<p><b><i>Project outcomes that are ephemeral</i></b></p> <p>The performance, event (etc) takes place. There is likely to be a little evidence of preparation/rehearsal. Some of the relevant <u>resources</u><sup>6</sup> for the performance/event have been obtained by the learner, and are used with limited success in realising the project outcome in a way that addresses the project objectives. Limited understanding of the topic is apparent. There is limited supporting information to describe the stages that have been gone through or how ideas have developed. Assessment Object	Moderator Comments	Marks
AO1	<p>Very impressive piece of level 1 work.</p> <p>AO1 PP form and activity log included information given is developed and clear, learner has included a clear title and objectives for the project, reasons why the learner has chosen the project.</p> <p>There is adequate information about the resources that will be required and what they will be used for</p> <p>The activity log contains information about most of the activities undertaken during the course of the project. Activities follow the project proposal form however is change to the plan are limited therefore accessing marks at the lower end of MB2</p>	4+1

A02	A02 Excellent research primary and secondary, with a range of sources included together with some analysis. Most of the information gathered and sources used are relevant to the project objectives. The information gathered is applied to the project outcomes. Documentary sources are identified in a bibliography clearly enough to allow sources to be retrieved. MB3	6+1
A03	A03 Good development of the topic, answering the project question, ideas are developed in a way that shows some understanding of the topic. There is an answer to the question. There is some evidence of supporting arguments and some consideration of alternative viewpoints or interpretations. The project is sufficiently clear for the reader to understand without too much effort. Information is generally presented in a logical order with some structuring. The project includes some relevant features of effective presentation	15+1
A04	Review focused on the project title, includes skills learnt however developments for improvement for developments are limited therefore accessing marks at the lower end of MB2	4+1
