industry Skills
 - Preparation for Public Services
 - Sports Industry Skills

Please note: If you are part of a consortia, you will **NOT** complete the Digital Assessment Plan. Please continue to use the Excel template found on the [BTEC Forms and Guides webpage](#).

We will keep you updated as the service expands to cover additional programmes in future.

What is the Digital Assessment Plan (DAP)?

The Digital Assessment Plan is a web-based form designed to streamline the assessment planning process for BTEC programmes. It transforms the traditional Excel based assessment plan into a dynamic, electronic document that serves as your central hub for managing all aspects of qualification assessment and quality assurance.

The plan remains a working document that you can update throughout the delivery of a qualification. The digital format enables you to maintain version control and create a clear audit trail whenever changes are made.

Purpose

The digital assessment plan serves multiple critical functions:

Centralised Information Management

The Digital Assessment Plan acts as a 'one-stop shop' where all assessment planning information is stored in a single location. This creates one reliable source of truth for your data, accessible to authorised users within your Centre. All stakeholders can access the same up-to-date information, eliminating confusion caused by multiple versions of documents.

Quality Assurance and Validation

From September, Pearson will undertake several validation checks including whether requirements of the qualification are being met, such as rules of combination and unit sequencing. The process will also help to identify potential issues early, such as qualifications that may be expiring soon, supporting earlier interventions so that you can take corrective action before problems arise.

Communication and Transparency

The DAP streamlines communication between Centres and Pearson as it removes the need for multiple exchanges with different Standards Verifiers and business areas.

Benefits

The DAP plan offers significant advantages over the excel documents currently requested including:

1. Pre-populated Information and reduced administration

Unit information is automatically pre-populated, significantly reducing manual data entry. This minimises errors and saves valuable time that can be redirected to teaching and learning. The system also allows you to duplicate entire assessment plans, making it easy to replicate successful planning structures across different cohorts, multi-sites or academic years.

2. Earlier Support and Validation Checks

Pearson validation checks ensure that rules of combination are correctly applied after submission of the assessment plan/s. You will receive alerts from September about potential issues, such as incompatible unit combinations or qualifications nearing their expiry date. This early warning system enables you to make informed decisions and adjustments before they impact learner outcomes.

3. Single Source of Truth

All assessment planning information is consolidated in one secure, web-based location. This eliminates the confusion and risk associated with multiple versions of documents circulating among team members. Everyone works from the same current information, ensuring consistency across your Centre.

4. Collaborative Working

Whilst the Quality Nominee has overall oversight, Pearson recognises that assessment planning is often a collaborative effort. Lead Internal Verifiers and qualification teams can contribute to the plan development, ensuring input from those closest to qualification delivery.

5. Improved Audit Trail

Automatic tracking of last updated date creates an audit trail to support internal reviews and external quality assurance activities.

Key features of this guide

Following this guide will allow you to:

- Access the Digital Assessment Plan (DAP) via Edexcel Online (EOL)
- Access Centre dashboard and see pre-populated qualifications delivered in the last two academic years
- MATs and Multi-Site Centre filters
- Delete a qualification from the dashboard
- Add qualification to the dashboard
- Create, Save and Submit Assessment Plan(s) for the required mandatory and optional unit(s) for Single or Multi Site Centre's
- Add an extra Assessment Plan to a qualification
- Download a completed AP template
- Duplicate an Assessment Plan
- View Assessment Plan
- Delete an Assessment Plan
- Edit a Pending Assessment Plan and resubmit updates

Please note: the DAP is only for qualification registrations made for AY 26/27 and must cover the full duration of the qualification, however, Centre's can, if they wish to do so, create an assessment plan for any in-flight learners. If you do not wish to use it for in-flight learners, then the existing Excel template can be used for 26/27 only.

