

Pearson Edexcel A level Art and Design: Coursework marking training - Module 2: Applying the assessment grids for Components 1 and 2 (marking exercise)

Instructions for completing Module 2

In this module you will be marking four portfolios for each component using the performance calculator in preparation for Module 3.

You will need to download the following materials:

- Four portfolios for each component across a range of endorsements – 8 exemplars in total
 - Sample 1 – Carla
 - Sample 2- Gemma
 - Sample 3 – Kate
 - Sample 4 – John
 - Sample 5 – Marlon
 - Sample 6 – Sapphire
 - Sample 7 – Iris
 - Sample 8 – Violet
- The Performance Calculators and Assessment Grids. These allow you to capture the marks for each portfolio (one for each portfolio). For each exemplar you mark, you will need to print them out and fill them in as you mark the portfolios. Please keep these, as you will need them for reviewing your marks, when you compare them against the standard marks awarded by the senior team, for each of the samples in Module 3.

If you are unsure about the requirements of the assessment, please go back to module 1.
