

Recognition of Pearson Qualifications

Supporting the global demand for university education

Pearson and our Qualifications

We are the world's leading learning company with over 3.4 million learners around the world each year. Our products and services are used by millions of teachers and learners every day. At Pearson, our mission is to help people make progress in their lives through learning.

Our qualifications business makes us the UK's largest awarding body. We are regulated by UK national regulators. We offer a range of academic and vocational qualifications that are globally recognised and benchmarked, with educational excellence rooted in names like Edexcel, BTEC and LCCI. Pearson works with universities, employers and professional bodies to create qualifications that provide learners with the skills they need to succeed in the workplace.

Our academic qualifications including International A level and International GCSE are designed for global learners and align closely with our GCE A levels and GCSEs, both part of the UK National curriculum. Our Extended Project Qualification meets the AS level standard and carries UCAS points.

Our vocational qualifications include LCCI and BTEC, from entry level through to Higher National Diplomas. These qualifications all equip learner with key skills whilst providing progression opportunities onto an undergraduate degree.

Our BTEC professional qualification in Strategic Management and Leadership allows sideways progression onto a Masters degree.

The Pearson Test of English Academic (PTE Academic) is a computer-based academic English language test trusted by universities, colleges and governments around the world.

Recognition

Students taking our qualifications often do so in pursuit of higher education. As such, we would like to provide clear routes to help them realise their opportunities to progress into university. Globally, over 500 universities have already formally recognised our qualifications.