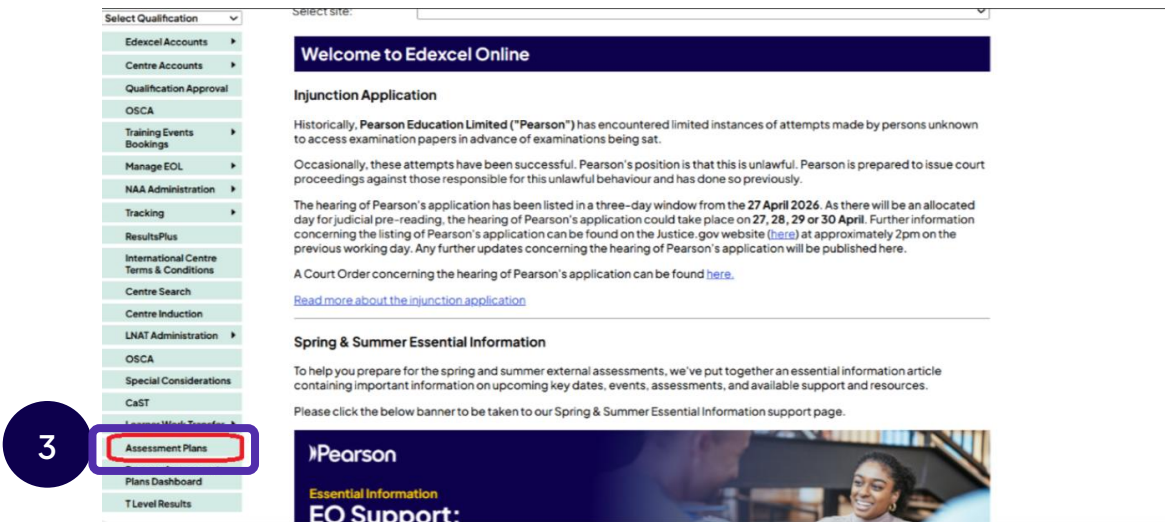

Please note: As this is a new process this year you are expected to complete your DAP by **November 13th**. This allows time for validation checks and for you to address any issues ahead of the Standards Verifier (SV) process in January.

Accessing the Digital Assessment Plan

Access the assessment plan service via EOL

Steps
1. Go to Edexcel Online (EOL)
2. Use your credentials to login to EOL
3. Press the Assessment Plan menu to access the Digital Assessment Plan service
4. Assessment plan platform will open in a new tab on your web browser

Centre Dashboard

Single Site Centre or Multi-site Centre – Create, Save and Submit Assessment Plan(s) for the required mandatory and optional unit(s) for the qualifications you are delivering.

Steps
1. Find and select the required qualification to expand the row.
2. Select the "Not Started" AP, press "Action" and then "Edit Assessment Plan" to access the site selection screen where you'll link the site to the AP.
3. In the Site Selection screen, select a single centre, press "Save selection" and press "Continue to Assessment Plans" to access the qualification Assessment Plan – Single Site
3. In the Site Selection screen, select at least 2 centres, press "Save selection" and press "Continue to Assessment Plans" to access the qualification Assessment Plan – Multi Site
4. Fill in the fields shown on the Assessment Plan screen. You must: - enter the Lead IV details under the Centre and Lead IV details section. - enter the course 'delivery start date' - add all assignment/s using the 'add assignment' button for all internal units and ensure information for each mandatory unit and required optional unit(s) is completed - press the 'optional unit' button and then use the '+add' button next to each optional unit to add it. - add details for the external units by adding exam dates using the date picker icon - ensure that you identify whether the assignment brief is Authorised Assignment Brief (AAB) or not using 'Yes' or 'No'. - if you have more than one group, use the 'add group' feature, this will create a new blank assessment plan. - if you simply want to duplicate an assessment plan for another group press the 'duplicate' button. This will duplicate the AP into another group, retaining the units and dates previously stored.
5. Save the AP. You will be redirected back to the dashboard
6. In the dashboard, find and select the same qualification/sector/level/size. The AP status has now changed from "Not Started" to "In Progress". Press "Action" and then "Edit Assessment Plan" to access the site selection screen.
7. In the site Selection Screen press "Continue to Assessment Plan" to access the Assessment Plan
8. If you wish to delete a group from the AP, click on the group and selecting the bin icon. This will remove that group and any linked information for that group.
9. Press Submit. If the AP can be submitted, you will see the Submit Assessment Plan confirmation message. Press "Submit Assessment Plan". You'll automatically return to the Dashboard. If the AP cannot be submitted you will not see the confirmation message. Select each group and fix the highlighted issue(s). Then press "Submit Assessment Plan" again.
10. In the dashboard, find and select the same qualification/sector/level/size. The AP status has changed from "In Progress" to "Pending Approval"

