Annotation of Evidence

- ❑ It is good practice to make annotations on learner work
- ❑ This helps the learner, Assessors, Internal Verifiers and Standards Verifiers identify where evidence towards specific assessment criteria can be found
- ❑ Annotations themselves do not constitute confirmation of achievement of specific assessment criteria
- ❑ Be careful comments do not specify improvement
- ❑ It is good practice for Assessors to 'mark' spelling and grammar

SPAG: mistakes in spelling and grammar **should not** influence assessment decisions unless:

- the mistakes are so problematic that they undermine the evidence of learner understanding
- specific assessment criteria require communication, spelling and grammar and/or the correct use of technical language.
