

## Resubmission and retake rules – Scenarios

**Apply the rules discussed on the video to these given scenarios.**

1. A student submits the assignment on time but has only provided evidence for the pass criteria. Can a resubmission be authorised for the merit and distinction criteria?
2. On resubmission a student improved their work from a pass to a merit; can they have another resubmission to achieve the distinction?
3. A student has submitted work on time and has achieved all merit criteria, but one of the pass criteria is not fully met. Can the student have a resubmission and be awarded a merit as their final grade?
4. A student was given a resubmission, but has not handed the additional work in by the deadline; can you give them more than 15 working days?
5. An assessor identifies plagiarism in a student's work after they have signed the declaration of authenticity. Can the student be authorised a resubmission or retake?