Frequently asked questions – FAQs

What is changing?

For 2026/2027, Pearson is making changes to assessment planning to make the process simpler, clearer and more consistent. The main changes are:

- **A new Digital Assessment Plan will replace the Excel-based process for Qualifications and Learners registered in AY26/27***. Assessment plans will now be online and pre-populated with some of the key information you need. This means less manual work for you and a single, shared plan for both you and Pearson. It allows checks on rules of combination and other compliance points to happen earlier in the process.

Please note: the DAP is only for qualification registrations made for AY 26/27 and must cover the full duration of the qualification, however, Centre's can, if they wish to do so, create an assessment plan for any in-flight learners. If you do not wish to use it for in-flight learners, then the existing Excel template can be used for 26/27 only.

What are the benefits of these changes?

The Digital Assessment Plan offers significant advantages over the Excel documents currently requested.

1. Pre-populated Information and reduced administration

Unit information is automatically pre-populated, significantly reducing manual data entry. This minimises errors and saves valuable time that can be redirected to teaching and learning. The system allows you to duplicate entire assessment plans, making it easy to replicate successful planning structures across different cohorts, multi-sites or academic years.

2. Earlier Support and Validation Checks

Pearson validation ensures that rules of combination are correctly applied after submission of the assessment plan/s. You will receive alerts about potential issues, such as incompatible unit combinations or qualifications nearing their expiry date. This early warning system enables you to make informed decisions and adjustments before they impact learner outcomes.

3. Single Source of Truth

All assessment planning information is consolidated in one secure, web-based location. This eliminates the confusion and risk associated with multiple versions of documents circulating among team members. Everyone works from the same current information, ensuring consistency.

4. Collaborative Working

While the Quality Nominee has overall oversight, the system recognises that assessment planning is often a collaborative effort. Lead Internal Verifiers and qualification teams can contribute to the plan development, ensuring input from those closest to qualification delivery.

5. Improved Audit Trail

Automatic tracking of last updated date. This creates an audit trail for internal reviews and external quality assurance activities.

What is the Digital Assessment Plan?

The digital assessment plan is a web-based form designed to streamline the assessment planning process. It transforms the traditional Excel based assessment plan into a dynamic, electronic document that serves as your central hub for managing all aspects of qualification assessment and quality assurance.

The assessment plan remains a working document that you can update throughout the delivery of a qualification. The digital format enables you to maintain version control and create a clear audit trail whenever changes are made.

Which qualifications are available in the Digital Assessment Plan?

The following qualifications are available in the Digital Assessment Plan:

- BTEC Level 3 Nationals (QCF, RQF and AAQs)
- BTEC Level 2 Firsts
- BTEC Level 2 Technicals

A full list of qualifications in scope can be found in [Appendix A](#) of this guide.

The DAP will **NOT** be available for the following programmes; these will continue to use the existing Excel template:

- BTEC Level 1 / Entry Level Introductory Suite
- BTEC qualifications accredited by SQA — for these, please refer to the BTEC Security Centre Management Handbook
- BTEC Entry Level (legacy programmes)
- BTEC Level 1 (legacy ungraded programmes)
- BTEC Specialist programmes from Entry to Level 3
- BTEC PSD, Workskills and Skilled for Life
- BTEC Higher Nationals (Level 4–7)
- BTEC L3 Nationals 2018 & 2019 Creative qualifications (100% internally assessed)
- BTEC L3 Nationals UPS
- BTEC Early Years Qualifications (Including Firsts, Technicals and Nationals)
- Any Licence to Practice quals (Including; Sport, Personal Training and Dental)
- BTEC L2 Skills
 - Art and Design Skills
 - Creative Media Skills
 - Esports, Music Industry Skills
 - Performing and Production Arts Industry Skills
 - Preparation for Public Services
 - Sports Industry Skills

We will share updates when additional programmes are brought into scope in future.

Please note: If you are part of a consortia, you will not complete the Digital Assessment Plan. Please continue to use the Excel template found on the [BTEC Forms and Guides webpage](#).

Are these changes mandatory?

Yes. Centres are required to complete the DAP for any qualifications in scope starting delivery in the 2026/27 academic year.

As this is a new process this year you are expected to complete your DAP by **November 13th**. This allows time for validation checks and for you to address any issues ahead of the Standards Verifier (SV) process in January.

This extended timeframe is in recognition of the first year of delivery of the DAP moving from the Excel based document. To support you with getting started we will provide training, guidance and support to help Centre's prepare.

Getting ready

What training and guidance are available?

We want Centre's to feel confident using the Digital Assessment Plan from day one. Training and guidance will be available from July 2026, including step-by-step guides and live training sessions. For further guidance on training please refer to our [Quality Assurance Homepage – Events and support](#).

Access, roles and permissions

How do you access the system?

Access the Digital Assessment Plan through Edexcel Online (EOL). Once logged in, select the Assessment Plans menu. Click on 'Continue to Assessment Plans' to open your dashboard. Any Centre staff who need access to Edexcel Online can be provided with a basic account by your Centre's Exams Officer or administrator.

The DAP will not open after I select it in EOL. What should I do?

1. Look for another tab that will open to access DAP in your web browser.
2. Check for pop ups being blocked (this knowledge-based article should help you to resolve issues relating to pop ups: [Pop-up Blocker: How To Disable](#). If this doesn't work, please get in contact with us through the [support portal](#))
3. Clear your cache/cookies

Who can use it?

Any Centre staff member who needs access can use the system. This may include the Quality Nominee, Lead Internal Verifiers and tutors/assessors.

Who sets up accounts?

The Centre's Exams Officer/Admin creates accounts internally via Edexcel Online. See our guide to creating EOL accounts: [Edexcel Online: Create A New Account](#). Staff using the Digital Assessment Plan will need basic access.

I am having trouble accessing the Digital Assessment Plan?

If you are struggling to login to the DAP platform or having issues accessing the content of the digital assessment plan, please contact us through the [Pearson Support portal](#).

Creating and completing the Digital Assessment Plan (DAP)

What does the Centre dashboard show?

The dashboard shows all qualifications your Centre has delivered in the last two academic years, along with the status of any related assessment plans:

- **Not Started:** plan exists but has not been edited
- **In Progress:** plan has been saved with some content but not yet submitted
- **Pending Approval:** plan has been submitted and is awaiting Pearson validation
- **Approved:** Plan has been approved by Pearson's validations (*can still be edited throughout the year*)
- **Rejected:** Pearson's validation has found issues with the assessment plan – Centre actions required (*AP will move into Pending Approval state whilst changes are actioned*). An email notification will be sent to the Quality nominee and Lead IV detailing what needs to be done.

You can search for and filter qualifications by suite, level, size and sector. You can also create, edit, duplicate, view, download (Excel) and delete assessment plans, and add qualifications that are not already shown. If a qualification has not been delivered in the last two years or has no active learner registrations, it will not appear automatically in the dashboard. If a qualification is deleted, the qualification and associated assessment plans will be permanently removed: a warning message will appear before deletion is confirmed.

Who should complete and maintain the Digital Assessment Plan?

While the Quality Nominee typically has overall oversight, the DAP can also be completed and updated by Lead Internal Verifiers, tutors and other authorised staff involved in

qualification delivery. Centres should decide locally who is responsible for maintaining plans.

Do I need to complete ALL required units for the whole duration of the qualification?

Yes, for all learners registered on qualifications from AY26/27 you will be required to complete all assessment information for each mandatory and optional unit of the duration of the qualification. For e.g. if you are delivering a Diploma over two years, both year 1 and year 2 of the qualifications will need to be completed with respect to dates/assignments etc. prior to submission. That way we can run our validations accurately on the full information, preventing further notifications for incomplete data.

What if I do not know my dates or assessors for AY27/28?

That is understandable, what we would recommend is to estimate the dates for year 2 of delivery or put dates in chronological order 1 day apart if unknown. The AP is a working document so you can edit and change the information throughout the year or at the end of year 1.

How do I add a qualification that is not already shown on my dashboard?

Select 'Add New Qualification' from the dashboard and complete the required fields — qualification suite, level, size, sector, and qualification title. Once added, it will appear on your dashboard straight away. You can use the search function to confirm it is there. Note that you will only be able to view and add a qualification that your Centre has been approved to deliver.

We have approval but the qualification is not showing when I click 'add a qualification'?

If a qualification is not there and you need support, please do not wait — reach out to us via the [Pearson Support Portal](#).

Can I remove or delete a qualification from my dashboard?

Yes. Select the bin icon next to any qualification you no longer need on your dashboard. A warning message will appear before anything is deleted, so there is no risk of accidental removal. Please be aware that deleting a qualification will also permanently remove any associated assessment plans, and this cannot be undone — so it is worth double-checking before you confirm.

Can deleted qualifications or assessment plans be restored?

No. Once a qualification or assessment plan has been deleted and the deletion confirmed, it is permanently removed. Centre's should carefully review warning messages before confirming deletion.

How do I create a new assessment plan?

Find the qualification on your dashboard and expand the row. You will see an assessment plan marked 'Not Started'. Select 'Action' and then 'Edit Assessment Plan' to begin.

You will first be asked to confirm which site or sites the plan applies to. Once saved, you can move straight into the plan itself and begin filling in the details.

What information needs to be included in the assessment plan?

You will be asked to provide the following information:

- Enter the Lead IV details under the Centre and Lead IV details section.
- Enter the course 'delivery start date'
- Add all assignment/s using the 'add assignment' button for all **internal** units and ensure information for **each** mandatory unit and **required** optional unit(s) is completed
- When selecting dates from the date picker it will default to the current day/month/year. Therefore, if backdating dates you will need to select the year and cycle to a new date.
- Ensure that you identify whether the assignment brief is Authorised Assignment Brief (AAB) or not using 'Yes' or 'No'.
- Press the 'optional unit' button and then use the '+add' button next to each optional unit to add it.
- Add details for the **external** units by adding exam dates using the date picker icon
- If you have more than one group, use the 'add group' feature, this will create a new blank assessment plan.
- If you simply want to duplicate an assessment plan for another group press the 'duplicate' button. This will duplicate the AP into another group, retaining the units and dates previously stored.

The plan must be fully complete for every unit for the qualification (based on rules of combination) before you can submit it. If anything is missing, the system will highlight it so you can correct it before submitting.

How do groups work, and can I have different plans for different cohorts?

Groups help you manage different cohorts or delivery arrangements within the same qualification for the same academic year. You can add as many groups as you need using 'Add Group' or copy an existing group using 'Duplicate Group' – which is handy if several groups follow the same or similar delivery pattern.

Each group holds its own unit and assignment information, so you have full flexibility to reflect on how your Centre delivers the qualification.

We have a learner following a different delivery schedule. How should this be reflected?

Use the Group functionality to create a separate assessment plan for that learner or cohort. This allows unit and assignment dates to be tailored separately from the main group.

How do the assessment plans work if we deliver across multiple sites?

The system fully supports multi-site delivery. When you create an assessment plan, the Site Selection screen lets you choose which sites the plan applies to. You can select a single site or multiple sites, and the plan will be linked to all of them.

If you need to change the site selection after saving, for example to add a site, you can unlock it at any time using the 'Unlock Selection' button.

We are part of a consortia, does the Digital Assessment Plan still apply?

No. If you are part of a consortia, you will not complete the Digital Assessment Plan. Please continue to use the Excel template found on the [BTEC Forms and Guides webpage](#).

Can a Centre have more than one assessment plan per size of qualification?

Not per size of qualification. Each qualification size e.g. Ext Cert, Diploma, Ext Diploma will have its own assessment plan visible on the DAP dashboard. If you need more groups within a qualification size, then please see the above question on groupings.

Can I save and come back later or does the whole assessment plan need to be completed in one go?

You can save your progress at any time and return to it later by hitting the save button. Once saved, the plan's status will show as 'In Progress' on your dashboard, so it is easy to see immediately what still needs completing. The plan is designed to be updated as needed during delivery.

Can multiple staff members work on the same assessment plan?

Yes. The DAP has been designed as a shared digital document which can be accessed and maintained by authorised users within your Centre. This supports collaborative work and ensures everyone is working from the same version.

We have multiple assessors that teach the same units. Are we able to highlight more than one assessor in each box?

Yes, the assessor boxes on the DAP are free text boxes, meaning you can put multiple assessor names in the box. Separate names with a comma.

Can I download plans?

You can download any assessment plan directly from the dashboard — both blank templates and completed plans. Select 'Action' next to the relevant plan and choose 'Download Assessment Plan'. Plans download in the Excel format your team will already be familiar with.

If you need to download multiple plans at once, the 'Bulk Download' function lets you download up to 100 plans in a single action.

If you want to share a copy of the assessment plan with students or your SV, you can do so using the downloaded version. The format will be familiar to most Centre teams.

Can I duplicate plans?

If you have a plan that works well — for example, for a particular cohort or academic year — you can duplicate it with one click. Select 'Action' and then 'Duplicate Assessment Plan'. A copy will be created with a 'Not Started' status, ready for you to adapt as needed. This is particularly useful for multi-site Centre's or for replicating successful delivery patterns across different groups or across academic years.

What happens once I submit my assessment plan?

Once all required information is complete, select 'Submit'. You will be asked to confirm, and then you will be returned to your dashboard, where the plan status will be updated to 'Pending Approval'.

Pearson will then review the plan from September onwards and carry out validation checks. The plan will then fall into one of two statuses, 'Approved' if everything is ok or 'Rejected'. If anything needs your attention, we will contact your Quality Nominee and Lead IV via email directly and explain what needs to be changed or actioned.

Can I make changes after I have submitted it?

Yes. Plans for 'Pending Approval' status can still be edited. Find the plan on your dashboard, select 'Edit Assessment Plan', make your changes, and resubmit. You do not need to start again from scratch.

Why can't we just submit our existing Excel Assessment Plans to Pearson?

The Digital Assessment Plan is designed to make the process easier for you to manage. If you had to submit plans by email or file sharing, you would need to keep sending updated versions every time something changed. This would create more admin and increase the risk of duplicate, outdated or incorrect versions being used.

Using the Digital Assessment Plan means you can manage everything in one place. It gives you one live version of the plan, makes updates easier, helps highlight issues more quickly and provides a clearer record of what has been submitted and changed over time. Overall, it is intended to reduce admin, make plans easier to keep up to date and give you a more reliable way to manage assessment planning throughout the year.

Can we link the Digital Assessment Plan with our Management Information System?

We know many Centre's use MIS systems alongside their assessment planning, and connecting those systems is something we are actively looking at. API integration with Management Information System providers is on our development roadmap but it is not available currently. We will update you as this progresses.

I have completed the assessment plan, but the system will not allow me to submit, why?

The plan must be fully complete for every applicable unit before it can be submitted. If any required fields are missing, the system highlights them. It will ask you to review each unit for highlighted fields and complete them before resubmitting.

The platform will highlight to users which mandatory boxes are required to successfully submit the plan. There is an Asterix next to each box requiring data entry and guidance on date pickers regarding entry of dates in line with year start date.

What is site selection and when does it lock?

Site Selection is a screen where you confirm which site or sites a plan applies to. Once saved, the selection locks. It can be unlocked at any time by selecting 'Unlock Selection', and any user with appropriate access can do this.

How do I share an assessment plan with my Standards Verifier (SV)?

Your Standards Verifier will contact you from January as normal. When the time comes, download the assessment plan using the Download Assessment Plan function. The exported Excel version can then be shared with your Standards Verifier as required.

My learners will be due to top up to a larger size qualification. Do we need to complete an assessment plan for the larger size.

Yes. If learners, for example, are topping up from Ext Cert to Diploma then an assessment plan will be needed in the platform for the larger size qual. This means populating the new larger size plan with historical information from the lower size qualification.

Assessment delivery and assignment planning

What is an Authorised Assignment Brief (AAB)?

A Pearson Authorised Assignment Brief (AAB) is an assignment brief created and quality assured by Pearson. When you use a Pearson AAB, the correct assessment structure is already in place, which simplifies the quality assurance process.

In your assessment plan, you will indicate for each assignment whether it is a Pearson AAB or a Centre-produced brief. This helps Pearson identify which assignment briefs need reviewing.

Do we need to enter assessment criteria or learning outcomes for each assignment into the assessment plan?

No — you do not need to enter individual assessment criteria or learning outcomes manually. The plan includes a simple dropdown to indicate whether each assignment uses a Pearson Authorised Assignment Brief (AAB). Where an AAB is selected, the correct Learning Aim to Learning Criteria split is already built in.

For assignments that are not Pearson AABs, your Lead Internal Verifier will continue to check them and carry out Internal Verification of those briefs prior to delivery.

Validation, approval and Pearson checks

What checks are Pearson carrying out?

From September, automatic checks will run on all submitted assessment plans. These include checks on qualification rules, expiry dates and date errors. Pearson teams will also carry out some manual checks so that any issues can be picked up and resolved earlier.

What happens if something is missing or incorrect?

If any issues are identified, the relevant team will contact your Centre directly and explain what needs to be changed. The aim is to resolve issues early before they affect learner outcomes.

What does pending approval mean?

When you submit a plan, its status changes to 'Pending Approval' while Pearson reviews it. If any issues are identified, Pearson will contact your Centre directly.

What happens if a plan fails validation?

When you submit a plan, its status changes to 'Pending Approval' while Pearson reviews it. If any issues are identified during the validation stage the assessment plan will be updated to 'Rejected' and Pearson will contact your Centre directly with a notification detailing the issues.

Deadlines, reminders and ongoing compliance

What are the key deadlines?

As this is a new process this year you are expected to complete your DAP by **November 13th**. This allows time for validation checks and for you to address any issues ahead of the Standards Verifier (SV) process in January.

This extended timeframe is in recognition of the first year of delivery of the DAP moving from the Excel based template document for AY26/27 programmes.

To support you with getting started we will provide training, guidance and support to help Centre's prepare.

What support is available to help us meet the deadline?

If your Centre is in a situation where you need support, please do not wait — reach out to us via the [Pearson Support Portal](#).
